

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

iShares World ex Switzerland Small Cap Screened Equity Index Fund (CH) (the "Fund"), **Class X15 CHF** (the "Unit Class"), ISIN: **CH0244037203**, is issued by BlackRock Asset Management Switzerland AG (the "Fund Management Company") which is part of the BlackRock, Inc group.

The Fund Management Company is authorised in Switzerland and supervised by the Swiss Financial Market Supervisory Authority ("FINMA") and FINMA is responsible for supervising the Fund Management Company in relation to this Key Information Document.

More information is available at www.blackrock.com or by calling **+41 44 560 53 50**. This document is dated 07 July 2026.

Caution: You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type: The Fund is a sub-fund of BlackRock Investment Funds Switzerland, an umbrella fund under Swiss law, authorised by FINMA as "Other funds for Traditional Investments", which was established under the Swiss Collective Investment Schemes Act (CISA) of June 23, 2006, as amended.

Term: The Fund has been established for an indefinite period but in certain circumstances, as described in the Fund prospectus (with integrated fund contract) (together the "Prospectus"), the Fund or individual sub-funds may be dissolved by the Fund Management Company or the Custodian Bank by terminating the fund contract without notice or by order of FINMA, and, in each case, subject to compliance with the Prospectus and applicable regulation.

Objectives

- The Fund aims to achieve a return on your investment through a combination of capital growth and income on the Fund's assets, which reflects the return of the MSCI World ex Switzerland Small Cap ESG Screened ex Select Securities Index (a custom index calculated by MSCI based on the stock exclusions provided by SVVK-ASIR (Swiss Association for Responsible Investments) (the "Benchmark Index").
- The Fund aims to invest so far as possible and practicable in the equity securities (such as shares) that make up the benchmark index.
- The Benchmark Index measures the performance of a sub-set of equity securities within the MSCI World ex Switzerland Small Cap Index (the "Parent Index") which excludes issuers from the Parent Index based on the index provider's environmental, social and governance (ESG) exclusionary criteria. In addition, the Benchmark Index also excludes a set of securities based on an exclusion list provided by the Swiss Association for Responsible Investments (SVVK-ASIR).
- The Fund is passively managed and uses optimising techniques to achieve a similar return to its benchmark index. These may include the strategic selection of certain securities that make up the Benchmark Index or other equity securities not making up the Benchmark Index which provide similar performance to certain constituent securities. These may also include the use of financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets). The Fund may obtain indirect exposure (through, including but not limited to, FDIs and units in collective investment schemes) to securities considered not to satisfy the ESG criteria. The Fund may also engage in short-term secured lending of its investments to certain eligible third parties to generate additional income.
- The investment manager may use FDIs for efficient portfolio management purposes (i.e. to reduce risk within the Fund's portfolio, reduce investment costs and generate additional income).
- The price of equity securities fluctuates daily and may be influenced by factors affecting the performance of the individual companies issuing the equities, as well as by daily stock market movements, and broader economic and political developments which in turn may affect the value of your investment.
- The return on your investment in the Fund is directly related to the value of the underlying assets of the Fund, less costs (see "What are the costs?" below).
- The relationship between the return on your investment, how it is impacted and the period for which you hold your investment is considered below (see "How long should I hold it and can I take my money out early?").
- The Custodian Bank of the Fund is State Street Bank International GmbH, Munich, Zurich Branch.
- Further information about the Fund can be obtained from the Prospectus and the latest annual report and half- yearly reports. These documents may be obtained free of charge in German from the Fund Management Company, the Custodian Bank and from the distributor. The latest information including 5 year(s) of past performance and previous performance scenario about the Fund can also be found at www.blackrock.com. Unit prices are published daily on the electronic platform at www.fundinfo.com.
- Your units will be accumulating units (i.e. dividend income will be included in their value).
- Your units will be denominated in Swiss Franc, the Fund's base currency.
- You can buy and sell your units daily.

Intended retail investor: The Fund is intended for investors with the ability to bear losses up to the amount invested in the Fund (see "How long should I hold it and can I take my money out early?"). Please refer to the Prospectus for detailed information on the individual unit classes.

Insurance benefits: The Fund does not offer any insurance benefits.

What are the risks and what could I get in return?

Risk Indicator

Lower risk

Higher risk

1	2	3	4	5	6	7
 The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.						

- The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.
- We have classified this product as 4 out of 7, which is a medium risk class. This classification rates the potential losses from future performance at a medium level, and poor market conditions could affect the value of your investment. This classification is not guaranteed and may change over time and may not be a reliable indication of the future risk profile of the Fund. The lowest category does not mean risk free.
- **Be aware of currency risk.** If you receive payments in a currency that is different to the product's base currency, the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.
- Please refer to the product's Prospectus for details of other materially relevant risks that may apply to this product.
- This product does not include any protection from future market performance so you could lose some or all of your investment.
- If the product is not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product, which may include input from benchmark(s) / proxy, over the last ten years. Markets could develop very differently in the future.

Recommended holding period : 5 years		Example Investment : CHF 10,000	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress*	What you might get back after costs	7,000 CHF	3,800 CHF
	Average return each year	-30.0%	-17.6%
Unfavourable**	What you might get back after costs	7,530 CHF	11,040 CHF
	Average return each year	-24.7%	2.0%
Moderate**	What you might get back after costs	10,630 CHF	13,440 CHF
	Average return each year	6.3%	6.1%
Favourable**	What you might get back after costs	17,730 CHF	18,870 CHF
	Average return each year	77.3%	13.5%

* The stress scenario shows what you might get back in extreme market circumstances.

** This type of scenario occurred for an investment in the product and/or benchmark(s) or proxy between :

Scenarios	1 year	5 years
Unfavourable	March 2019 - March 2020	March 2021 - March 2026
Moderate	December 2022 - December 2023	March 2019 - March 2024
Favourable	March 2020 - March 2021	June 2016 - June 2021

What happens if BlackRock Asset Management Schweiz AG is unable to pay out?

This product is a contractual fund under the Collective Investment Schemes Act (CISA), which requires BlackRock Asset Management Schweiz AG to segregate the assets of the product from its own assets. In the event of the insolvency of BlackRock Asset Management Schweiz AG, the Fund's assets in the safekeeping of the Custodian Bank will not be affected.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time: The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return).
- For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- CHF 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	5 CHF	33 CHF
Annual cost Impact (*)	0.0%	0.1%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.1% before costs and 6.1% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	-
Exit costs	We do not charge an exit fee.	-

Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.03% of the value of your investment per year. This is based on a combination of estimated and actual costs data over the last year. Any underlying product costs are included here with the exception of transaction costs which would be included below under 'Transaction costs'.	3 CHF
Transaction costs	0.02% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	2 CHF

Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	-
