All securities on loan have an open maturity tenor as they are recallable or terminable daily.

**Total return swaps**

All total return swaps are entered into by each Fund under an International Swaps and Derivatives Associations, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement. An ISDA Master Agreement is a bilateral agreement between the Fund and a counterparty that governs OTC FDIs (including total return swaps) entered into by the parties. The parties' exposures under the ISDA Master Agreement are netted and collateralised together, therefore any collateral disclosures provided are in respect of all OTC FDIs entered into by a Fund under the ISDA Master Agreement, not just total return swaps.

All collateral received/posted by each Fund in relation to derivatives transactions executed under an ISDA Master Agreement and constitutes variation margin is transferred bilaterally under a title transfer arrangement. Collateral received is segregated from the assets belonging to each Fund's Depositary and is held in an account in the name of the Depositary on behalf of each Fund.

Investment grade securities are those issued by an entity with a minimum investment grade credit rating from at least one globally recognised credit rating agency; Standard & Poor's, Moody's or Fitch.

A recognised equity index contains at least 20 equities where no single equity represents more than 20% of the total index and no five equities combined represent more than 60% of the total index.

The maturity tenor analysis for fixed income securities received or posted as collateral is based on the respective contractual maturity date, while for equity securities and ETFs received or posted as collateral are presented as open transactions as they are not subject to a contractual maturity date.

All cash received or posted as collateral has an open maturity tenor as it's not subject to a contractual maturity date.

**Reuse of collateral received**

Non-cash collateral received by way of title transfer collateral arrangement in relation to securities lending cannot be sold, re-invested or pledged.

**Safekeeping of collateral received**

The following table provides an analysis of the amounts of non-cash collateral received by each Fund in respect of securities lending transactions and held by the Fund's Depositary (or through its delegates) or through a securities settlement system, as at 30 June 2026.

**EFFICIENT PORTFOLIO MANAGEMENT AND SECURITIES FINANCING TRANSACTIONS (UNAUDITED) (continued)**

**Safekeeping of collateral received (continued)**

As at 30 June 2026, all non-cash collateral received by each Fund in respect of reverse repurchase transactions were held with the tri-party agent.

## SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED)

**Glossary and key definitions**

The periodic report disclosures set out below are presented for the financial year ended 30 June 2026, the "reference period". Comparative information is presented for the financial year ended 30 June 2025, the "previous reference period".

All data presented for the Fund's investments and other quantitative measures disclosed has been calculated based on an average of the value of investments traded and held on or around each applicable rebalance date of the Fund's benchmark index, within the reference period for which the relevant Funds met the criteria of an Article 8 fund. For metrics that are presented with sustainability indicators, the relevant metric calculation relates to the investments for which the underlying ESG data is available, rather than all investments held by the Fund.

All such data presented is unaudited and was not subject to an assurance provided by the Fund's auditor or a review by a third party.

The term "Assets" shall be deemed to mean the total value investments held by the Fund throughout the reference period. The total value of investments shall include net short positions (including net short positions achieved through derivatives). BlackRock has taken a proportionate approach to the calculation of taxonomy alignment of its funds, by excluding any exposures achieved through derivatives (including both long and short positions) from the calculation of the degree to which investments made by a fund is in economic activities that qualify as environmentally sustainable under the EU Taxonomy.

Investments shall include cash and cash equivalents as set out by Article 53 of the regulatory technical standards under the Delegated Regulation (EU) 2022/1288. However, FRS102 requires cash and cash equivalents to be treated separately. Therefore, there will be a difference in presentation for the purposes of the overall annual report. Cash and cash equivalents are presented on a settlement date basis.

Sustainable Investments: BlackRock defines Sustainable Investments as investments in issuers or securities that contribute to an environmental or social objective, do not significantly harm any of those objectives and where investee companies follow good governance practices. BlackRock refers to relevant sustainability frameworks to identify the alignment of the investment to environmental or social objectives.

Do no significant harm ("DNSH"): The assessment undertaken by BlackRock to determine whether an investment does no significant harm to any environmental or social objective under SFDR. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an investment does significant harm, which considers both third party data points as well as fundamental insights. Investments are screened against these criteria using system-based controls and any which are considered to be causing significant harm do not qualify as Sustainable Investments.

Sustainability Factors: Environmental, social and employee matters, respect for human rights, anti-corruption and antibribery matters.

**Disclaimer**

Certain information set out below (the "Information") has been provided by vendors of market data to BlackRock (some of whom may be Registered Investment Advisors under the Investment Advisers Act of 1940), each, an "Information Provider"), and it may not be reproduced or disseminated in whole or in part without prior written permission of such Information Provider. The Information has not been submitted to, nor received approval from, the US SEC or any other regulatory body. The Information may not be used to create any derivative works, or in connection with, nor does it constitute, an offer to buy or sell, or a promotion or recommendation of, any security, financial instrument or product or trading strategy, nor should it be taken as an indication or guarantee of any future performance, analysis, forecast or prediction. The Information is provided "as is" and the user of the Information assumes the entire risk of any use it may make or permit to be made of the Information. The Information Provider's makes no representations or express or implied warranties (which are expressly disclaimed), nor shall they incur liability for any errors or omissions in the Information, or for any damages related thereto. The foregoing shall not exclude or limit any liability that may not be excluded or limited by applicable law. Information Providers shall be deemed to be third party beneficiaries with respect to the terms of this paragraph, entitled to enforce such terms against any third party.

**Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**iShares $ Asia Investment Grade Corp Bond UCITS ETF**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)**

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares $ Asia Investment Grade Corp Bond UCITS ETF**

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria of the benchmark index at each index rebalance. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

| Adverse Sustainability Indicator | Sustainability Indicators |
|---|---|
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers based on certain environmental screens (listed above) |
| Negative impact to Biodiversity sensitive areas | Exclusion of issuers based on an ESG controversy rating |
| Emissions to water | Exclusion of issuers based on an ESG controversy rating |
| Hazardous waste and radioactive waste ratio | Exclusion of issuers based on an ESG controversy rating |
| Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | Exclusion of issuers classified as violating commonly accepted international norms and standards |
| Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons) | Exclusion of issuers determined to have any tie to controversial weapons |

**What were the top investments of this financial product?**

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 1 July 2025 to 30 June 2026.

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Barclays Industry Classification System): independent, midstream or oil field services.

**iShares $ Asia Investment Grade Corp Bond UCITS ETF**

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

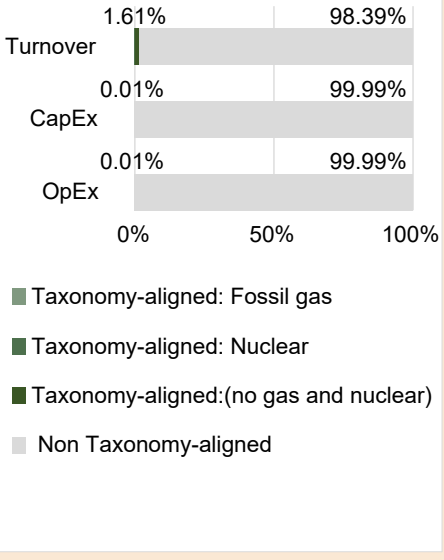
Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

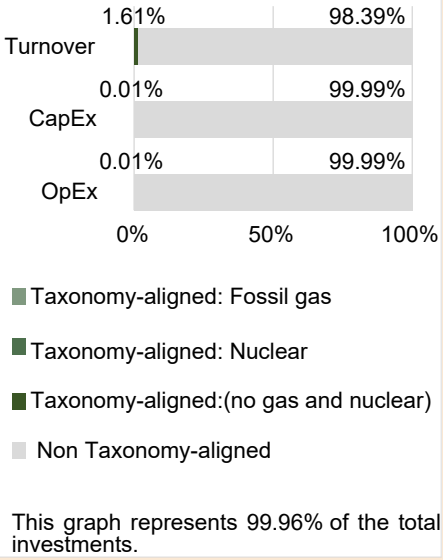
**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

☐ Yes:



☐ In fossil gas ☐ In nuclear energy

☒ No



[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

2. Taxonomy-alignment of investments **excluding sovereign bonds***

This graph represents 99.96% of the total investments.

** For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

For the reference period, 0.04% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| Environmental objectives | % of Investments |
|---|---|
| Climate mitigation | 1.60% |
| Climate adaptation | 0.01% |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

**What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

| | % of Investments |
|---|---|
| Transitional Activities | 0.00% |
| Enabling Activities | 0.49% |

**How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

**What was the share of socially sustainable investments?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included cash, money market funds and derivatives, however such holdings did not exceed 20%. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section To what extent were the environmental and/or social characteristics of the Fund met?).

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

**How did this financial product perform compared to the reference benchmark?**

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

**How does the reference benchmark differ from a broad market index?**

The benchmark index excluded issuers that do not meet its ESG selection criteria from its broad market index, the Markit iBoxx USD Asia ex-Japan Investment Grade Index. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at https://www.markit.com/Company/Files/DownloadFiles?CMSID=73c13b54d9ad4af5a2d2999c0a9b9bdc.

**How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Fund achieved the environmental and social characteristics it promotes through a portfolio that is primarily made up of securities that represent the Fund's benchmark index.

**How did this financial product perform compared with the reference benchmark?**

| Sustainability Indicator | Metric | Fund | Reference benchmark |
|---|---|---|---|
| Exclusion of issuers with a Sustainalytics controversy score of 5 or no coverage | % market value exposure to issuers with a Sustainalytics controversy score of 5 or no coverage | 0.00% | 0.00% |

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

| Environmental and social characteristics promoted by the Fund |
|---|
| Exposure to investments qualified as Sustainable Investments |
| Lower carbon emissions intensity (emissions per $1 million of sales revenue across the Fund's holdings) relative to the Bloomberg US Corporate Index (the "Index") |
| Exclusion of issuers which produce tobacco products |
| Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians |
| Exclusion of issuers which derive more than a certain portion of their revenue from the sale of firearms and/or small arms ammunition to civilians |
| Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption) |
| Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads and nuclear missiles, or essential components for exclusive use in nuclear weapons |
| Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons) |
| Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands) |
| Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of green bonds that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers |
| Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products |

The Sustainable Investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

[1]The Fund launched on 26 March 2025, therefore performance data is not present for the reference periods ended 30 June 2024 and 30 June 2023.
[2]The good governance and DNSH methodology was updated in the Fund's prospectus effective from 4 March 2026. The metrics presented in this report have been calculated based on the new methodology notwithstanding that it was not applicable for the full reference period.

**…and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares $ Corp Bond Enhanced Active UCITS ETF**

**What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 39.20% of its holdings in Sustainable Investments in pursuit of its investment objective.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments. The Investment Manager assessed the indicators for adverse impacts on sustainability factors for each type of investment as defined by the regulation. Criteria for adverse impacts were assessed using third-party vendor data regarding an investment's business involvement (in specific activities identified as having negative environmental or social impacts) or environmental or social controversies to exclude investments which the Investment Manager has determined are harmful to sustainability indicators subject to limited exceptions, for example, where the data was determined to be inaccurate or not up to date. Where no data was available, or it was substantially incomplete, fundamental analysis was undertaken using reasonable efforts to identify impacts which the Investment Manager determined to be harmful to the sustainability indicators.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

  The indicators for principal adverse impacts ("PAI"s) on sustainability factors for each type of investment were assessed using BlackRock's Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

  The Fund's benchmark index excluded companies which were classified as violating or were at risk of violating commonly accepted international norms and standards, enshrined in the United Nations Global Compact (UNGC) Principles, the Organisation for Economic Co-operation and Development (OECD) Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights (UNGPs) and their underlying conventions. The benchmark index applied the above exclusionary criteria at each index rebalance.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria of the benchmark index at each index rebalance. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

**Asset allocation** describes the share of investments in specific assets.

**What was the proportion of sustainability-related investments?**

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

**What was the asset allocation?**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:
- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares $ Corp Bond Enhanced Active UCITS ETF**

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

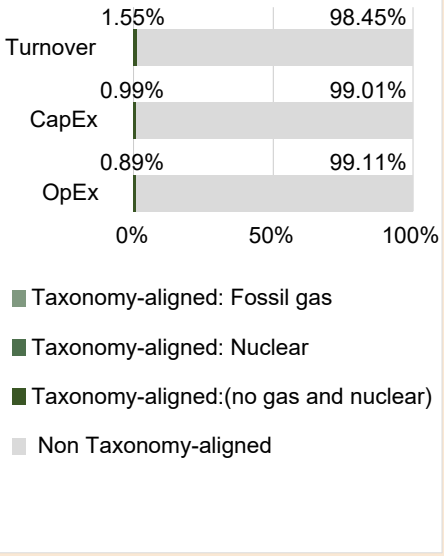
**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 1.15% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

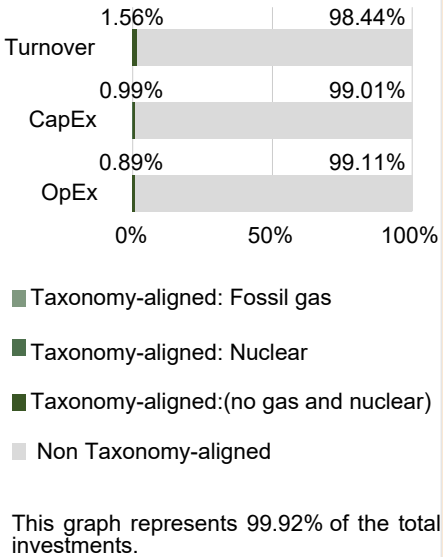
**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

☐ Yes:



☐ In fossil gas ☐ In nuclear energy

☒ No



[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

2. Taxonomy-alignment of investments **excluding sovereign bonds***

This graph represents 99.92% of the total investments.

** For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

For the reference period, 0.08% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| Environmental objectives | % of Investments |
|---|---|
| Climate mitigation | 1.54% |
| Climate adaptation | 0.00% |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

**What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

| | % of Investments |
|---|---|
| Transitional Activities | 0.02% |
| Enabling Activities | 0.30% |

**How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

For the previous reference period, 0.01% of the Fund's investments were aligned with EU Taxonomy.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares $ Corp Bond Enhanced Active UCITS ETF**

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

For the reference period, 31.62% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

**What was the share of socially sustainable investments?**

For the reference period, 6.43% of the Fund's investments were classified as socially sustainable investments.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included cash, money market funds and derivatives and shares or units of CIS and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide, however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

BlackRock assesses good governance practices of the investee companies by combining proprietary insights with data from external ESG research providers. BlackRock uses data from external ESG research providers to identify investee companies which may not have satisfactory governance practices in relation to key performance indicators related to sound management structure, employee relations, remuneration of staff and tax compliance. Investee companies that do not satisfy BlackRock's assessment of good governance are excluded from the investment universe.

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website.

- [ ] with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- [ ] with a social objective

[ ] It promoted E/S characteristics, but **did not make any sustainable investments**

**Sustainability indicators** measure how the sustainable objectives of this financial product are attained.

**To what extent was the sustainable investment objective of this financial product met?**

The following table lists the sustainable objective of the Fund promoted throughout the reference period. Further information on this sustainable objective is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met this sustainable objectives.

| Sustainable objectives promoted by the Fund |
|---|
| Exclusion of companies classified as violating United Nations Global Compact principles |
| Exclusion of issuers who do not disclose the safeguard policies they have in place to mitigate and reduce environmental and social risks in the public domain |
| Exposure to bonds where the issuer aims to foster economic and social progress by making finance available to sustainable projects |
| Exposure to investments qualifying as Sustainable Investments |

The Sustainable Investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| EU Taxonomy environmental objectives contributed to by the Fund |
|---|
| Climate Mitigation |
| Climate Adaptation |

**How did the sustainability indicators perform?**

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the sustainable investment objectives of the Fund, as further detailed in the Fund's prospectus.

| Sustainability Indicator | Metric | 2026 | 2025 | 2024 | 2023 |
|---|---|---|---|---|---|
| Exclusion of companies classified as violating United Nations Global Compact principles | % market value exposure to companies classified as violating United Nations Global Compact principles | 0.00% | 0.00% | 0.00% | 0.00% |
| Exposure to bonds where the issuer aims to foster economic and social progress by making finance available to sustainable projects | % market value exposure to bonds where the issuer aims to foster economic and social progress by making finance available to sustainable projects | 99.74% | 99.70% | 99.59% | 99.56% |
| Exclusion of issuers who do not disclose the safeguard policies they have in place to mitigate and reduce environmental and social risks in the public domain | % market value exposure to issuers who do not disclose the safeguard policies they have in place to mitigate and reduce environmental and social risks in the public domain | 0.00%[1] | 0.00%[1] | 0.00%[1] | N/A[2] |
| Exposure to investments qualifying as Sustainable Investments | % market value exposure to Sustainable Investments | 99.68% | 99.70% | 99.59% | N/A[2] |

[1]This metric is only applicable to Multilateral Development Bonds, which only make up a small portion of the Broad Market Index.
[2]The indicator was added to the investment strategy on 1 September 2023, when the SFDR classification of the Fund was revised from Article 8 to Article 9. Performance data for this indicator is not available for the prior reference period.

**…and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference period (see section "How did the sustainability indicators perform?").

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments not cause significant harm to any sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. At each index rebalance, all investments qualifying as Sustainable Investments were assessed against certain minimum environmental and social indicators. As part of the assessment, issuers were assessed on their involvement in activities deemed to have highly negative environmental and social impacts. Where an issuer was identified as being involved in activities with highly negative environmental and social impacts, it was not eligible as a Sustainable Investment.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

  The mandatory indicators for adverse impacts on sustainability factors (as set out in the Regulatory Technical Standards ("RTS") under the SFDR) were considered at each index rebalance through the assessment of the Fund's investments qualifying as Sustainable Investments.

  The indicators for adverse impacts on sustainability factors are taken into account at each index rebalance and are assessed at the issuer level by the index provider based on an assessment of the safeguard policies that the multilateral development banks disclose that they have in place to mitigate and reduce environmental and social risks in the public domain.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

  The Fund's benchmark index excluded issuers which were classified as violating or were at risk of violating commonly accepted international norms and standards, enshrined in the United Nations Global Compact (UNGC) Principles, the Organisation for Economic Co-operation and Development (OECD) Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights (UNGPs) and their underlying conventions. The benchmark index applied the above exclusionary criteria at each index rebalance.

**How did this financial product consider principal adverse impacts on sustainability factors?**

BlackRock has developed a set of criteria across all Sustainable Investments, to assess whether an investment does significant harm by reference to all the mandatory principal adverse impacts ("PAI"s). The criteria targets sustainability factors such as investee companies with exposure to fossil fuels, violations of international norms, environmentally negative business practices and controversial weapons. Investments are screened against these criteria using system-based controls and any which are considered to be causing significant harm do not qualify as Sustainable Investments. BlackRock assesses the indicators for adverse impacts on sustainability factors for each type of investment as defined by the regulation. Criteria for adverse impacts are assessed using third-party vendor data regarding an investment's business involvement (in specific activities identified as having negative environmental or social impacts) or environmental or social controversies to exclude investments which BlackRock has determined are harmful to sustainability indicators subject to limited exceptions, for example, where the data is determined to be inaccurate or not up to date.

The following PAIs are captured through the do no significant harm process:

| Adverse Sustainability Indicator | Sustainability indicators |
|---|---|
| Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | Exclusion of issuers classified as violating United Nations Global Compact principles |

**Asset allocation** describes the share of investments in specific assets.

**What was the proportion of sustainability-related investments?**

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

**What was the asset allocation?**

**#1 Sustainable** covers sustainable investments with environmental or social objectives.

**#2 Not sustainable** includes investments which do not qualify as sustainable investments.

The Subcategory #1 Sustainable may exclude certain Taxonomy-aligned investments which do not meet the SFDR DNSH criteria.

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

*Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

**What was the share of sustainable investments* with an environmental objective that were not aligned with the EU Taxonomy?**

For the reference period, 0.01% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

**What was the share of socially sustainable investments?**

For the reference period, 99.67% of the Fund's investments were classified as Sustainable Investments.

**What investments were included under "not sustainable", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "Not sustainable" included cash, money market funds and derivatives, however such holdings did not exceed 10%. Such investments were used only for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

**What actions have been taken to attain the sustainable investment objective during the reference period?**

The Fund met the sustainable investment objective by tracking the sustainable investment objectives of the benchmark index. The benchmark index methodology incorporates the sustainable investment objective outlined (see section "To what extent was the sustainable investment objective of this financial product met?").

**Reference benchmarks** are indexes to measure whether the financial products attain the sustainable objective.

**How did this financial product perform compared to the reference sustainable benchmark?**

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

**How does the reference benchmark differ from a broad market index?**

The benchmark index excluded issuers that did not meet its ESG selection criteria from its broad market index, the Bloomberg Euro Aggregate Bond Index. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at: http://www.yieldbook.com/m/indices/search.shtml.

**How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the sustainable investment objective?**

The Fund achieved the sustainable investment objective it promotes through a portfolio that is primarily made up of securities that represent the Fund's benchmark index.

**How did this financial product perform compared with the reference benchmark?**

| Sustainability Indicator | Metric | Fund | Reference benchmark |
|---|---|---|---|

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

| Environmental and social characteristics promoted by the Fund |
|---|
| Improvement (20%) in exposure to companies with credible carbon reduction targets - higher allocation of companies that set corporate targets relating to climate change, publish their emissions and also have reduced their GHG intensity by 7% over the last 3 years, compared to the Bloomberg US Corporate High Yield 3% Issuer Capped Index (the "Parent Index") |
| Annualised reduction (7%) in absolute GHG emissions |
| Improvement in the weighted average green revenue to fossil fuels-based revenue relative to the Bloomberg US Corporate High Yield 3% Issuer Capped Index (the "Parent Index") |
| Exclusion of companies classified as violating United Nations Global Compact principles or with no coverage on United Nations Global Compact violations |
| Improvement of weighted average ESG score versus the Bloomberg US Corporate High Yield 3% Issuer Capped Index (the "Parent Index") |

[1]The Fund launched on 5 December 2023, therefore performance data is not present for the 2023 reference period.
[2]The aggregate portfolio values for each sustainability indicator are calculated as the average of the realised values on or around each applicable index rebalance during the reference period. In some instances, due to market movements between the index review and effective rebalance date/reporting date, the realised values diverged from the targets achieved by the index construction process.

**…and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section “How did the sustainability indicators perform?”).

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares $ High Yield Corp Bond ESG Paris-Aligned Climate UCITS ETF**

**What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 26.70% of its holdings in Sustainable Investments in pursuit of its investment objective.

The Fund's investments qualifying as Sustainable Investments were either in:
(1) issuers involved in activities deemed to contribute to positive environmental and/or social impacts, or
(2) issuers which have committed to one or more active carbon emissions reduction target(s) approved by the Science Based Targets initiative (SBTi).
(3) fixed income securities which have been classified as "green bonds".

To be classified as a green bond, a bond's proceeds must be exclusively and formally applied to fund projects that fall within one or more qualifying environmental categories including alternative energy, energy efficiency, pollution prevention and control, sustainable water, green building and climate adaptation.

The Fund's investments were assessed against their revenue exposure to positive sustainable impacts in line with the United Nations' Sustainable Development Goals, the EU Taxonomy and other sustainability-related frameworks. The positive environmental impacts considered as part of this assessment may have related to themes such as climate change and natural capital and identify issuers that may have derived revenues from activities (or related activities) such as alternative energy, energy efficiency and green building, sustainable water, pollution prevention and control and sustainable agriculture. The positive societal impacts considered as part of this assessment may have related to themes such as basic needs and empowerment and identify issuers that may have derived revenues from activities (or related activities) such as nutrition, major disease treatments, sanitation, affordable real estate, small and medium enterprise (SME) finance, education and connectivity.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. At each index rebalance, all investments qualifying as Sustainable Investments were assessed against certain minimum environmental and social indicators. As part of the assessment, issuers were assessed on their involvement in activities deemed to have highly negative environmental and social impacts. Where an issuer was identified as being involved in activities with highly negative environmental and social impacts, it was not eligible as a Sustainable Investment.

For bonds qualifying as green bonds, the assessment was conducted at an issuance level based on the use of the proceeds of the bonds which must be formally and exclusively applied to promote climate or other environmental sustainability purposes. In addition, certain minimum safeguards and eligibility exclusions were incorporated in the selection of green bonds to avoid exposure to bonds associated with activities deemed to have highly negative environmental and societal impacts.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

  The mandatory indicators for adverse impacts on sustainability factors (as set out in the Regulatory Technical Standards ("RTS") under the SFDR) were considered at each index rebalance through the screening criteria applied by the index provider in the selection of index constituents qualifying as Sustainable Investments.

  Following this assessment, the following investments did not qualify as Sustainable Investments: (1) issuers deriving a minimum % revenue from thermal coal (as determined by the index provider) which is significantly carbon intensive and a major contributor to greenhouse gas emissions (taking into account indicators relating to GHG emissions), (2) issuers with an "orange" MSCI ESG controversy flag that have been deemed to be involved in severe ESG controversies (including in relation to indicators concerning greenhouse gas emissions, biodiversity, water, waste and social and employee matters), and (3) issuers with an MSCI ESG rating of B or below, which are deemed to be lagging industry peers based on their high exposure and failure to manage significant ESG risks (including in relation to indicators concerning greenhouse gas emissions, biodiversity, water, waste, unadjusted gender pay gap and board gender diversity).

  In respect of green bonds, the indicators for adverse impacts on sustainability factors were taken into account at each index rebalance and were assessed by the index provider at the issuance level based on an assessment of the use of proceeds of the bonds which must be formally and exclusively applied to promote climate or other environmental sustainability purposes. In addition, minimum safeguards and eligibility exclusions were applied by the index provider in the selection of green bonds to ensure the proceeds of which were not applied to activities with highly negative environmental and social outcomes. This includes through the minimum safeguards and eligibility exclusions of bonds with the use of proceeds linked to thermal coal extraction and power generation, significant biodiversity loss and controversial weapons.

  The benchmark index also excluded: (1) issuers with a "red" MSCI ESG controversy flag which included issuers determined to be in violation of international and/or national standards (taking into account indicators concerning violations of United Nations Global Compact principles and OECD Guidelines for Multinational Enterprises) and (2) issuers determined to have any tie to controversial weapons (taking into account indicators concerning ties to controversial weapons).

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

  The Fund's benchmark index has excluded companies with a "red" ESG controversy flag which excludes issuers which have been determined by the index provider to be in violation of the UN Guiding Principles on Business and Human Rights and OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares $ High Yield Corp Bond ESG Paris-Aligned Climate UCITS ETF**

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria of the benchmark index at each index rebalance. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

| Adverse Sustainability Indicator | Sustainability Indicators |
|---|---|
| Carbon footprint | Minimum % reduction of GHG emissions and carbon intensity |
| Greenhouse gas (GHG) Emissions | Minimum % reduction of GHG emissions and carbon intensity |
| GHG intensity of investee companies | Minimum % reduction of GHG emissions and carbon intensity |
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers based on certain environmental screens (listed above) |
| Share of non-renewable energy consumption and production | Minimum weighted green to fossil-fuel based ratio |
| Activities negatively affecting biodiversity sensitive areas | Exclusion of issuers based on an MSCI ESG controversy score |
| Emissions to Water | Exclusion of issuers based on an MSCI ESG controversy score |
| Hazardous waste and radioactive waste ratio | Exclusion of issuers based on an MSCI ESG controversy score |
| Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | Exclusion of issuers based on an MSCI ESG controversy score |
| Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons) | Exclusion of issuers determined to have any tie to controversial weapons |

**Asset allocation** describes the share of investments in specific assets.

**What was the proportion of sustainability-related investments?**

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

**What was the asset allocation?**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:
- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

The Fund had exposure to energy sectors during the reference period, however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Barclays Industry Classification System): integrated, independent, refining, or metals and mining.

**iShares $ High Yield Corp Bond ESG Paris-Aligned Climate UCITS ETF**

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

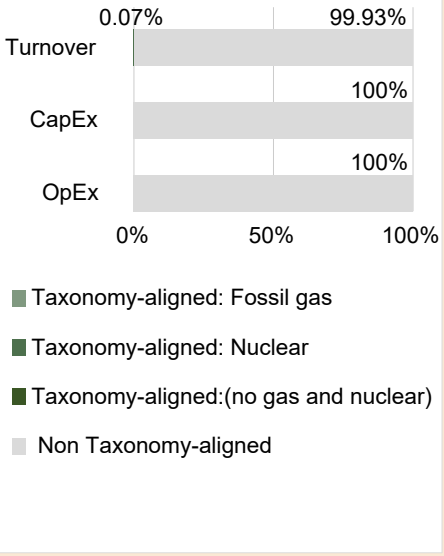
**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 0.05% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

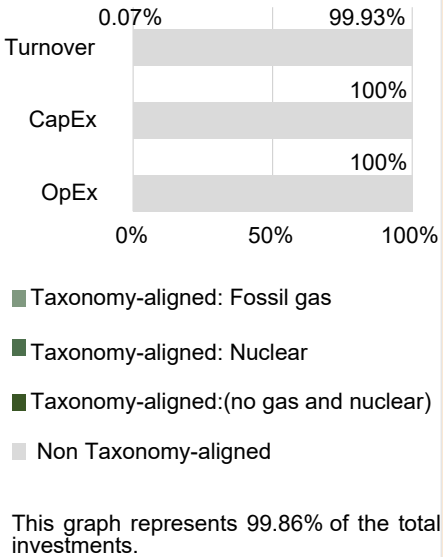
**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

☐ Yes:



☐ In fossil gas ☐ In nuclear energy

☒ No



[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

2. Taxonomy-alignment of investments **excluding sovereign bonds***

This graph represents 99.86% of the total investments.

** For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

For the reference period, 0.14% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| Environmental objectives | % of Investments |
|---|---|
| Climate mitigation | 0.07% |
| Climate adaptation | 0.00% |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

**What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

For the reference period, 20.20% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

**What was the share of socially sustainable investments?**

For the reference period, 6.46% of the Fund's investments were classified as socially sustainable investments.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included cash, money market funds and derivatives, however such holdings did not exceed 20%. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section To what extent were the environmental and/or social characteristics of the Fund met?).

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

**How did this financial product perform compared to the reference benchmark?**

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

**How does the reference benchmark differ from a broad market index?**

The benchmark index excluded issuers that do not meet its ESG selection criteria from its broad market index, the Bloomberg US Corporate High Yield 3% Issuer Capped Index. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at https://www.bloomberg.com/professional/product/indices/bloomberg-fixed-income-indices/#/ucits.

**How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Fund achieved the environmental and social characteristics it promotes through a portfolio that is primarily made up of securities that represent the Fund's benchmark index.

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

| Environmental and social characteristics promoted by the Fund |
|---|
| Exposure to investments qualified as Sustainable Investments |
| Exclusion of issuers with a zero MSCI controversy score or no MSCI controversy score |
| Exclusion of issuers with an MSCI ESG rating below BBB or no rating |
| Exclusion of sovereign issuers subject to UNSC Trade Sanctions |
| Exclusion of issuers involved in certain activities deemed to have negative environmental and/or social outcomes such as: alcohol, tobacco, gambling, adult entertainment, genetically modified organisms, nuclear weapons, civilian firearms, conventional weapons, controversial weapons, nuclear power, thermal coal, generation of thermal coal, unconventional oil & gas, fossil fuel reserves, fossil fuels electricity generation |

The Sustainable Investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| EU Taxonomy environmental objectives contributed to by the Fund |
|---|
| Climate mitigation |
| Climate adaptation |

**How did the sustainability indicators perform?**

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

[1]During the reference period ended 30 June 2026, the Fund had one active breach due to holding an issuer involved in certain activities deemed to have negative environmental and/or social outcomes. The breach was identified, reported, and rectified as part of BlackRock's standard breach resolution process.

**…and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares € Aggregate Bond ESG SRI UCITS ETF**

**What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 21.61% of its holdings in Sustainable Investments in pursuit of its investment objective.

The Fund's investments qualifying as Sustainable Investments were either in:
(1) issuers involved in activities deemed to contribute to positive environmental and/or social impacts, or
(2) issuers which have committed to one or more active carbon emissions reduction target(s) approved by the Science Based Targets initiative (SBTi).
(3) fixed income securities which have been classified as "green bonds".

To be classified as a green bond, a bond's proceeds must be exclusively and formally applied to fund projects that fall within one or more qualifying environmental categories including alternative energy, energy efficiency, pollution prevention and control, sustainable water, green building and climate adaptation.

The Fund's investments were assessed against their revenue exposure to positive sustainable impacts in line with the United Nations' Sustainable Development Goals, the EU Taxonomy and other sustainability-related frameworks. The positive environmental impacts considered as part of this assessment may have related to themes such as climate change and natural capital and identify issuers that may have derived revenues from activities (or related activities) such as alternative energy, energy efficiency and green building, sustainable water, pollution prevention and control and sustainable agriculture. The positive societal impacts considered as part of this assessment may have related to themes such as basic needs and empowerment and identify issuers that may have derived revenues from activities (or related activities) such as nutrition, major disease treatments, sanitation, affordable real estate, small and medium enterprise (SME) finance, education and connectivity.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. At each index rebalance, all investments qualifying as Sustainable Investments were assessed against certain minimum environmental and social indicators. As part of the assessment, issuers were assessed on their involvement in activities deemed to have highly negative environmental and social impacts. Where an issuer was identified as being involved in activities with highly negative environmental and social impacts, it was not eligible as a Sustainable Investment.

For bonds qualifying as green bonds, the assessment was conducted at an issuance level based on the use of the proceeds of the bonds which must be formally and exclusively applied to promote climate or other environmental sustainability purposes. In addition, certain minimum safeguards and eligibility exclusions were incorporated in the selection of green bonds to avoid exposure to bonds associated with activities deemed to have highly negative environmental and societal impacts.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

  The mandatory indicators for adverse impacts on sustainability factors (as set out in the Regulatory Technical Standards ("RTS") under the SFDR) were considered at each index rebalance through the assessment of the Fund's investments qualifying as Sustainable Investments.

  Following this assessment, the following investments did not qualify as Sustainable Investments: (1) issuers deemed to be deriving at least 1% of their revenue from thermal coal which is significantly carbon intensive and a major contributor to greenhouse gas emissions (taking into account indicators relating to GHG emissions) (2) issuers that have been deemed to be involved in severe ESG related controversies (taking into account indicators relating to greenhouse gas emissions, biodiversity, water, waste and social and employee matters), and (3) issuers which were deemed to be lagging industry peers based on their high exposure and failure to manage significant ESG risks (taking into account indicators relating to greenhouse gas emissions, biodiversity, water, waste, unadjusted gender pay gap and board gender diversity).

  In respect of green bonds, the indicators for adverse impacts on sustainability factors were taken into account at each index rebalance and were assessed by the index provider at the issuance level based on an assessment of the use of proceeds of the bonds which must be formally and exclusively applied to promote climate or other environmental sustainability purposes. In addition, minimum safeguards and eligibility exclusions were applied by the index provider in the selection of green bonds to ensure the proceeds of which were not applied to activities with highly negative environmental and social outcomes. This includes through the minimum safeguards and eligibility exclusions of bonds with the use of proceeds linked to thermal coal extraction and power generation, significant biodiversity loss and controversial weapons.

  The benchmark index also excluded: (1) issuers with a "red" MSCI ESG controversy flag which included issuers determined to be in violation of international and/or national standards (taking into account indicators concerning violations of United Nations Global Compact principles and OECD Guidelines for Multinational Enterprises) and (2) issuers determined to have any tie to controversial weapons (taking into account indicators concerning ties to controversial weapons).

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

  The Fund's benchmark index has excluded companies with a "red" ESG controversy flag which excludes issuers which have been determined by the index provider to be in violation of the UN Guiding Principles on Business and Human Rights and OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria of the benchmark index at each index rebalance. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

**Asset allocation** describes the share of investments in specific assets.

**What was the proportion of sustainability-related investments?**

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

**What was the asset allocation?**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:
- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

| Asset allocation | % of Investments | | | |
|---|---|---|---|---|
| | 2026 | 2025 | 2024 | 2023 |
| #1 Aligned with E/S characteristics | 99.74% | 99.67% | 99.57% | 99.74% |

| Social | 0.72% | 0.44% | 0.94% | N/A[1] |

[1]Comparative information is not disclosed as these Sustainable Investments were disclosed as a mix of Sustainable Investments with an environmental objective that is not aligned with the EU Taxonomy or a social objective or a combination of both, and the exact composition may have fluctuated.

**In which economic sectors were the investments made?**

The following table details the economic sectors that the Fund was exposed to during the reference period.

| Sector | Sub-Sector | % of Investments |
|---|---|---|
| Treasuries | Treasuries | 52.78% |
| Banking | Banking | 8.72% |
| Government Related | Supranational | 8.52% |
| Securitized | Covered | 6.36% |
| Government Related | Agency | 6.10% |
| Government Related | Local Authority | 4.91% |
| Government Related | Sovereign | 1.31% |
| Energy | Integrated | 0.00% |

The Fund had exposure to energy sectors during the reference period, however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Barclays Industry Classification System): integrated, independent, midstream, oil field services, or metals and mining.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

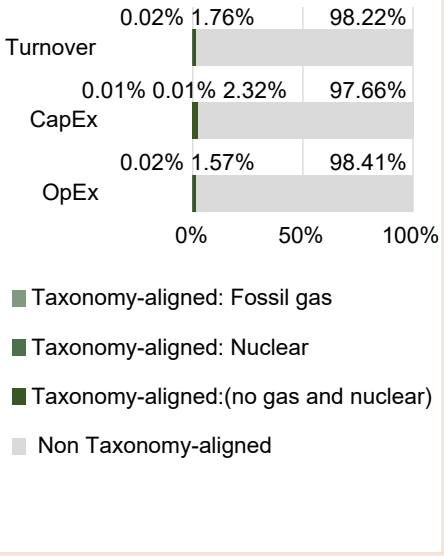
**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 1.71% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

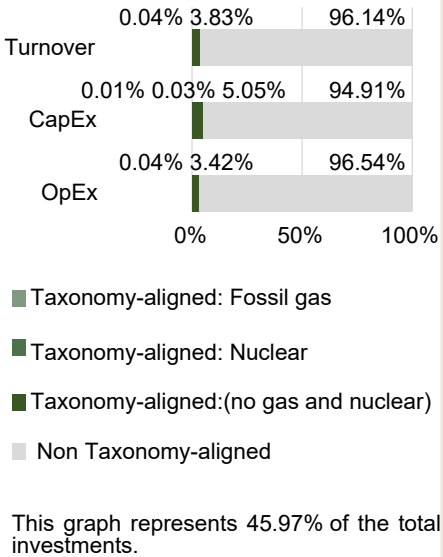
**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

X Yes:



X In fossil gas X In nuclear energy

No



[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

2. Taxonomy-alignment of investments **excluding sovereign bonds***

This graph represents 45.97% of the total investments.

** For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

| Taxonomy-aligned: No gas and nuclear | 3.83% | 5.05% | 3.42% |
| Non Taxonomy-aligned | 96.14% | 94.91% | 96.54% |

The Fund had exposure to investments that were EU Taxonomy-aligned; however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

For the reference period, 54.03% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| Environmental objectives | % of Investments |
|---|---|
| Climate mitigation | 1.75% |
| Climate adaptation | 0.02% |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

**What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

| | % of Investments |
|---|---|
| Transitional Activities | 0.16% |
| Enabling Activities | 0.80% |

**How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

| | % of Investments | | | |
|---|---|---|---|---|
| | 2026 | 2025 | 2024 | 2023 |
| EU Taxonomy Aligned | 1.78% | 1.79% | 1.40% | 0.00% |

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares € Aggregate Bond ESG SRI UCITS ETF**

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

For the reference period, 19.18% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

**What was the share of socially sustainable investments?**

For the reference period, 0.72% of the Fund's investments were classified as socially sustainable investments.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included cash, money market funds and derivatives, however such holdings did not exceed 20%. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section To what extent were the environmental and/or social characteristics of the Fund met?).

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

**How did this financial product perform compared to the reference benchmark?**

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

**How does the reference benchmark differ from a broad market index?**

The benchmark index excluded issuers that do not meet its ESG selection criteria from its broad market index, the Bloomberg Global-Aggregate Total Return Index. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at https://www.bloombergindices.com/bloomberg-indices/..

**How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Fund achieved the environmental and social characteristics it promotes through a portfolio that is primarily made up of securities that represent the Fund's benchmark index.

**How did this financial product perform compared with the reference benchmark?**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

| Environmental and social characteristics promoted by the Fund |
|---|
| Maintain holdings in assets (excluding sovereign bonds) with above average environmental practices, as determined by MSCI or equivalent |
| Maintain that the Fund will have 20% lower greenhouse gas emissions (measured using data from MSCI) than its Investment Universe (this universe comprises of approved issuers that comply with the money market fund credit assessment process) |
| Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products |
| Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians |
| Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use |
| Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption) |
| Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear weapons or nuclear weapon components or delivery platforms, or the provision of auxiliary services related to nuclear weapons |
| Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons) |
| Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands) |
| Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of green bonds that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers |
| Exclusion of issuers involved in production of tobacco-related products |
| Exclusion of issuers who have a MSCI ESG rating of CCC |
| Exclusion of issuers who have a MSCI controversy score of 0 |
| Ensure that more than 90% of the issuers of securities in which the Fund invests (excluding money market funds) shall be ESG rated or have been analysed for ESG purposes |
| Exclusion of issuers deriving 5% or more of their revenues from fossil fuel mining, exploration and/or refinement |
| Exclusion any Supranational and Agency Entities that have a MSCI ESG rating of B or below |
| Exclusion of bonds issued by government issuers subject to UNSC Trade Sanctions |

[1]The Fund launched on 21 November 2024, therefore performance data is not present for the reference periods ended 30 June 2024 and 30 June 2023.
[2]Effective 2 June 2026, the Fund committed to the indicator therefore was not reported as part of the previous reference period.

**…and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section “How did the sustainability indicators perform?”).

**What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

  This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

  This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares € Cash UCITS ETF**

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria of the benchmark index at each index rebalance. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

| Adverse Sustainability Indicator | Sustainability Indicators |
|---|---|
| Greenhouse gas (GHG) emissions | Lower carbon emission intensity relative to the Investable Universe |
| Carbon footprint | Lower carbon emission intensity relative to the Investable Universe |
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands) |
| GHG intensity of investee companies | Lower carbon emission intensity relative to the Investable Universe |
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation |
| Activities negatively affecting biodiversity sensitive areas | Exclusion of issuers with 'Red' MSCI ESG Controversy flag (ESG Score of 0) |
| Emissions to water | Exclusion of issuers with 'Red' MSCI ESG Controversy flag (ESG Score of 0) |
| Hazardous waste and radioactive waste ratio | Exclusion of issuers with 'Red' MSCI ESG Controversy flag (ESG Score of 0) |
| Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption) |
| Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons) | Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons). |

**Asset allocation** describes the share of investments in specific assets.

**What was the proportion of sustainability-related investments?**

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

**What was the asset allocation?**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The Fund did not commit to holding Sustainable Investments and therefore the Fund's exposure to Sustainable Investments has not been assessed, however, during the reference period, a percentage of the Fund's investments were aligned with the EU Taxonomy (see the section "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?" below).

The following table details the asset allocation of the Fund for the current and the previous reference periods.

| Asset allocation | % of Investments | | | |
|---|---|---|---|---|
| | 2026 | 2025 | 2024 | 2023 |
| #1 Aligned with E/S characteristics | 100.00% | 100.00% | N/A[1] | N/A[1] |
| #2 Other | 0.00%[2] | 0.00% | N/A[1] | N/A[1] |

[1]The Fund launched on 21 November 2024, therefore performance data is not present for the reference periods ended 30 June 2024 and 30 June 2023.
[2]The net exposure to “Other” assets was -1.78% due to derivative positions held by the Fund.

**In which economic sectors were the investments made?**

The following table details the economic sectors representing 1% or more of investments held that the Fund was exposed to during the reference period.

| Sector | Sub-Sector | % of Investments |
|---|---|---|
| Cash Securities | Cash Securities | 95.92% |
| Financials | Banks | 4.08% |

During the reference period, none of the Fund’s investments were held in the following sub-sectors (as defined by the Global Industry Classification System): integrated oil and gas, oil and gas exploration and production, oil and gas drilling, oil and gas storage and transportation, oil and gas refining and marketing or oil and gas equipment services.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

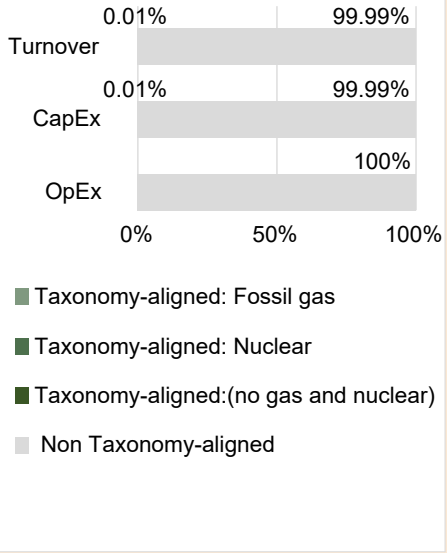
Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

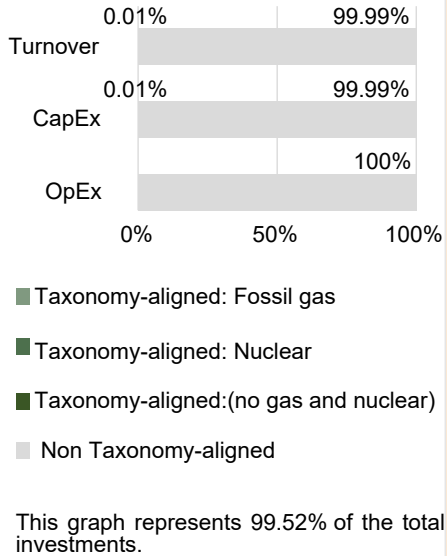
**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

☐ Yes:



☐ In fossil gas ☐ In nuclear energy

☒ No



[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

2. Taxonomy-alignment of investments **excluding sovereign bonds***

This graph represents 99.52% of the total investments.

** For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

| Climate adaptation | 0.00% |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

**What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

| | % of Investments |
|---|---|
| Transitional Activities | 0.00% |
| Enabling Activities | 0.00% |

**How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

For the previous reference period, 0.00% of the Fund's investments were aligned with EU Taxonomy.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares € Cash UCITS ETF**

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

**What was the share of socially sustainable investments?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included derivatives, cash held with the custodian and fixed income transferable securities (also known as debt securities) issued by governments, however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

BlackRock assesses good governance practices of the investee companies by combining proprietary insights with data from external ESG research providers. BlackRock uses data from external ESG research providers to identify investee companies which may not have satisfactory governance practices in relation to key performance indicators related to sound management structure, employee relations, remuneration of staff and tax compliance. Investee companies that do not satisfy BlackRock's assessment of good governance are excluded from the investment universe.

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

| Environmental and social characteristics promoted by the Fund |
|---|
| Exposure to investments qualified as Sustainable Investments |
| Lower carbon emission intensity (emissions per $1 million of sales revenue) relative to Bloomberg Euro Corporate Index (the "Index") |
| Exclusion of issuers which produce tobacco products |
| Exclusion of issuers involved in production of tobacco-related products |
| Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians |
| Exclusion of issuers that derive more than 5% of their revenue from distribution of firearms intended for civilian use |
| Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption) |
| Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads and nuclear missiles, or essential components for exclusive use in nuclear weapons |
| Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons) |
| Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands) |
| Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation |

The Sustainable Investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| EU Taxonomy environmental objectives contributed to by the Fund |
|---|
| Climate mitigation |
| Climate adaptation |

**How did the sustainability indicators perform?**

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

[1]The Fund launched on 26 March 2025, therefore performance data is not present for the reference periods ended 30 June 2024 and 30 June 2023.
[2]The good governance and DNSH methodology was updated in the Fund's prospectus effective from 4 March 2026. The metrics presented in this report have been calculated based on the new methodology notwithstanding that it was not applicable for the full reference period.

**…and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

**What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 60.49% of its holdings in Sustainable Investments in pursuit of its investment objective.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments. The Investment Manager assessed the indicators for adverse impacts on sustainability factors for each type of investment as defined by the regulation. Criteria for adverse impacts were assessed using third-party vendor data regarding an investment's business involvement (in specific activities identified as having negative environmental or social impacts) or environmental or social controversies to exclude investments which the Investment Manager has determined are harmful to sustainability indicators subject to limited exceptions, for example, where the data was determined to be inaccurate or not up to date. Where no data was available, or it was substantially incomplete, fundamental analysis was undertaken using reasonable efforts to identify impacts which the Investment Manager determined to be harmful to the sustainability indicators.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

  The indicators for principal adverse impacts ("PAI"s) on sustainability factors for each type of investment were assessed using BlackRock's Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

  The Fund's benchmark index excluded companies which were classified as violating or were at risk of violating commonly accepted international norms and standards, enshrined in the United Nations Global Compact (UNGC) Principles, the Organisation for Economic Co-operation and Development (OECD) Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights (UNGPs) and their underlying conventions. The benchmark index applied the above exclusionary criteria at each index rebalance.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares € Corp Bond Enhanced Active UCITS ETF**

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria of the benchmark index at each index rebalance. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

| Adverse Sustainability Indicator | Sustainability Indicators |
|---|---|
| Greenhouse gas (GHG) emissions | Lower carbon emission intensity relative to the Index |
| GHG intensity of investee companies | Lower carbon emission intensity relative to the Index |
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands) |
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation |
| Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption) |
| Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons) | Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons). |

**Asset allocation** describes the share of investments in specific assets.

**What was the proportion of sustainability-related investments?**

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

**What was the asset allocation?**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:
- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Barclays Industry Classification System): midstream, oil field services, refining, or metals and mining.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

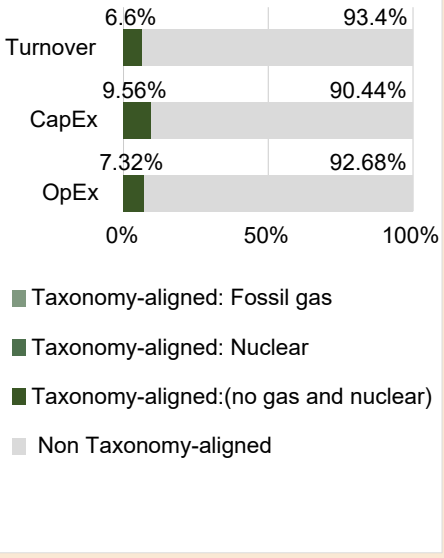
**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 5.63% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

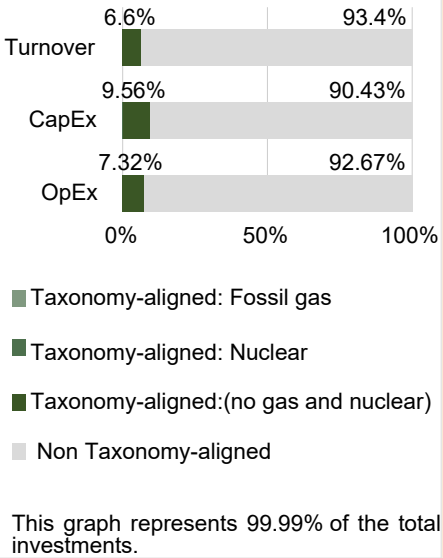
**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

[X] Yes:



[X] In fossil gas [X] In nuclear energy

[ ] No



[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

2. Taxonomy-alignment of investments **excluding sovereign bonds***

This graph represents 99.99% of the total investments.

** For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

The Fund had exposure to investments that were EU Taxonomy-aligned; however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

For the reference period, 0.01% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| Environmental objectives | % of Investments |
|---|---|
| Climate mitigation | 6.19% |
| Climate adaptation | 0.02% |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

**What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

| | % of Investments |
|---|---|
| Transitional Activities | 0.16% |
| Enabling Activities | 1.65% |

**How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

For the previous reference period, 0.05% of the Fund's investments were aligned with EU Taxonomy.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares € Corp Bond Enhanced Active UCITS ETF**

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

For the reference period, 48.65% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

**What was the share of socially sustainable investments?**

For the reference period, 6.20% of the Fund's investments were classified as socially sustainable investments.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included cash, money market funds and derivatives and shares or units of CIS and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide, however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

BlackRock assesses good governance practices of the investee companies by combining proprietary insights with data from external ESG research providers. BlackRock uses data from external ESG research providers to identify investee companies which may not have satisfactory governance practices in relation to key performance indicators related to sound management structure, employee relations, remuneration of staff and tax compliance. Investee companies that do not satisfy BlackRock's assessment of good governance are excluded from the investment universe.

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

| Environmental and social characteristics promoted by the Fund |
|---|
| Improvement in the weighted average green revenue to fossil fuels-based revenue relative to the Bloomberg Euro Corporate Index (the "Parent Index") |
| Exposure to investments qualified as Sustainable Investments |
| Annualised reduction (7%) in absolute GHG emissions |
| Annualised reduction (7%) in GHG intensity |
| Improvement of weighted average ESG score versus the Parent Index |
| Improvement in weighted average green revenue relative to the Parent Index |
| Improvement (50%) of the weighted average absolute GHG emissions relative to the Parent Index |
| Reduction (50%) in GHG intensity relative to the Parent Index |
| Exclusion of companies classified as violating United Nations Global Compact principles or with no coverage on United Nations Global Compact violations |
| Exclusion of issuers involved in certain activities deemed to have negative environmental and/or social outcomes such as: controversial weapons, tobacco, thermal coal, power generation, nuclear weapons, civilian firearms, oil and gas (including unconventional oil and gas), conventional weapons, weapons systems, components, support systems and services |
| Exclusion of issuers with an MSCI Controversy Score of 0 or no Controversy Score or an MSCI Environmental controversy score of zero or one |
| Exclusion of issuers with an MSCI ESG rating below B or no rating |

The Sustainable Investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

**iShares € Corp Bond ESG Paris-Aligned Climate UCITS ETF**

**What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 59.84% of its holdings in Sustainable Investments in pursuit of its investment objective.

The Fund's investments qualifying as Sustainable Investments were either in:
(1) issuers involved in activities deemed to contribute to positive environmental and/or social impacts, or
(2) issuers which have committed to one or more active carbon emissions reduction target(s) approved by the Science Based Targets initiative (SBTi).
(3) fixed income securities which have been classified as "green bonds".

To be classified as a green bond, a bond's proceeds must be exclusively and formally applied to fund projects that fall within one or more qualifying environmental categories including alternative energy, energy efficiency, pollution prevention and control, sustainable water, green building and climate adaptation.

The Fund's investments were assessed against their revenue exposure to positive sustainable impacts in line with the United Nations' Sustainable Development Goals, the EU Taxonomy and other sustainability-related frameworks. The positive environmental impacts considered as part of this assessment may have related to themes such as climate change and natural capital and identify issuers that may have derived revenues from activities (or related activities) such as alternative energy, energy efficiency and green building, sustainable water, pollution prevention and control and sustainable agriculture. The positive societal impacts considered as part of this assessment may have related to themes such as basic needs and empowerment and identify issuers that may have derived revenues from activities (or related activities) such as nutrition, major disease treatments, sanitation, affordable real estate, small and medium enterprise (SME) finance, education and connectivity.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares € Corp Bond ESG Paris-Aligned Climate UCITS ETF**

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. At each index rebalance, all investments qualifying as Sustainable Investments were assessed against certain minimum environmental and social indicators. As part of the assessment, issuers were assessed on their involvement in activities deemed to have highly negative environmental and social impacts. Where an issuer was identified as being involved in activities with highly negative environmental and social impacts, it was not eligible as a Sustainable Investment.

For bonds qualifying as green bonds, the assessment was conducted at an issuance level based on the use of the proceeds of the bonds which must be formally and exclusively applied to promote climate or other environmental sustainability purposes. In addition, certain minimum safeguards and eligibility exclusions were incorporated in the selection of green bonds to avoid exposure to bonds associated with activities deemed to have highly negative environmental and societal impacts.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

  The mandatory indicators for adverse impacts on sustainability factors (as set out in the Regulatory Technical Standards ("RTS") under the SFDR) were considered at each index rebalance through the assessment of the Fund's investments qualifying as Sustainable Investments.

  Following this assessment, the following investments did not qualify as Sustainable Investments: (1) issuers deriving a minimum %r evenue from thermal coal (as determined by the index provider) which is significantly carbon intensive and a major contributor to greenhouse gas emissions (taking into account indicators relating to GHG emissions) (2) issuers with an "orange" MSCI ESG controversy flag that have been deemed to be involved in severe ESG controversies (including in relation to indicators concerning greenhouse gas emissions, biodiversity, water, waste and social and employee matters), and (3) issuers with an MSCI ESG rating of B or below, which are deemed to be lagging industry peers based on their high exposure and failure to manage significant ESG risks (including in relation to indicators concerning greenhouse gas emissions, biodiversity, water, waste, unadjusted gender pay gap and board gender diversity).

  In respect of green bonds, the indicators for adverse impacts on sustainability factors were taken into account at each index rebalance and were assessed by the index provider at the issuance level based on an assessment of the use of proceeds of the bonds which must be formally and exclusively applied to promote climate or other environmental sustainability purposes. In addition, minimum safeguards and eligibility exclusions were applied by the index provider in the selection of green bonds to ensure the proceeds of which were not applied to activities with highly negative environmental and social outcomes. This includes through the minimum safeguards and eligibility exclusions of bonds with the use of proceeds linked to thermal coal extraction and power generation, significant biodiversity loss and controversial weapons.

  The benchmark index also excluded: (1) issuers with a "red" MSCI ESG controversy flag which included issuers determined to be in violation of international and/or national standards (taking into account indicators concerning violations of United Nations Global Compact principles and OECD Guidelines for Multinational Enterprises) and (2) issuers determined to have any tie to controversial weapons (taking into account indicators concerning ties to controversial weapons).

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

  The Fund's benchmark index has excluded companies with a "red" ESG controversy flag which excludes issuers which have been determined by the index provider to be in violation of the UN Guiding Principles on Business and Human Rights and OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares € Corp Bond ESG Paris-Aligned Climate UCITS ETF**

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria of the benchmark index at each index rebalance. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

| Adverse Sustainability Indicator | Sustainability Indicators |
|---|---|
| Greenhouse gas (GHG) Emissions | Minimum % reduction of GHG emissions and carbon intensity |
| Carbon footprint | Minimum % reduction of GHG emissions and carbon intensity |
| GHG intensity of investee companies | Minimum % reduction of GHG emissions and carbon intensity |
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers based on certain environmental screens (listed above) |
| Negative impact to Biodiversity sensitive areas | Exclusion of issuers based on an MSCI ESG controversy score |
| Emissions to water | Exclusion of issuers based on an MSCI ESG controversy score |
| Hazardous waste and radioactive waste ratio | Exclusion of issuers based on an MSCI ESG controversy score |
| Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | Exclusion of issuers based on an MSCI ESG controversy score |
| Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons) | Exclusion of issuers determined to have any tie to controversial weapons |
| Share of non-renewable energy consumption and production | Minimum weighted green to fossil-fuel based ratio |

**Asset allocation** describes the share of investments in specific assets.

**What was the proportion of sustainability-related investments?**

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

**What was the asset allocation?**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:
- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

| Asset allocation | % of Investments | | | |

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Barclays Industry Classification System): integrated, independent, midstream, oil field services, refining, or metals and mining.

**iShares € Corp Bond ESG Paris-Aligned Climate UCITS ETF**

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

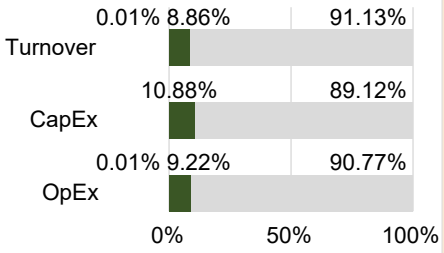
**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 7.56% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

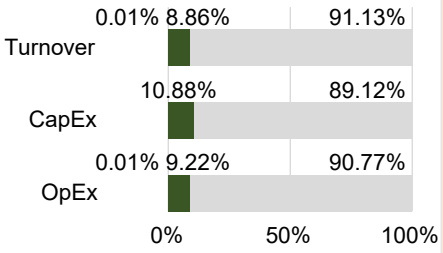
[X] Yes:



[X] In fossil gas [X] In nuclear energy

[ ] No

[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.



The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

The Fund had exposure to investments that were EU Taxonomy-aligned; however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

For the reference period, 0.00% of the Fund's total investments were held in sovereign exposures.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| Environmental objectives | % of Investments |
|---|---|
| Climate mitigation | 8.50% |
| Climate adaptation | 0.12% |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

**What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

| | % of Investments |
|---|---|
| Transitional Activities | 0.09% |
| Enabling Activities | 4.45% |

**How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

| | % of Investments | | | |
|---|---|---|---|---|
| | 2026 | 2025 | 2024 | 2023 |

**iShares € Corp Bond ESG Paris-Aligned Climate UCITS ETF**

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

For the reference period, 46.81% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

**What was the share of socially sustainable investments?**

For the reference period, 5.48% of the Fund's investments were classified as socially sustainable investments.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included cash, money market funds and derivatives, however such holdings did not exceed 20%. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section To what extent were the environmental and/or social characteristics of the Fund met?).

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares € Corp Bond ESG Paris-Aligned Climate UCITS ETF**

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

**How did this financial product perform compared to the reference benchmark?**

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

**How does the reference benchmark differ from a broad market index?**

The benchmark index excluded issuers that do not meet its ESG selection criteria from its broad market index, the Bloomberg Euro Corporate Index. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at https://www.bloomberg.com/professional/product/indices/bloomberg-fixed-income-indices/#/ucits.

**How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Fund achieved the environmental and social characteristics it promotes through replicating the constituents of the Fund's benchmark index.

**How did this financial product perform compared with the reference benchmark?**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## Environmental and/or social characteristics

**Did this financial product have a sustainable investment objective?**

- [ ] **Yes**
- [X] **No**

- [ ] It made **sustainable investments with an environmental objective:** __%
  - [ ] in economic activities that qualify as environmentally sustainable under the EU Taxonomy
  - [ ] in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- [ ] It made **sustainable investments with a social objective:** __%

- [X] It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 65.77% of sustainable investments
  - [X] with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
  - [X] with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
  - [X] with a social objective
- [ ] It promoted E/S characteristics, but **did not make any sustainable investments**

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

| Environmental and social characteristics promoted by the Fund |
|---|
| Exclusion of issuers involved in certain activities deemed to have negative environmental and/or social outcomes such as: alcohol, tobacco, gambling, adult entertainment, genetically modified organisms (GMO), nuclear power, civilian firearms, controversial weapons, conventional weapons, nuclear weapons, thermal coal, fossil fuels |
| Exclusion of issuers with a zero MSCI controversy score or no MSCI controversy score |
| Exclusion of issuers with an MSCI ESG rating below BBB or no rating |
| Exposure to investments qualified as Sustainable Investments |

The Sustainable Investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| EU Taxonomy environmental objectives contributed to by the Fund |
|---|
| Climate mitigation |
| Climate adaptation |

**iShares € Corp Bond ex-Financials 1-5yr ESG SRI UCITS ETF**

**What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 65.77% of its holdings in Sustainable Investments in pursuit of its investment objective.

The Fund's investments qualifying as Sustainable Investments were either in:
(1) issuers involved in activities deemed to contribute to positive environmental and/or social impacts, or
(2) issuers which have committed to one or more active carbon emissions reduction target(s) approved by the Science Based Targets initiative (SBTi).
(3) fixed income securities which have been classified as "green bonds".

To be classified as a green bond, a bond's proceeds must be exclusively and formally applied to fund projects that fall within one or more qualifying environmental categories including alternative energy, energy efficiency, pollution prevention and control, sustainable water, green building and climate adaptation.

The Fund's investments were assessed against their revenue exposure to positive sustainable impacts in line with the United Nations' Sustainable Development Goals, the EU Taxonomy and other sustainability-related frameworks. The positive environmental impacts considered as part of this assessment may have related to themes such as climate change and natural capital and identify issuers that may have derived revenues from activities (or related activities) such as alternative energy, energy efficiency and green building, sustainable water, pollution prevention and control and sustainable agriculture. The positive societal impacts considered as part of this assessment may have related to themes such as basic needs and empowerment and identify issuers that may have derived revenues from activities (or related activities) such as nutrition, major disease treatments, sanitation, affordable real estate, small and medium enterprise (SME) finance, education and connectivity.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. At each index rebalance, all investments qualifying as Sustainable Investments were assessed against certain minimum environmental and social indicators. As part of the assessment, issuers were assessed on their involvement in activities deemed to have highly negative environmental and social impacts. Where an issuer was identified as being involved in activities with highly negative environmental and social impacts, it was not eligible as a Sustainable Investment.

For bonds qualifying as green bonds, the assessment was conducted at an issuance level based on the use of the proceeds of the bonds which must be formally and exclusively applied to promote climate or other environmental sustainability purposes. In addition, certain minimum safeguards and eligibility exclusions were incorporated in the selection of green bonds to avoid exposure to bonds associated with activities deemed to have highly negative environmental and societal impacts.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

  The mandatory indicators for adverse impacts on sustainability factors (as set out in the Regulatory Technical Standards ("RTS") under the SFDR) were considered at each index rebalance through the screening criteria applied by the index provider in the selection of index constituents qualifying as Sustainable Investments.

  Following this assessment, the following investments did not qualify as Sustainable Investments: (1) issuers deemed to be deriving at least 1% of their revenue from thermal coal which is significantly carbon intensive and a major contributor to greenhouse gas emissions (taking into account indicators relating to GHG emissions) (2) issuers with an "orange" MSCI ESG controversy flag that have been deemed to be involved in severe ESG controversies (including in relation to indicators concerning greenhouse gas emissions, biodiversity, water, waste and social and employee matters), and (3) issuers which were deemed to be lagging industry peers based on their high exposure and failure to manage significant ESG risks (taking into account indicators relating to greenhouse gas emissions, biodiversity, water, waste, unadjusted gender pay gap and board gender diversity).

  In respect of green bonds, the indicators for adverse impacts on sustainability factors were taken into account at each index rebalance and were assessed by the index provider at the issuance level based on an assessment of the use of proceeds of the bonds which must be formally and exclusively applied to promote climate or other environmental sustainability purposes. In addition, minimum safeguards and eligibility exclusions were applied by the index provider in the selection of green bonds to ensure the proceeds of which were not applied to activities with highly negative environmental and social outcomes. This includes through the minimum safeguards and eligibility exclusions of bonds with the use of proceeds linked to thermal coal extraction and power generation, significant biodiversity loss and controversial weapons.

  The benchmark index also excluded: (1) issuers with a "red" MSCI ESG controversy flag which included issuers determined to be in violation of international and/or national standards (taking into account indicators concerning violations of United Nations Global Compact principles and OECD Guidelines for Multinational Enterprises) and (2) issuers determined to have any tie to controversial weapons (taking into account indicators concerning ties to controversial weapons).

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

  The Fund's benchmark index has excluded companies with a "red" ESG controversy flag which excludes issuers which have been determined by the index provider to be in violation of the UN Guiding Principles on Business and Human Rights and OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria of the benchmark index at each index rebalance. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

| Adverse Sustainability Indicator | Sustainability Indicators |
|---|---|
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers based on certain environmental screens (listed above) |
| Greenhouse gas (GHG) Emissions | Exclusion of issuers based on certain environmental screens (listed above) |
| Carbon footprint | Exclusion of issuers based on certain environmental screens (listed above) |
| GHG intensity of investee companies | Exclusion of issuers based on certain environmental screens (listed above) |
| Negative impact to Biodiversity sensitive areas | Exclusion of issuers based on an MSCI ESG controversy score |
| Emissions to water | Exclusion of issuers based on an MSCI ESG controversy score |
| Hazardous waste and radioactive waste ratio | Exclusion of issuers based on an MSCI ESG controversy score |
| Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | Exclusion of issuers based on an MSCI ESG controversy score |
| Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons) | Exclusion of issuers determined to have any tie to controversial weapons |
| Share of non-renewable energy consumption and production | Minimum weighted green to fossil-fuel based ratio |

**Asset allocation** describes the share of investments in specific assets.

**What was the proportion of sustainability-related investments?**

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

**What was the asset allocation?**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:
- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

| Asset allocation | % of Investments | | | |

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Barclays Industry Classification System): integrated, independent, midstream, oil field services, or metals and mining.

**iShares € Corp Bond ex-Financials 1-5yr ESG SRI UCITS ETF**

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

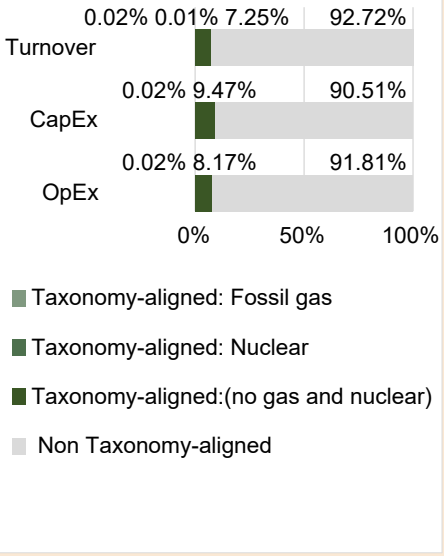
**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 5.59% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

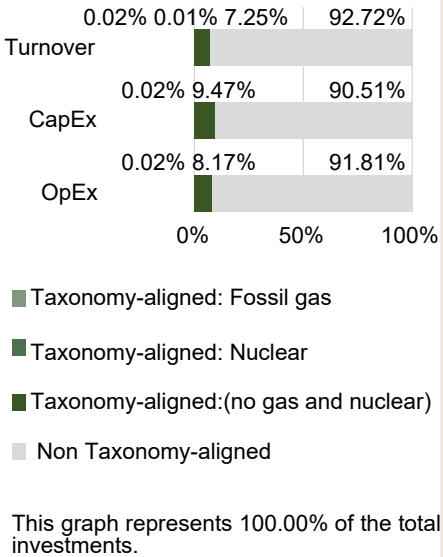
**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

X Yes:



X In fossil gas X In nuclear energy

No



[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

2. Taxonomy-alignment of investments **excluding sovereign bonds***

This graph represents 100.00% of the total investments.

The Fund had exposure to investments that were EU Taxonomy-aligned; however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

For the reference period,0.00% of the Fund's total investments were held in sovereign exposures.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| Environmental objectives | % of Investments |
|---|---|
| Climate mitigation | 6.68% |
| Climate adaptation | 0.03% |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

**What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

| | % of Investments |
|---|---|
| Transitional Activities | 0.34% |
| Enabling Activities | 4.93% |

**How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

| | % of Investments | | | |
|---|---|---|---|---|
| | 2026 | 2025 | 2024 | 2023 |
| EU Taxonomy Aligned | 7.28% | 6.54% | 5.20% | 0.00% |

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares € Corp Bond ex-Financials 1-5yr ESG SRI UCITS ETF**

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

For the reference period, 52.43% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

**What was the share of socially sustainable investments?**

For the reference period, 7.75% of the Fund's investments were classified as socially sustainable investments.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included cash, money market funds and derivatives, however such holdings did not exceed 20%. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section To what extent were the environmental and/or social characteristics of the Fund met?).

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

**How did this financial product perform compared to the reference benchmark?**

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

**How does the reference benchmark differ from a broad market index?**

The benchmark index excluded issuers that do not meet its ESG selection criteria from its broad market index, the Bloomberg Euro Corporate ex-Financials 1-5 Bond Index. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at https://www.bloomberg.com/professional/product/indices/bloomberg-fixed-income-indices/#/ ucits.

**How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Fund achieved the environmental and social characteristics it promotes through a portfolio that is primarily made up of securities that represent the Fund's benchmark index.

**How did this financial product perform compared with the reference benchmark?**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria of the benchmark index at each index rebalance. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares € Flexible Income Bond Active UCITS ETF**

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

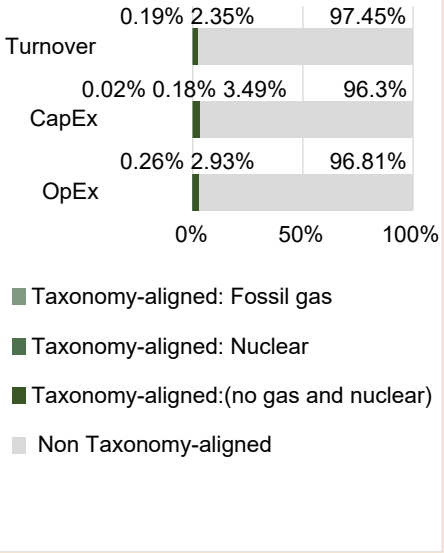
Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

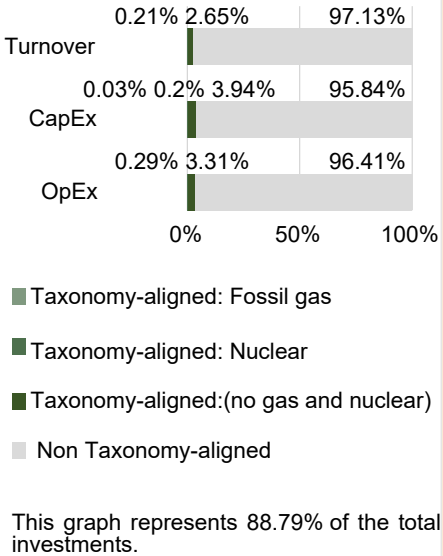
**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

X Yes:



X In fossil gas X In nuclear energy

No



[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

2. Taxonomy-alignment of investments **excluding sovereign bonds***

This graph represents 88.79% of the total investments.

** For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

The Fund had exposure to investments that were EU Taxonomy-aligned; however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

For the reference period, 11.21% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| Environmental objectives | % of Investments |
|---|---|
| Climate mitigation | 2.50% |
| Climate adaptation | 0.00% |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

**What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

| | % of Investments |
|---|---|
| Transitional Activities | 0.19% |
| Enabling Activities | 0.91% |

**How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

For the previous reference period, 0.02% of the Fund's investments were aligned with EU Taxonomy.

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

**What was the share of socially sustainable investments?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included derivatives, cash and near cash instruments and shares or units of CIS and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide, however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

BlackRock assesses good governance practices of the investee companies by combining proprietary insights with data from external ESG research providers. BlackRock uses data from external ESG research providers to identify investee companies which may not have satisfactory governance practices in relation to key performance indicators related to sound management structure, employee relations, remuneration of staff and tax compliance. Investee companies that do not satisfy BlackRock's assessment of good governance are excluded from the investment universe.

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website.

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria of the benchmark index at each index rebalance. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

**iShares € Govt Bond Climate UCITS ETF**

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

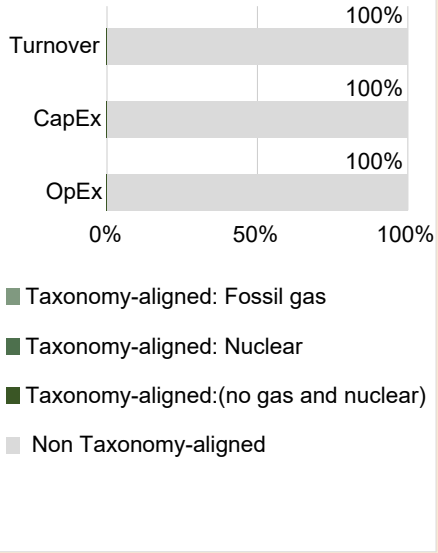
Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

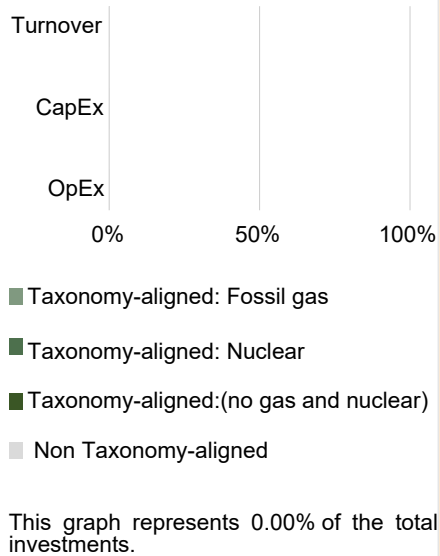
**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

☐ Yes:



☐ In fossil gas ☐ In nuclear energy

☒ No



[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

2. Taxonomy-alignment of investments **excluding sovereign bonds***

This graph represents 0.00% of the total investments.

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

**What was the share of socially sustainable investments?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included cash, money market funds and derivatives, however such holdings did not exceed 20%. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section To what extent were the environmental and/or social characteristics of the Fund met?).

**How did this financial product perform compared to the reference benchmark?**

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

**How does the reference benchmark differ from a broad market index?**

The benchmark index excluded issuers that do not meet its ESG selection criteria from its broad market index, the FTSE EMU
Government Bond Index. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at https://www.lseg.com/en/ftse-russell/indices/climate-wgbi#t-methodology..

**How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Fund achieved the environmental and social characteristics it promotes through a portfolio that is primarily made up of securities that represent the Fund's benchmark index.

**How did this financial product perform compared with the reference benchmark?**

| Sustainability Indicator | Metric | Fund | Reference benchmark |
|---|---|---|---|
| Improvement in weighted average FTSE Climate Score relative to the Parent Index | % improvement of weighted average FTSE Climate Score relative to the Parent Index | 15.42% | 15.42% |

**…and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section “How did the sustainability indicators perform?”).

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares € High Yield Corp Bond Enhanced Active UCITS ETF**

**What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 51.41% of its holdings in Sustainable Investments in pursuit of its investment objective.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. At each index rebalance, all investments qualifying as Sustainable Investments were assessed against certain minimum environmental and social indicators. As part of the assessment, companies were assessed on their involvement in activities deemed to have highly negative environmental and social impacts. Where a company was identified as being involved in activities with highly negative environmental and social impacts, it was not eligible as a Sustainable Investment.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

  The indicators for adverse impacts on sustainability factors for each type of investment are assessed using BlackRock's Sustainable Investments proprietary methodology. BlackRock uses third-party data and/or fundamental analysis to identify investments which negatively impact sustainability factors and cause significant harm.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

  Sustainable Investments are assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers deemed to have violated these conventions are not considered as Sustainable Investments.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares € High Yield Corp Bond Enhanced Active UCITS ETF**

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria of the benchmark index at each index rebalance. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

| Adverse Sustainability Indicator | Sustainability Indicators |
|---|---|
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands) |
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of green bonds that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers |
| Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption) |
| Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons) | Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons) |

**Asset allocation** describes the share of investments in specific assets.

**What was the proportion of sustainability-related investments?**

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

**What was the asset allocation?**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:
- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

| Asset allocation | % of Investments | | | |

**In which economic sectors were the investments made?**

The following table details the economic sectors that the Fund was exposed to during the reference period.

| Sector | Sub-Sector | % of Investments |
|---|---|---|
| Consumer Cyclical | Automotive | 8.03% |
| Financial Other | Financial Other | 7.78% |
| Consumer Non-Cyclical | Pharmaceuticals | 5.36% |

| Electric | Electric | 2.00% |
| Energy | Independent | 1.38% |
| Energy | Oil Field Services | 1.25% |
| Basic Industry | Metals and Mining | 1.21% |
| Capital Goods | Environmental | 1.07% |
| Capital Goods | Diversified Manufacturing | 1.01% |
| Energy | Midstream | 0.47% |
| Energy | Refining | 0.00% |

The Fund had exposure to energy sectors during the reference period, however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): integrated oil and gas, oil and gas exploration and production, oil and gas drilling, oil and gas storage and transportation, oil and gas refining and marketing or oil and gas equipment services.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

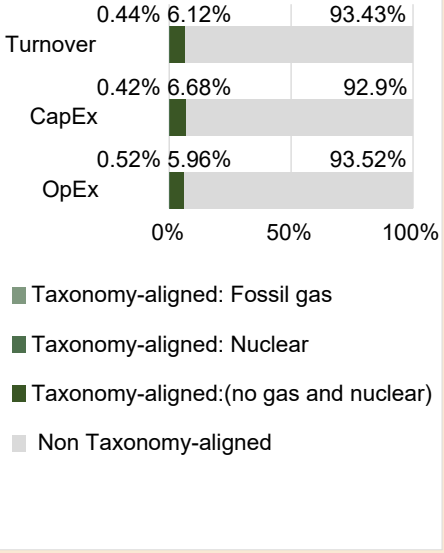
**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 5.46% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

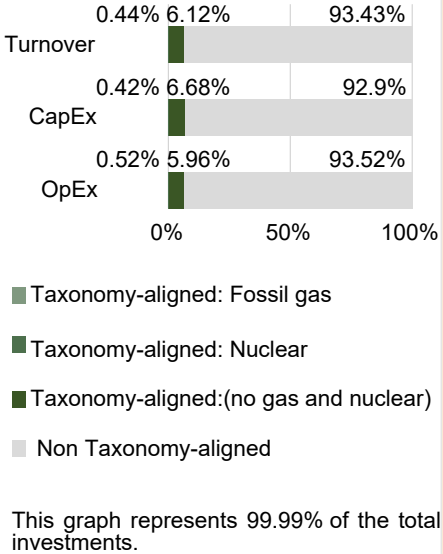
**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

[X] Yes:



[X] In fossil gas [X] In nuclear energy

[ ] No



[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

2. Taxonomy-alignment of investments **excluding sovereign bonds***

This graph represents 99.99% of the total investments.

** For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

The Fund had exposure to investments that were EU Taxonomy-aligned; however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

For the reference period,0.01% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| Environmental objectives | % of Investments |
|---|---|
| Climate mitigation | 6.24% |
| Climate adaptation | 0.19% |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

**What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

| | % of Investments |
|---|---|
| Transitional Activities | 0.59% |
| Enabling Activities | 2.52% |

**How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

As this is the first reference period presented for the Fund, no comparatives are presented.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares € High Yield Corp Bond Enhanced Active UCITS ETF**

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

For the reference period, 40.19% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

**What was the share of socially sustainable investments?**

For the reference period, 5.77% of the Fund's investments were classified as Sustainable Investments.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included derivatives, cash and near cash instruments and shares or units of CIS, however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Manager agrees with this external assessment, the Investment Manager is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Manager's direct engagement with the issuer. The Investment Manager may also decide to reduce exposure to such issuers.

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

[1]The Fund launched on 5 December 2023, therefore performance data is not present for the reference period ended 30 June 2023.
[2]The aggregate portfolio values for each sustainability indicator are calculated as the average of the realised values on or around each applicable index rebalance during the reference period. In some instances, due to market movements between the index review and effective rebalance date/reporting date, the realised values diverged from the targets achieved by the index construction process.
[3]Effective 29 November 2025, the Fund ceased to adhere to this sustainability indicator. The results presented therefore cover the period up to (but not including) 25 November 2025.

**…and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section “How did the sustainability indicators perform?”).

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares € High Yield Corp Bond ESG Paris-Aligned Climate UCITS ETF**

**What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 54.90% of its holdings in Sustainable Investments in pursuit of its investment objective.

The Fund's investments qualifying as Sustainable Investments were either in:
(1) issuers involved in activities deemed to contribute to positive environmental and/or social impacts, or
(2) issuers which have committed to one or more active carbon emissions reduction target(s) approved by the Science Based Targets initiative (SBTi).
(3) fixed income securities which have been classified as "green bonds".

To be classified as a green bond, a bond's proceeds must be exclusively and formally applied to fund projects that fall within one or more qualifying environmental categories including alternative energy, energy efficiency, pollution prevention and control, sustainable water, green building and climate adaptation.

The Fund's investments were assessed against their revenue exposure to positive sustainable impacts in line with the United Nations' Sustainable Development Goals, the EU Taxonomy and other sustainability-related frameworks. The positive environmental impacts considered as part of this assessment may have related to themes such as climate change and natural capital and identify issuers that may have derived revenues from activities (or related activities) such as alternative energy, energy efficiency and green building, sustainable water, pollution prevention and control and sustainable agriculture. The positive societal impacts considered as part of this assessment may have related to themes such as basic needs and empowerment and identify issuers that may have derived revenues from activities (or related activities) such as nutrition, major disease treatments, sanitation, affordable real estate, small and medium enterprise (SME) finance, education and connectivity.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. At each index rebalance, all investments qualifying as Sustainable Investments were assessed against certain minimum environmental and social indicators. As part of the assessment, issuers were assessed on their involvement in activities deemed to have highly negative environmental and social impacts. Where an issuer was identified as being involved in activities with highly negative environmental and social impacts, it was not eligible as a Sustainable Investment.

For bonds qualifying as green bonds, the assessment was conducted at an issuance level based on the use of the proceeds of the bonds which must be formally and exclusively applied to promote climate or other environmental sustainability purposes. In addition, certain minimum safeguards and eligibility exclusions were incorporated in the selection of green bonds to avoid exposure to bonds associated with activities deemed to have highly negative environmental and societal impacts.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

  The mandatory indicators for adverse impacts on sustainability factors (as set out in the Regulatory Technical Standards ("RTS") under the SFDR) were considered at each index rebalance through the screening criteria applied by the index provider in the selection of index constituents qualifying as Sustainable Investments.

  Following this assessment, the following investments did not qualify as Sustainable Investments: (1) issuers deriving a minimum % revenue from thermal coal (as determined by the index provider) which is significantly carbon intensive and a major contributor to greenhouse gas missions (taking into account indicators relating to GHG emissions), (2) issuers with an "orange" MSCI ESG controversy flag that have been deemed to be involved in severe ESG controversies (including in relation to indicators concerning greenhouse gas emissions, biodiversity, water, waste and social and employee matters), and (3) issuers with an MSCI ESG rating of B or below, which are deemed to be lagging industry peers based on their high exposure and failure to manage significant ESG risks (including in relation to indicators concerning greenhouse gas emissions, biodiversity, water, waste, unadjusted gender pay gap and board gender diversity).

  In respect of green bonds, the indicators for adverse impacts on sustainability factors were taken into account at each index rebalance and were assessed by the index provider at the issuance level based on an assessment of the use of proceeds of the bonds which must be formally and exclusively applied to promote climate or other environmental sustainability purposes. In addition, minimum safeguards and eligibility exclusions were applied by the index provider in the selection of green bonds to ensure the proceeds of which were not applied to activities with highly negative environmental and social outcomes. This includes through the minimum safeguards and eligibility exclusions of bonds with the use of proceeds linked to thermal coal extraction and power generation, significant biodiversity loss and controversial weapons.

  The benchmark index also excluded: (1) issuers with a "red" MSCI ESG controversy flag which included issuers determined to be in violation of international and/or national standards (taking into account indicators concerning violations of United Nations Global Compact principles and OECD Guidelines for Multinational Enterprises) and (2) issuers determined to have any tie to controversial weapons (taking into account indicators concerning ties to controversial weapons).

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

  The Fund's benchmark index has excluded companies with a "red" ESG controversy flag which excludes issuers which have been determined by the index provider to be in violation of the UN Guiding Principles on Business and Human Rights and OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares € High Yield Corp Bond ESG Paris-Aligned Climate UCITS ETF**

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria of the benchmark index at each index rebalance. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

| Adverse Sustainability Indicator | Sustainability Indicators |
|---|---|
| Carbon footprint | Minimum % reduction of GHG emissions and carbon intensity |
| Greenhouse gas (GHG) Emissions | Minimum % reduction of GHG emissions and carbon intensity |
| GHG intensity of investee companies | Minimum % reduction of GHG emissions and carbon intensity |
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers based on certain environmental screens (listed above) |
| Share of non-renewable energy consumption and production | Minimum weighted green to fossil-fuel based ratio |
| Activities negatively affecting biodiversity sensitive areas | Exclusion of issuers based on an MSCI ESG controversy score |
| Emissions to Water | Exclusion of issuers based on an MSCI ESG controversy score |
| Hazardous waste and radioactive waste ratio | Exclusion of issuers based on an MSCI ESG controversy score |
| Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | Exclusion of issuers based on an MSCI ESG controversy score |
| Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons) | Exclusion of issuers determined to have any tie to controversial weapons |

**Asset allocation** describes the share of investments in specific assets.

**What was the proportion of sustainability-related investments?**

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

**What was the asset allocation?**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:
- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

| Asset allocation | % of Investments | | | |
|---|---|---|---|---|
| | 2026 | 2025 | 2024 | 2023 |

[1]The Fund launched on 5 December 2023, therefore performance data is not present for the reference periods ended 30 June 2023.
[2]The aggregate portfolio values for each sustainability indicator are calculated as the average of the realised values on or around each applicable index rebalance during the reference period. In some instances, due to market movements between the index review and effective rebalance date/reporting date, the realised values diverged from the targets achieved by the index construction process.

**In which economic sectors were the investments made?**

The following table details the economic sectors that the Fund was exposed to during the reference period.

| Sector | Sub-Sector | % of Investments |
|---|---|---|
| Communications | Wirelines | 9.01% |
| Financial Other | Financial Other | 8.66% |
| Communications | Wireless | 7.77% |

| Consumer Non-Cyclical | Food and Beverage | 1.01% |
| Energy | Oil Field Services | 0.47% |
| Energy | Midstream | 0.01% |

The Fund had exposure to energy sectors during the reference period, however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Barclays Industry Classification System): integrated, independent, refining, or metals and mining.

**iShares € High Yield Corp Bond ESG Paris-Aligned Climate UCITS ETF**

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

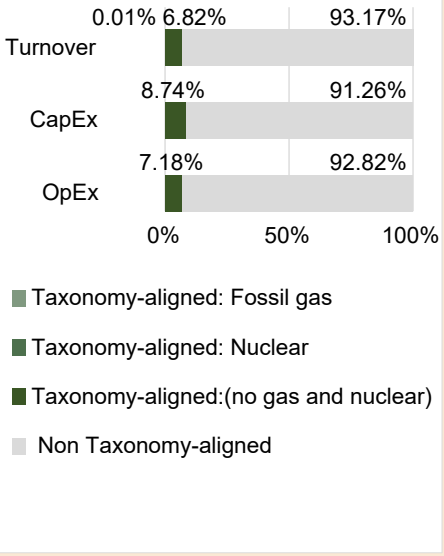
**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 4.66% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

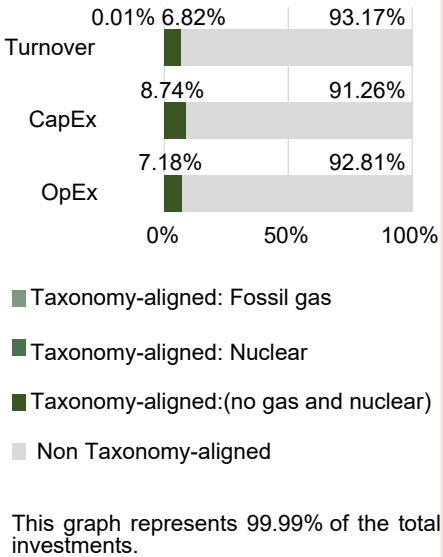
**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

X Yes:



X In fossil gas X In nuclear energy

No



[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

2. Taxonomy-alignment of investments **excluding sovereign bonds***

This graph represents 99.99% of the total investments.

** For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

The Fund had exposure to investments that were EU Taxonomy-aligned; however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

For the reference period, 0.01% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| Environmental objectives | % of Investments |
|---|---|
| Climate mitigation | 6.20% |
| Climate adaptation | 0.17% |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

**What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

| | % of Investments |
|---|---|
| Transitional Activities | 0.29% |
| Enabling Activities | 3.53% |

**How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

| | % of Investments | | | |
|---|---|---|---|---|
| | 2026 | 2025 | 2024 | 2023 |

**iShares € High Yield Corp Bond ESG Paris-Aligned Climate UCITS ETF**

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

For the reference period, 47.54% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

**What was the share of socially sustainable investments?**

For the reference period, 2.70% of the Fund's investments were classified as socially sustainable investments.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included cash, money market funds and derivatives, however such holdings did not exceed 20%. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section To what extent were the environmental and/or social characteristics of the Fund met?).

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares € High Yield Corp Bond ESG Paris-Aligned Climate UCITS ETF**

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

**How did this financial product perform compared to the reference benchmark?**

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

**How does the reference benchmark differ from a broad market index?**

The benchmark index excluded issuers that do not meet its ESG selection criteria from its broad market index, the Bloomberg European High Yield 3% Issuer Capped Index. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at https://www.bloomberg.com/professional/product/indices/bloomberg-fixed-income-indices/#/ucits.

**How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Fund achieved the environmental and social characteristics it promotes through a portfolio that is primarily made up of securities that represent the Fund's benchmark index.

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

| Environmental and social characteristics promoted by the Fund |
|---|
| Exclusion of issuers involved in certain activities deemed to have negative environmental and/or social outcomes such as: controversial weapons, weapons (such as small arms and military contracting), thermal coal, nuclear power, tobacco, conventional and unconventional oil and gas |
| Exclusion of issuers involved in severe ESG related controversies |
| Exclusion of companies classified as violating United Nations Global Compact principles |
| Exposure to investments qualified as Sustainable Investments |

The Sustainable Investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

**iShares AI Adopters & Applications UCITS ETF**

**What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 74.45% of its holdings in Sustainable Investments in pursuit of its investment objective.

The Fund's investments qualifying as Sustainable Investments were either in:
(1) companies involved in activities deemed to contribute to positive environmental and/or social impacts, or
(2) companies which have committed to one or more active carbon emissions reduction target(s) approved by the Science Based Targets initiative (SBTi).

The Fund's investments were assessed against their revenue exposure to positive sustainable impacts in line with the United Nations' Sustainable Development Goals, the EU Taxonomy and other sustainability-related frameworks. The positive environmental impacts considered as part of this assessment may have related to themes such as climate change and natural capital and identify companies that may have derived revenues from activities (or related activities) such as alternative energy, energy efficiency and green building, sustainable water, pollution prevention and control and sustainable agriculture. The positive societal impacts considered as part of this assessment may have related to themes such as basic needs and empowerment and identify companies that may have derived revenues from activities (or related activities) such as nutrition, major disease treatments, sanitation, affordable real estate, small and medium enterprise (SME) finance, education and connectivity.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. At each index rebalance, all investments qualifying as Sustainable Investments were assessed against certain minimum environmental and social indicators. As part of the assessment, companies were assessed on their involvement in activities deemed to have highly negative environmental and social impacts. Where a company was identified as being involved in activities with highly negative environmental and social impacts, it was not eligible as a Sustainable Investment.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

  The mandatory indicators for adverse impacts on sustainability factors (as set out in the Regulatory Technical Standards ("RTS") under the SFDR) were considered at each index rebalance through the screening criteria applied by the index provider in the selection of index constituents qualifying as Sustainable Investments.

  As a result of the screening criteria applied by the index provider, the following investments within the benchmark index did not qualify as Sustainable Investments: (1) companies deriving a minimum % revenue from thermal coal (as determined by the index provider) which was significantly carbon intensive and a major contributor to greenhouse gas emissions (taking into account indicators relating to GHG emissions), (2) companies with an ISS ESG Carbon Risk Rating below 25 that measures companies' preparedness for the transition to a low-carbon economy and that are identified as being a Climate Laggard (taking into account indicators relating to greenhouse gas emissions including carbon emissions and renewable/non-renewable energy use), and (3) companies identified as 'Red' as part of the index provider's norms based screening assessment that have been deemed to have failed to adhere to established norms (and address related issues) relating to labour standards, environmental protection and anti-corruption established in the UN Global Compact and the OECD Guidelines (taking into account indicators relating to biodiversity, water, waste and social and employee matters).

  The benchmark index also excluded: (1) companies which were classified as violating or are at risk of violating commonly accepted international norms and standards, enshrined in the United Nations Global Compact (UNGC) Principles, the Organisation for Economic Co-operation and Development (OECD) Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights (UNGPs) and their underlying conventions and (2) companies determined to have any tie to controversial weapons (taking into account indicators concerning ties to controversial weapons).

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

  The Fund's benchmark index excluded companies which were classified as violating or were at risk of violating commonly accepted international norms and standards, enshrined in the United Nations Global Compact (UNGC) Principles, the Organisation for Economic Co-operation and Development (OECD) Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights (UNGPs) and their underlying conventions. The benchmark index applied the above exclusionary criteria at each index rebalance.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares AI Adopters & Applications UCITS ETF**

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria of the benchmark index at each index rebalance. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

| Adverse Sustainability Indicator | Sustainability Indicators |
|---|---|
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers based on certain environmental screens (listed above) |
| Activities negatively affecting biodiversity sensitive areas | Exclusion of issuers with a Sustainalytics controversy score of 5 |
| Emissions to water | Exclusion of issuers with a Sustainalytics controversy score of 5 |
| Hazardous waste and radioactive waste ratio | Exclusion of issuers with a Sustainalytics controversy score of 5 |
| Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | Exclusion of issuers with a severe ESG controversy score |
| Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons) | Exclusion of issuers determined to have any tie to controversial weapons |

**Asset allocation** describes the share of investments in specific assets.

**What was the proportion of sustainability-related investments?**

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

**What was the asset allocation?**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:
- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

| Asset allocation | % of Investments | | | |
|---|---|---|---|---|
| | 2026 | 2025 | 2024 | 2023 |
| #1 Aligned with E/S characteristics | 99.14% | 99.60% | N/A[1] | N/A[1] |

[1]The Fund launched on 3 December 2024, therefore performance data is not present for the reference period ended 30 June 2024 and 30 June 2023.
[2]Comparative information is not disclosed as these Sustainable Investments were disclosed as a mix of Sustainable Investments with an environmental objective that is not aligned with the EU Taxonomy or a social objective or a combination of both, and the exact composition may have fluctuated.

**In which economic sectors were the investments made?**

The following table details the economic sectors that the Fund was exposed to during the reference period.

| Sector | Sub-Sector | % of Investments |
|---|---|---|
| Information Technology | Software & Services | 24.30% |
| Health Care | Pharma, Biotech & Life Sciences | 18.18% |
| Health Care | Health Care Equipment & Services | 11.69% |
| Industrials | Capital Goods | 11.21% |
| Communication | Media & Entertainment | 7.02% |
| Financials | Financial Services | 6.96% |
| Information Technology | Technology Hardware & Equipment | 5.82% |
| Financials | Banks | 5.42% |
| Consumer Discretionary | Autos & Components | 3.34% |
| Industrials | Transportation | 3.11% |
| Information Technology | Semiconductors & Semiconductor Equipment | 1.89% |
| Energy | Integrated Oil & Gas | 0.01% |
| Energy | Oil & Gas Exploration & Production | 0.00% |
| Energy | Oil & Gas Storage & Transportation | 0.00% |
| Energy | Oil & Gas Refining & Marketing | 0.00% |
| Energy | Oil & Gas Equipment & Services | 0.00% |

The Fund had exposure to energy sectors during the reference period, however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): oil and gas drilling, or coal and consumable fuels.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares AI Adopters & Applications UCITS ETF**

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

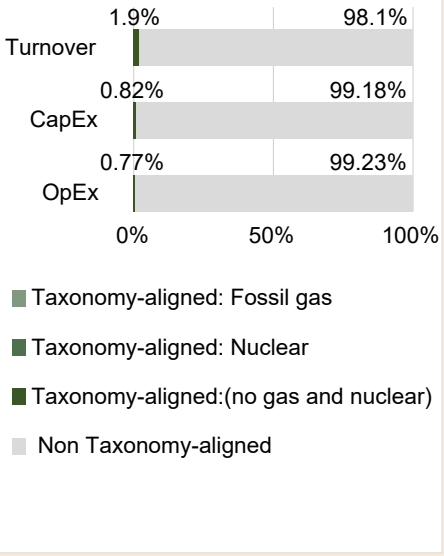
**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 0.83% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

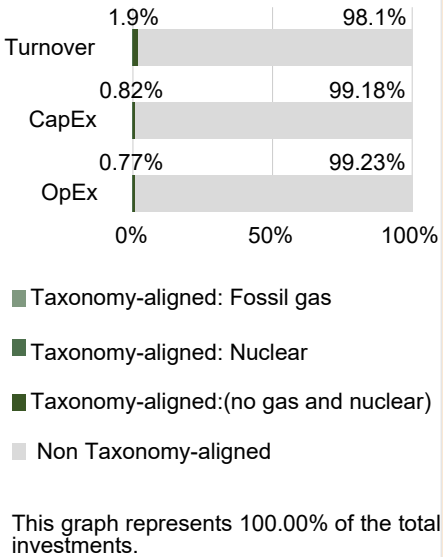
**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

☐ Yes:



☐ In fossil gas ☐ In nuclear energy

☒ No



[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

2. Taxonomy-alignment of investments **excluding sovereign bonds***

This graph represents 100.00% of the total investments.

** For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

For the reference period, 0.00% of the Fund's total investments were held in sovereign exposures.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| Environmental objectives | % of Investments |
|---|---|
| Climate mitigation | 1.77% |
| Climate adaptation | 0.00% |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

**What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

| | % of Investments |
|---|---|
| Transitional Activities | 0.06% |
| Enabling Activities | 1.26% |

**How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

For the previous reference period, 0.03% of the Fund's investments were aligned with EU Taxonomy.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares AI Adopters & Applications UCITS ETF**

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

For the reference period, 44.46% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

**What was the share of socially sustainable investments?**

For the reference period, 29.16% of the Fund's investments were classified as Sustainable Investments.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included cash, money market funds and derivatives, however such holdings did not exceed 20%. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section To what extent were the environmental and/or social characteristics of the Fund met?).

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

**How did this financial product perform compared to the reference benchmark?**

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

**How does the reference benchmark differ from a broad market index?**

The benchmark index excluded issuers that do not meet its ESG selection criteria from its broad market index, the STOXX World AC Universal All Cap Index. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at https://www.stoxx.com/document/Indices/Common/Indexguide/stoxx_index_guide.pdf.

**How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Fund achieved the environmental and social characteristics it promotes through replicating the constituents of the Fund's benchmark index.

**How did this financial product perform compared with the reference benchmark?**

| Sustainability Indicator | Metric | Fund | Reference benchmark |

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

| Environmental and social characteristics promoted by the Fund |
|---|
| Exclusion of issuers involved in certain activities deemed to have negative environmental and/or social outcomes such as: controversial weapons, small arms and military contracting), the production and distribution of tobacco, thermal coal, nuclear power, conventional and unconventional oil and gas |
| Exclusion of issuers involved in severe ESG related controversies |
| Exclusion of companies classified as violating United Nations Global Compact principles |
| Exposure to investments qualified as Sustainable Investments |

The Sustainable Investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| EU Taxonomy environmental objectives contributed to by the Fund |

**…and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares AI Infrastructure UCITS ETF**

**What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 61.57% of its holdings in Sustainable Investments in pursuit of its investment objective.

The Fund's investments qualifying as Sustainable Investments were either in:
(1) companies involved in activities deemed to contribute to positive environmental and/or social impacts, or
(2) companies which have committed to one or more active carbon emissions reduction target(s) approved by the Science Based Targets initiative (SBTi).

The Fund's investments were assessed against their revenue exposure to positive sustainable impacts in line with the United Nations' Sustainable Development Goals, the EU Taxonomy and other sustainability-related frameworks. The positive environmental impacts considered as part of this assessment may have related to themes such as climate change and natural capital and identify companies that may have derived revenues from activities (or related activities) such as alternative energy, energy efficiency and green building, sustainable water, pollution prevention and control and sustainable agriculture. The positive societal impacts considered as part of this assessment may have related to themes such as basic needs and empowerment and identify companies that may have derived revenues from activities (or related activities) such as nutrition, major disease treatments, sanitation, affordable real estate, small and medium enterprise (SME) finance, education and connectivity.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. At each index rebalance, all investments qualifying as Sustainable Investments were assessed against certain minimum environmental and social indicators. As part of the assessment, companies were assessed on their involvement in activities deemed to have highly negative environmental and social impacts. Where a company was identified as being involved in activities with highly negative environmental and social impacts, it was not eligible as a Sustainable Investment.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

  The mandatory indicators for adverse impacts on sustainability factors (as set out in the Regulatory Technical Standards ("RTS") under the SFDR) were considered at each index rebalance through the screening criteria applied by the index provider in the selection of index constituents qualifying as Sustainable Investments.

  As a result of the screening criteria applied by the index provider, the following investments within the benchmark index did not qualify as Sustainable Investments: (1) companies deriving a minimum % revenue from thermal coal (as determined by the index provider) which was significantly carbon intensive and a major contributor to greenhouse gas emissions (taking into account indicators relating to GHG emissions), (2) companies with an ISS ESG Carbon Risk Rating below 25 that measures companies' preparedness for the transition to a low-carbon economy and that are identified as being a Climate Laggard (taking into account indicators relating to greenhouse gas emissions including carbon emissions and renewable/non-renewable energy use), and (3) companies identified as 'Red' as part of the index provider's norms based screening assessment that have been deemed to have failed to adhere to established norms (and address related issues) relating to labour standards, environmental protection and anti-corruption established in the UN Global Compact and the OECD Guidelines (taking into account indicators relating to biodiversity, water, waste and social and employee matters).

  The benchmark index also excluded: (1) companies which were classified as violating or are at risk of violating commonly accepted international norms and standards, enshrined in the United Nations Global Compact (UNGC) Principles, the Organisation for Economic Co-operation and Development (OECD) Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights (UNGPs) and their underlying conventions and (2) companies determined to have any tie to controversial weapons (taking into account indicators concerning ties to controversial weapons).

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

  The Fund's benchmark index excluded companies which were classified as violating or were at risk of violating commonly accepted international norms and standards, enshrined in the United Nations Global Compact (UNGC) Principles, the Organisation for Economic Co-operation and Development (OECD) Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights (UNGPs) and their underlying conventions. The benchmark index applied the above exclusionary criteria at each index rebalance.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares AI Infrastructure UCITS ETF**

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria of the benchmark index at each index rebalance. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

| Adverse Sustainability Indicator | Sustainability Indicators |
|---|---|
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers based on certain environmental screens (listed above) |
| Activities negatively affecting biodiversity sensitive areas | Exclusion of issuers with a Sustainalytics controversy score of 5 |
| Emissions to water | Exclusion of issuers with a Sustainalytics controversy score of 5 |
| Hazardous waste and radioactive waste ratio | Exclusion of issuers with a Sustainalytics controversy score of 5 |
| Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | Exclusion of issuers with a severe ESG controversy score |
| Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons) | Exclusion of issuers determined to have any tie to controversial weapons |

**What were the top investments of this financial product?**

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 1 July 2025 to 30 June 2026.

**Asset allocation** describes the share of investments in specific assets.

**What was the proportion of sustainability-related investments?**

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

**What was the asset allocation?**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:
- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

| Asset allocation | % of Investments | | | |
|---|---|---|---|---|
| | 2026 | 2025 | 2024 | 2023 |
| #1 Aligned with E/S characteristics | 98.60% | 99.77% | N/A[1] | N/A[1] |

[1]The Fund launched on 3 December 2024, therefore performance data is not present for the reference period ended 30 June 2024 and 30 June 2023.
[2]Comparative information is not disclosed as these Sustainable Investments were disclosed as a mix of Sustainable Investments with an environmental objective that is not aligned with the EU Taxonomy or a social objective or a combination of both, and the exact composition may have fluctuated.

**In which economic sectors were the investments made?**

The following table details the economic sectors that the Fund was exposed to during the reference period.

| Sector | Sub-Sector | % of Investments |
|---|---|---|
| Information Technology | Semiconductors & Semiconductor Equipment | 51.67% |
| Information Technology | Software & Services | 19.71% |
| Information Technology | Technology Hardware & Equipment | 18.32% |
| Communication | Media & Entertainment | 3.83% |
| Consumer Discretionary | Consumer Discretionary Distribution & Retail | 3.73% |
| Real Estate | Equity Real Estate Investment Trusts (REITs) | 1.66% |
| Energy | Oil & Gas Equipment & Services | 0.00% |
| Energy | Oil & Gas Exploration & Production | 0.00% |

The Fund had exposure to energy sectors during the reference period, however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): integrated oil and gas, oil and gas drilling, oil and gas storage and transportation, oil and gas refining and marketing or coal and consumable fuels.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

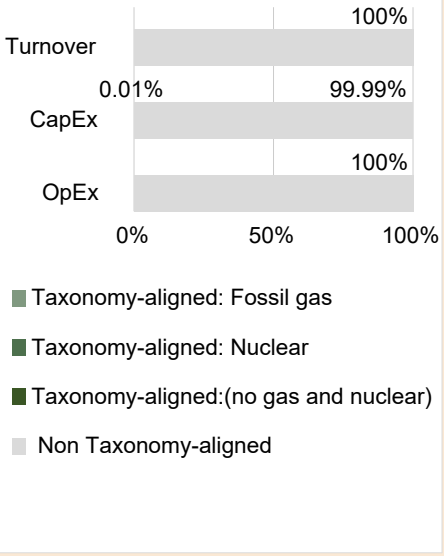
**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 0.00% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

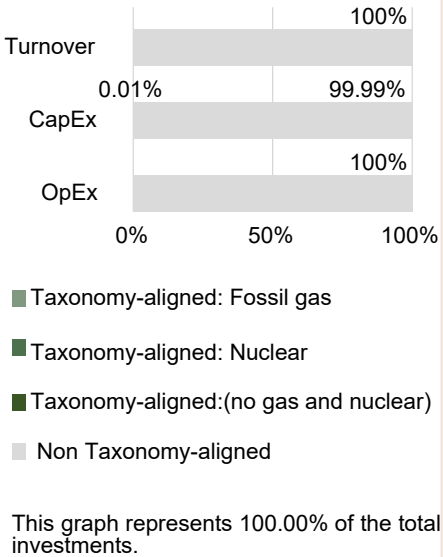
**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

☐ Yes:



☐ In fossil gas ☐ In nuclear energy

☒ No



[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

2. Taxonomy-alignment of investments **excluding sovereign bonds***

This graph represents 100.00% of the total investments.

** For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

| Non Taxonomy-aligned | 100.00% | 99.99% | 100.00% |

For the reference period, 0.00% of the Fund's total investments were held in sovereign exposures.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| Environmental objectives | % of Investments |
|---|---|
| Climate mitigation | 0.00% |
| Climate adaptation | 0.00% |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

**What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

| | % of Investments |
|---|---|
| Transitional Activities | 0.00% |
| Enabling Activities | 0.00% |

**How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

For the previous reference period, 0.00% of the Fund's investments were aligned with EU Taxonomy.

**iShares AI Infrastructure UCITS ETF**

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

For the reference period, 60.35% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

**What was the share of socially sustainable investments?**

For the reference period, 1.22% of the Fund's investments were classified as Sustainable Investments.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included cash, money market funds and derivatives, however such holdings did not exceed 20%. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section To what extent were the environmental and/or social characteristics of the Fund met?).

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

**How did this financial product perform compared to the reference benchmark?**

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

**How does the reference benchmark differ from a broad market index?**

The benchmark index excluded issuers that do not meet its ESG selection criteria from its broad market index, the STOXX World AC Universal All Cap Index. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at https://www.stoxx.com/document/Indices/Common/Indexguide/stoxx_index_guide.pdf.

**How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Fund achieved the environmental and social characteristics it promotes through replicating the constituents of the Fund's benchmark index.

**How did this financial product perform compared with the reference benchmark?**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

| Environmental and social characteristics promoted by the Fund |
|---|
| Exclusion of issuers which are engaged in, or are otherwise exposed to the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons) |
| Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads and nuclear missiles, or essential components for exclusive use in nuclear weapons |
| Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers |
| Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands) |
| Exclusion of issuers which produce tobacco products |
| Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products |
| Exclusion of issuers that derive more than 5% of their revenue from the production of firearms intended for civilian use |
| Exclusion of issuers that derive more than 5% of their revenue from distribution of firearms intended for civilian use |
| Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption) |

**How did the sustainability indicators perform?**

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

| Sustainability Indicator | Metric | 2026 | 2025 | 2024 | 2023 |

**What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

  This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

  This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria of the benchmark index at each index rebalance. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

| Adverse Sustainability Indicator | Sustainability Indicators |
|---|---|
| Exposure to companies active in the fossil fuel sector | Exclusion of Issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers. |
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands). |
| Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption) |
| Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons) | Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons). |

**Asset allocation** describes the share of investments in specific assets.

**What was the proportion of sustainability-related investments?**

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

**What was the asset allocation?**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The Fund did not commit to holding Sustainable Investments and therefore the Fund's exposure to Sustainable Investments has not been assessed, however, during the reference period, a percentage of the Fund's investments were aligned with the EU Taxonomy (see the section "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?" below).

The following table details the asset allocation of the Fund for the current and the previous reference periods.

| Asset allocation | % of Investments | | | |
|---|---|---|---|---|
| | 2026 | 2025 | 2024 | 2023 |
| #1 Aligned with E/S characteristics | 99.34% | 99.29% | N/A[1] | N/A[1] |

**In which economic sectors were the investments made?**

The following table details the economic sectors representing 1% or more of investments held that the Fund was exposed to during the reference period.

| Sector | Sub-Sector | % of Investments |
|---|---|---|
| Information Technology | Semiconductors & Semiconductor Equipment | 52.23% |
| Information Technology | Technology Hardware & Equipment | 22.07% |
| Information Technology | Software & Services | 10.68% |
| Communication | Media & Entertainment | 5.34% |
| Industrials | Capital Goods | 3.64% |
| Communication | Telecommunications | 2.45% |
| Consumer Discretionary | Autos & Components | 2.08% |

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): integrated oil and gas, oil and gas exploration and production, oil and gas drilling, oil and gas storage and transportation, oil and gas refining and marketing, oil and gas equipment services or coal and consumable fuels.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

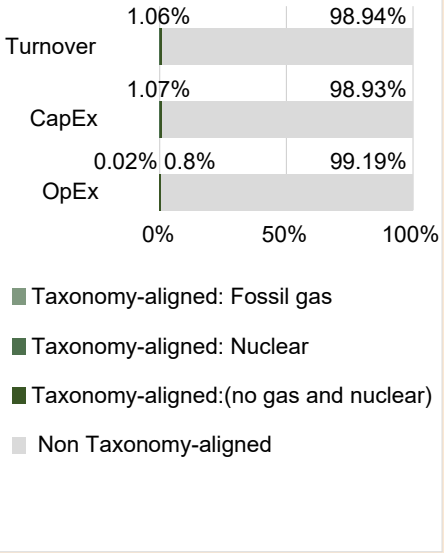
Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

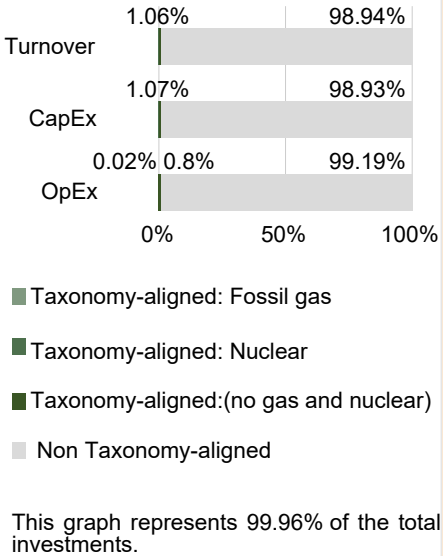
**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

[X] Yes:



[X] In fossil gas [ ] In nuclear energy

[ ] No



[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

2. Taxonomy-alignment of investments **excluding sovereign bonds***

This graph represents 99.96% of the total investments.

** For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

The Fund had exposure to investments that were EU Taxonomy-aligned; however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

For the reference period, 0.04% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| Environmental objectives | % of Investments |
|---|---|
| Climate mitigation | 1.06% |
| Climate adaptation | 0.00% |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

**What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

| | % of Investments |
|---|---|
| Transitional Activities | 0.23% |
| Enabling Activities | 0.43% |

**How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

For the previous reference period, 0.01% of the Fund's investments were aligned with EU Taxonomy.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

**What was the share of socially sustainable investments?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included derivatives, cash and near cash instruments and shares or units of CIS and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide, however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

BlackRock assesses good governance practices of the investee companies by combining proprietary insights with data from external ESG research providers. BlackRock uses data from external ESG research providers to identify investee companies which may not have satisfactory governance practices in relation to key performance indicators related to sound management structure, employee relations, remuneration of staff and tax compliance. Investee companies that do not satisfy BlackRock's assessment of good governance are excluded from the investment universe.

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

| Environmental and social characteristics promoted by the Fund |
|---|
| Exposure to investments qualified as Sustainable Investments |
| Lower carbon emission intensity (emissions per $1 million of sales revenue) relative to the MSCI AC Asia ex Japan Index (the 'Parent Index') |
| Exclusion of issuers that derive more than 5% of their revenue from the production of firearms intended for civilian use |
| Exclusion of issuers that derive more than 5% of their revenue from distribution of firearms intended for civilian use |
| Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption) |

[1]The Fund launched on 23 July 2024, therefore performance data is not present for the reference periods ended 30 June 2024 and 30 June 2023.
[2]The good governance and DNSH methodology was updated in the Fund's prospectus effective from 4 March 2026. The metrics presented in this report have been calculated based on the new methodology notwithstanding that it was not applicable for the full reference period.

**…and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares Asia ex Japan Equity Enhanced Active UCITS ETF**

**What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 48.91% of its holdings in Sustainable Investments in pursuit of its investment objective.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments. The Investment Manager assessed the indicators for adverse impacts on sustainability factors for each type of investment as defined by the regulation. Criteria for adverse impacts were assessed using third-party vendor data regarding an investment's business involvement (in specific activities identified as having negative environmental or social impacts) or environmental or social controversies to exclude investments which the Investment Manager has determined are harmful to sustainability indicators subject to limited exceptions, for example, where the data was determined to be inaccurate or not up to date. Where no data was available, or it was substantially incomplete, fundamental analysis was undertaken using reasonable efforts to identify impacts which the Investment Manager determined to be harmful to the sustainability indicators.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

  The indicators for principal adverse impacts ("PAI"s) on sustainability factors for each type of investment were assessed using BlackRock's Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

  The Fund's benchmark index excluded companies which were classified as violating or were at risk of violating commonly accepted international norms and standards, enshrined in the United Nations Global Compact (UNGC) Principles, the Organisation for Economic Co-operation and Development (OECD) Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights (UNGPs) and their underlying conventions. The benchmark index applied the above exclusionary criteria at each index rebalance.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria of the benchmark index at each index rebalance. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

| Adverse Sustainability Indicator | Sustainability Indicators |
|---|---|
| Greenhouse gas (GHG) emissions | Lower carbon emission intensity relative to the Parent Index |
| GHG intensity of investee companies | Lower carbon emission intensity relative to the Parent Index |
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands) |
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation |
| Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption) |
| Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons) | Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons). |
| Carbon footprint | Lower carbon emission intensity relative to the Parent Index |

**Asset allocation** describes the share of investments in specific assets.

**What was the proportion of sustainability-related investments?**

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

**What was the asset allocation?**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:
- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

| Asset allocation | % of Investments | | | |
|---|---|---|---|---|
| | 2026 | 2025 | 2024 | 2023 |
| #1 Aligned with E/S characteristics | 84.00% | 77.31% | N/A[1] | N/A[1] |

| Social | 3.50% | 6.26% | N/A[1] | N/A[1] |

[1]The Fund launched on 23 July 2024, therefore performance data is not present for the reference period ended 30 June 2024 and 30 June 2023.
[2]Comparative information is not disclosed as these Sustainable Investments were disclosed as a mix of Sustainable Investments with an environmental objective that is not aligned with the EU Taxonomy or a social objective or a combination of both, and the exact composition may have fluctuated.

**In which economic sectors were the investments made?**

The following table details the economic sectors that the Fund was exposed to during the reference period.

| Sector | Sub-Sector | % of Investments |
|---|---|---|
| Information Technology | Semiconductors & Semiconductor Equipment | 21.58% |
| Information Technology | Technology Hardware & Equipment | 16.26% |
| Financials | Banks | 10.58% |
| Communication | Media & Entertainment | 6.68% |

| Treasuries | Treasuries | 1.26% |
| Energy | Integrated Oil & Gas | 0.65% |
| Energy | Coal & Consumable Fuels | 0.08% |
| Energy | Oil & Gas Storage & Transportation | 0.04% |
| Energy | Oil & Gas Exploration & Production | 0.03% |
| Energy | Oil & Gas Equipment & Services | 0.01% |

The Fund had exposure to energy sectors during the reference period, however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): oil and gas drilling.

**iShares Asia ex Japan Equity Enhanced Active UCITS ETF**

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

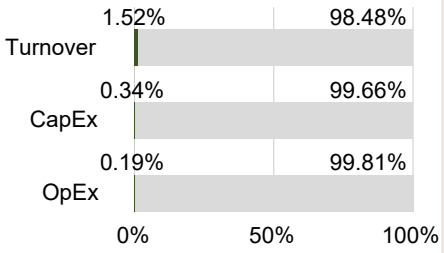
**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 1.22% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

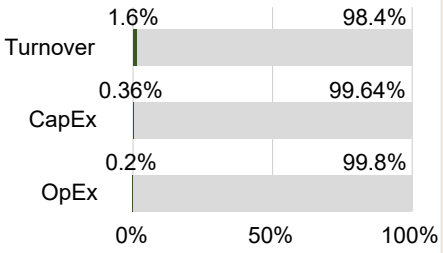
☐ Yes:



☐ In fossil gas ☐ In nuclear energy

☒ No

[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.



The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

Taxonomy-aligned: Fossil gas
Taxonomy-aligned: Nuclear
Taxonomy-aligned:(no gas and nuclear)
Non Taxonomy-aligned

2. Taxonomy-alignment of investments **excluding sovereign bonds***

Taxonomy-aligned: Fossil gas
Taxonomy-aligned: Nuclear
Taxonomy-aligned:(no gas and nuclear)
Non Taxonomy-aligned

This graph represents 94.94% of the total investments.

** For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

| Non Taxonomy-aligned | 98.40% | 99.64% | 99.80% |

For the reference period, 5.06% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| Environmental objectives | % of Investments |
|---|---|
| Climate mitigation | 1.52% |
| Climate adaptation | 0.00% |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

**What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

| | % of Investments |
|---|---|
| Transitional Activities | 0.24% |
| Enabling Activities | 0.73% |

**How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

For the previous reference period, 0.01% of the Fund's investments were aligned with EU Taxonomy.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares Asia ex Japan Equity Enhanced Active UCITS ETF**

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

For the reference period, 44.19% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

**What was the share of socially sustainable investments?**

For the reference period, 3.50% of the Fund's investments were classified as socially sustainable investments.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included cash, money market funds and derivatives and shares or units of CIS and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide, however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

BlackRock assesses good governance practices of the investee companies by combining proprietary insights with data from external ESG research providers. BlackRock uses data from external ESG research providers to identify investee companies which may not have satisfactory governance practices in relation to key performance indicators related to sound management structure, employee relations, remuneration of staff and tax compliance. Investee companies that do not satisfy BlackRock's assessment of good governance are excluded from the investment universe.

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website.

**What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

  This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

  This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria of the benchmark index at each index rebalance. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

| Adverse Sustainability Indicator | Sustainability Indicators |
|---|---|
| GHG emissions | Exclusion of issuers deemed to have associated negative externalities |
| GHG intensity of investee companies | Exclusion of issuers deemed to have associated negative externalities |
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands) |
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of green bonds that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers |
| Energy consumption intensity per high impact climate sector | Positive Enhancing, by at least 5% as compared to the Index |
| Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption) |
| Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption) |
| Exposure to controversial weapons (anti personnel mines, cluster munitions, chemical weapons and biological weapons) | Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons) |

**Asset allocation** describes the share of investments in specific assets.

**What was the proportion of sustainability-related investments?**

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

**What was the asset allocation?**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The Fund did not commit to holding Sustainable Investments and therefore the Fund's exposure to Sustainable Investments has not been assessed, however, during the reference period, a percentage of the Fund's investments were aligned with the EU Taxonomy (see the section "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?" below).

The following table details the asset allocation of the Fund for the current and the previous reference periods.

| Asset allocation | % of Investments | | | |
|---|---|---|---|---|
| | 2026 | 2025 | 2024 | 2023 |
| #1 Aligned with E/S characteristics | 98.00% | N/A[1] | N/A[1] | N/A[1] |
| #2 Other | 2.00% | N/A[1] | N/A[1] | N/A[1] |

[1]The Fund launched on 13 January 2026, therefore performance data is not present for the reference periods ended 30 June 2025, 30 June 2024 and 30 June 2023.

**In which economic sectors were the investments made?**

The following table details the economic sectors that the Fund was exposed to during the reference period.

| Sector | Sub-Sector | % of Investments |
|---|---|---|
| Banking | Banking | 92.11% |
| Insurance | Life Insurance | 5.05% |
| Insurance | Health Insurance | 1.03% |

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Barclays Industry Classification System): integrated.

**iShares AT1 Bond Active UCITS ETF**

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

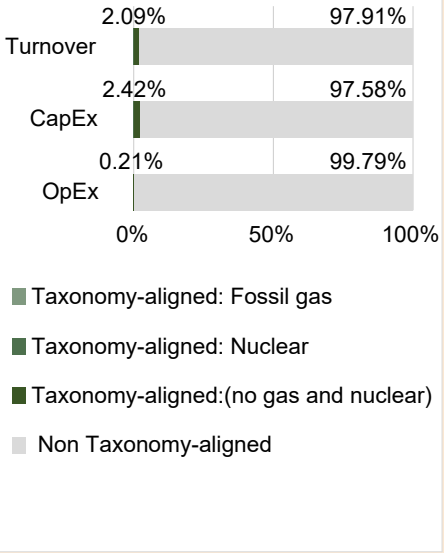
Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

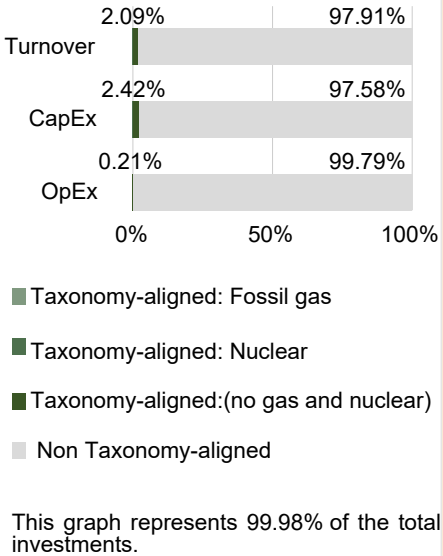
**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

☐ Yes:



☐ In fossil gas ☐ In nuclear energy

☒ No



[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

2. Taxonomy-alignment of investments **excluding sovereign bonds***

This graph represents 99.98% of the total investments.

** For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

For the reference period, 0.02% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| Environmental objectives | % of Investments |
|---|---|
| Climate mitigation | 2.04% |
| Climate adaptation | 0.02% |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

**What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

| | % of Investments |
|---|---|
| Transitional Activities | 0.20% |
| Enabling Activities | 0.18% |

**How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

As this is the first reference period presented for the Fund, no comparatives are presented.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

**What was the share of socially sustainable investments?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included derivatives, cash and near cash instruments and shares or units of CIS, however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Manager agrees with this external assessment, the Investment Manager is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Manager's direct engagement with the issuer. The Investment Manager may also decide to reduce exposure to such issuers.

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

| Adverse Sustainability Indicator | Sustainability Indicators |

**Asset allocation** describes the share of investments in specific assets.

**What was the proportion of sustainability-related investments?**

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

**What was the asset allocation?**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The Fund did not commit to holding Sustainable Investments and therefore the Fund's exposure to Sustainable Investments has not been assessed, however, during the reference period, a percentage of the Fund's investments were aligned with the EU Taxonomy (see the section "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?" below).

The following table details the asset allocation of the Fund for the current and the previous reference periods.

| Asset allocation | % of Investments | | | |

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included cash, money market funds shares or units of collective investments schemes, UCITS-eligible exchange traded commodities and derivatives, however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Manager agrees with this external assessment, the Investment Manager is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Manager's direct engagement with the issuer. The Investment Manager may also decide to reduce exposure to such issuers.

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

| Environmental and social characteristics promoted by the Fund |
|---|
| Exposure to investments qualified as Sustainable Investments |
| Lower carbon emission intensity (emissions per $1 million of sales revenue) relative to MSCI Emerging Markets Index (the "Parent Index") |
| Exclusion of issuers that have any ties to automatic/semi-automatic firearms or ammunition production intended for civilian use |
| Exclusion of issuers that derive more than 5% of their revenue from the production of firearms intended for civilian use |
| Exclusion of issuers that derive more than 5% of their revenue from distribution of firearms intended for civilian use |
| Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption) |
| Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads and nuclear missiles, or essential components for exclusive use in nuclear weapons |
| Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons) |
| Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands) |
| Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation |
| Exclusion of issuers involved in production of tobacco-related products |
| Ensure that more than 90% of the issuers of securities in which the Fund invests (excluding money market funds) shall be ESG rated or have been analysed for ESG purposes |

The Sustainable Investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| EU Taxonomy environmental objectives contributed to by the Fund |
|---|
| Climate mitigation |
| Climate adaptation |

**How did the sustainability indicators perform?**

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

[1]The Fund launched on 23 July 2024, therefore performance data is not present for the reference periods ended 30 June 2024 and 30 June 2023.
[2]The good governance and DNSH methodology was updated in the Fund's prospectus effective from 4 March 2026. The metrics presented in this report have been calculated based on the new methodology notwithstanding that it was not applicable for the full reference period.

**…and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares Emerging Markets Equity Enhanced Active UCITS ETF**

**What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 41.21% of its holdings in Sustainable Investments in pursuit of its investment objective.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments. The Investment Manager assessed the indicators for adverse impacts on sustainability factors for each type of investment as defined by the regulation. Criteria for adverse impacts were assessed using third-party vendor data regarding an investment's business involvement (in specific activities identified as having negative environmental or social impacts) or environmental or social controversies to exclude investments which the Investment Manager has determined are harmful to sustainability indicators subject to limited exceptions, for example, where the data was determined to be inaccurate or not up to date. Where no data was available, or it was substantially incomplete, fundamental analysis was undertaken using reasonable efforts to identify impacts which the Investment Manager determined to be harmful to the sustainability indicators.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

  The indicators for principal adverse impacts ("PAI"s) on sustainability factors for each type of investment were assessed using BlackRock's Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

  The Fund's benchmark index excluded companies which were classified as violating or were at risk of violating commonly accepted international norms and standards, enshrined in the United Nations Global Compact (UNGC) Principles, the Organisation for Economic Co-operation and Development (OECD) Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights (UNGPs) and their underlying conventions. The benchmark index applied the above exclusionary criteria at each index rebalance.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares Emerging Markets Equity Enhanced Active UCITS ETF**

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria of the benchmark index at each index rebalance. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

| Adverse Sustainability Indicator | Sustainability Indicators |
|---|---|
| Greenhouse gas (GHG) emissions | Lower carbon emission intensity relative to the Parent Index |
| Carbon footprint | Lower carbon emission intensity relative to the Parent Index |
| GHG intensity of investee companies | Lower carbon emission intensity relative to the Parent Index |
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation |
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands) |
| Share of non-renewable energy consumption and production | Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation |
| Share of non-renewable energy consumption and production | Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands) |
| Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption) |
| Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons) | Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons). |

**Asset allocation** describes the share of investments in specific assets.

**What was the proportion of sustainability-related investments?**

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

**What was the asset allocation?**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:
- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

| Asset allocation | % of Investments | | | |
|---|---|---|---|---|
| | 2026 | 2025 | 2024 | 2023 |
| #1 Aligned with E/S characteristics | 87.10% | 79.64% | N/A[1] | N/A[1] |

| Social | 11.81% | 5.87% | N/A[1] | N/A[1] |

[1]The Fund launched on 23 July 2024, therefore performance data is not present for the reference period ended 30 June 2024 and 30 June 2023.
[2]Comparative information is not disclosed as these Sustainable Investments were disclosed as a mix of Sustainable Investments with an environmental objective that is not aligned with the EU Taxonomy or a social objective or a combination of both, and the exact composition may have fluctuated.

**In which economic sectors were the investments made?**

The following table details the economic sectors that the Fund was exposed to during the reference period.

| Sector | Sub-Sector | % of Investments |
|---|---|---|
| Information Technology | Semiconductors & Semiconductor Equipment | 20.13% |
| Financials | Banks | 15.14% |
| Information Technology | Technology Hardware & Equipment | 14.84% |
| Materials | Materials | 6.04% |

| Energy | Oil & Gas Storage & Transportation | 0.06% |
| Energy | Oil & Gas Equipment & Services | 0.01% |
| Energy | Oil & Gas Drilling | 0.00% |

The Fund had exposure to energy sectors during the reference period, however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares Emerging Markets Equity Enhanced Active UCITS ETF**

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

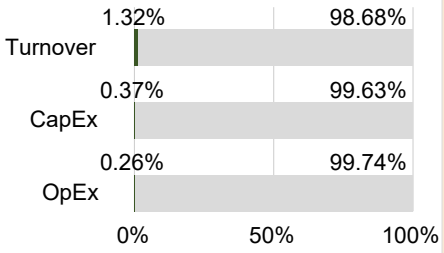
**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

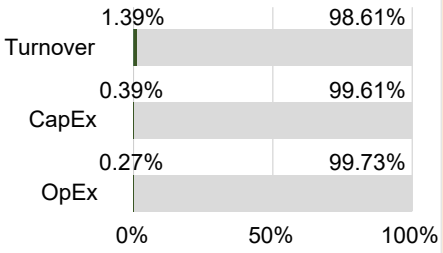
For the reference period, 0.86% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.



**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

| | | | |
|---|---|---|---|
| | Yes: | | |
| | In fossil gas | | In nuclear energy |
| X | No | | |

[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.



The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

Taxonomy-aligned: Fossil gas
Taxonomy-aligned: Nuclear
Taxonomy-aligned:(no gas and nuclear)
Non Taxonomy-aligned

2. Taxonomy-alignment of investments **excluding sovereign bonds***

Taxonomy-aligned: Fossil gas
Taxonomy-aligned: Nuclear
Taxonomy-aligned:(no gas and nuclear)
Non Taxonomy-aligned

This graph represents 95.06% of the total investments.

** For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

| Taxonomy-aligned: No gas and nuclear | 1.39% | 0.39% | 0.27% |
| Non Taxonomy-aligned | 98.61% | 99.61% | 99.73% |

The Fund had exposure to investments that were EU Taxonomy-aligned; however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

For the reference period, 4.94% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| Environmental objectives | % of Investments |
|---|---|
| Climate mitigation | 1.32% |
| Climate adaptation | 0.00% |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

**What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

| | % of Investments |
|---|---|
| Transitional Activities | 0.16% |
| Enabling Activities | 0.87% |

**How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

For the previous reference period, 0.01% of the Fund's investments were aligned with EU Taxonomy.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares Emerging Markets Equity Enhanced Active UCITS ETF**

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

For the reference period, 28.54% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

**What was the share of socially sustainable investments?**

For the reference period, 11.81% of the Fund's investments were classified as socially sustainable investments.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included cash, money market funds and derivatives and shares or units of CIS and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide, however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

BlackRock assesses good governance practices of the investee companies by combining proprietary insights with data from external ESG research providers. BlackRock uses data from external ESG research providers to identify investee companies which may not have satisfactory governance practices in relation to key performance indicators related to sound management structure, employee relations, remuneration of staff and tax compliance. Investee companies that do not satisfy BlackRock's assessment of good governance are excluded from the investment universe.

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website.

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

| Environmental and social characteristics promoted by the Fund |
|---|
| Exposure to investments qualified as Sustainable Investments |
| Lower carbon emission intensity (emissions per $1 million of sales revenue) relative to MSCI Europe Index (the "Index") |
| Exclusion of issuers which produce tobacco products |
| Exclusion of issuers that derive more than 5% of their revenue from the production of firearms intended for civilian use |
| Exclusion of issuers that derive more than 5% of their revenue from distribution of firearms intended for civilian use |
| Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption) |
| Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads and nuclear missiles, or essential components for exclusive use in nuclear weapons |
| Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons) |
| Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands) |
| Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation |
| Exclusion of issuers that have any ties to automatic/semi-automatic firearms or ammunition production intended for civilian use |
| Ensure that more than 90% of the issuers of securities in which the Fund invests (excluding money market funds) shall be ESG rated or have been analysed for ESG purposes |

The Sustainable Investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| EU Taxonomy environmental objectives contributed to by the Fund |
|---|
| Climate mitigation |
| Climate adaptation |

**How did the sustainability indicators perform?**

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

[1]The Fund launched on 24 July 2024, therefore performance data is not present for the reference periods ended 30 June 2024 and 30 June 2023.
[2]The good governance and DNSH methodology was updated in the Fund's prospectus effective from 4 March 2026. The metrics presented in this report have been calculated based on the new methodology notwithstanding that it was not applicable for the full reference period.

**…and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

**What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 66.31% of its holdings in Sustainable Investments in pursuit of its investment objective.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments. The Investment Manager assessed the indicators for adverse impacts on sustainability factors for each type of investment as defined by the regulation. Criteria for adverse impacts were assessed using third-party vendor data regarding an investment's business involvement (in specific activities identified as having negative environmental or social impacts) or environmental or social controversies to exclude investments which the Investment Manager has determined are harmful to sustainability indicators subject to limited exceptions, for example, where the data was determined to be inaccurate or not up to date. Where no data was available, or it was substantially incomplete, fundamental analysis was undertaken using reasonable efforts to identify impacts which the Investment Manager determined to be harmful to the sustainability indicators.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

  The indicators for principal adverse impacts ("PAI"s) on sustainability factors for each type of investment were assessed using BlackRock's Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

  The Fund's benchmark index excluded companies which were classified as violating or were at risk of violating commonly accepted international norms and standards, enshrined in the United Nations Global Compact (UNGC) Principles, the Organisation for Economic Co-operation and Development (OECD) Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights (UNGPs) and their underlying conventions. The benchmark index applied the above exclusionary criteria at each index rebalance.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares Europe Equity Enhanced Active UCITS ETF**

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria of the benchmark index at each index rebalance. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

| Adverse Sustainability Indicator | Sustainability Indicators |
|---|---|
| Greenhouse gas (GHG) emissions | Lower carbon emission intensity relative to the Index |
| Carbon footprint | Lower carbon emission intensity relative to the Index |
| GHG intensity of investee companies | Lower carbon emission intensity relative to the Index |
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands) |
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation. |
| Share of non-renewable energy consumption and production | Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands) |
| Share of non-renewable energy consumption and production | Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation. |
| Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption) |
| Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons) | Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons). |

| ABB Ltd | Industrials | 1.63% | Switzerland |
| Intesa Sanpaolo | Financials | 1.43% | Italy |
| LVMH | Consumer Discretionary | 1.39% | France |
| AXA SA | Financials | 1.33% | France |
| Banco Santander SA | Financials | 1.32% | Spain |

**Asset allocation** describes the share of investments in specific assets.

**What was the proportion of sustainability-related investments?**

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

**What was the asset allocation?**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:
- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

| Asset allocation | % of Investments | | | |
|---|---|---|---|---|
| | 2026 | 2025 | 2024 | 2023 |
| #1 Aligned with E/S characteristics | 99.35% | 99.30% | N/A[1] | N/A[1] |
| #2 Other | 0.65% | 0.70% | N/A[1] | N/A[1] |
| #1A Sustainable | 66.31% | 56.50% | N/A[1] | N/A[1] |
| #1B Other E/S characteristics | 33.05% | 42.80% | N/A[1] | N/A[1] |
| Taxonomy-aligned | 4.62% | 0.03% | N/A[1] | N/A[1] |
| Other environmental | 45.15% | 40.61% | N/A[1] | N/A[1] |
| Social | 16.54% | 15.86% | N/A[1] | N/A[1] |

[1]The Fund launched on 24 July 2024, therefore performance data is not present for the reference periods ended 30 June 2024 and 30 June 2023.
[2]Comparative information is not disclosed as these Sustainable Investments were disclosed as a mix of Sustainable Investments with an environmental objective that is not aligned with the EU Taxonomy or a social objective or a combination of both, and the exact composition may have fluctuated.

**In which economic sectors were the investments made?**

The following table details the economic sectors that the Fund was exposed to during the reference period.

| Sector | Sub-Sector | % of Investments |
|---|---|---|
| Industrials | Capital Goods | 16.48% |
| Financials | Banks | 13.46% |
| Health Care | Pharma, Biotech & Life Sciences | 11.86% |
| Financials | Insurance | 6.66% |
| Materials | Materials | 5.20% |
| Information Technology | Semiconductors & Semiconductor Equipment | 5.10% |
| Utilities | Utilities | 4.78% |
| Consumer Staples | Food, Beverage, Tobacco | 4.13% |
| Energy | Integrated Oil & Gas | 4.12% |
| Financials | Financial Services | 3.73% |
| Consumer Discretionary | Consumer Durables | 3.20% |
| Communication | Telecommunications | 2.59% |
| Information Technology | Software & Services | 2.48% |
| Consumer Staples | Household & Personal Products | 2.08% |
| Industrials | Commercial & Professional Services | 1.89% |
| Health Care | Health Care Equipment & Services | 1.83% |
| Consumer Discretionary | Consumer Discretionary Distribution & Retail | 1.52% |
| Consumer Discretionary | Autos & Components | 1.50% |
| Communication | Media & Entertainment | 1.34% |
| Information Technology | Technology Hardware & Equipment | 1.15% |
| Consumer Staples | Consumer Staples Distribution & Retail | 1.09% |
| Industrials | Transportation | 1.04% |
| Energy | Oil & Gas Exploration & Production | 0.33% |
| Energy | Oil & Gas Refining & Marketing | 0.02% |
| Energy | Oil & Gas Equipment & Services | 0.00% |

The Fund had exposure to energy sectors during the reference period, however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): oil and gas drilling, oil and gas storage & transportaion and coal & consumable fuels.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

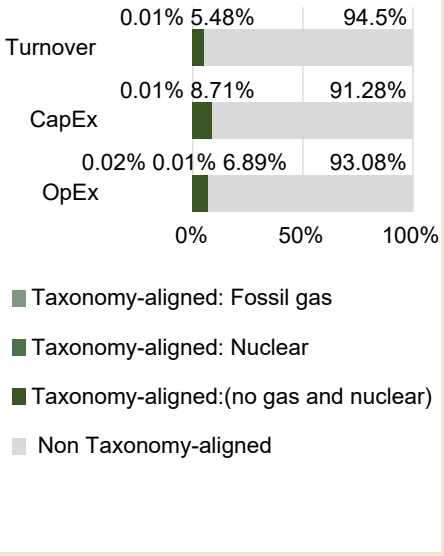
**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 4.62% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

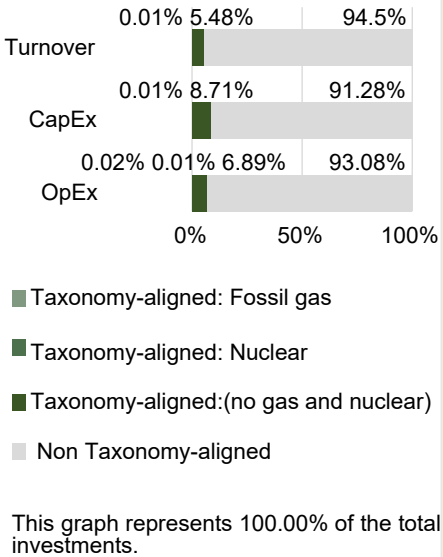
**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

X Yes:



X In fossil gas X In nuclear energy

No



[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

2. Taxonomy-alignment of investments **excluding sovereign bonds***

This graph represents 100.00% of the total investments.

** For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

| Taxonomy-aligned: No gas and nuclear | 5.48% | 8.71% | 6.89% |
| Non Taxonomy-aligned | 94.50% | 91.28% | 93.08% |

The Fund had exposure to investments that were EU Taxonomy-aligned; however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

For the reference period, 0.00% of the Fund's total investments were held in sovereign exposures.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| Environmental objectives | % of Investments |
|---|---|
| Climate mitigation | 5.09% |
| Climate adaptation | 0.09% |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

**What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

| | % of Investments |
|---|---|
| Transitional Activities | 0.15% |
| Enabling Activities | 2.99% |

**How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

For the previous reference period, 0.04% of the Fund's investments were aligned with EU Taxonomy.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares Europe Equity Enhanced Active UCITS ETF**

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

For the reference period, 45.15% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

**What was the share of socially sustainable investments?**

For the reference period, 16.54% of the Fund's investments were classified as socially sustainable investments.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included cash, money market funds and derivatives and shares or units of CIS and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide, however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

BlackRock assesses good governance practices of the investee companies by combining proprietary insights with data from external ESG research providers. BlackRock uses data from external ESG research providers to identify investee companies which may not have satisfactory governance practices in relation to key performance indicators related to sound management structure, employee relations, remuneration of staff and tax compliance. Investee companies that do not satisfy BlackRock's assessment of good governance are excluded from the investment universe.

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

| Environmental and social characteristics promoted by the Fund |
|---|
| Exposure to investments qualified as Sustainable Investments |
| Exclusion of issuers with a zero MSCI controversy score or no MSCI controversy score |
| Exclusion of issuers involved in certain activities deemed to have negative environmental and/or social outcomes such as; alcohol, tobacco, gambling, adult entertainment, genetically modified organisms (GMO, civilian firearms, conventional weapons, controversial weapons, nuclear weapons, thermal coal and fossil fuels |
| Exclusion of issuers with an MSCI ESG rating below BBB |
| Exclusion of sovereign issuers subject to UNSC Trade Sanctions |

The Sustainable Investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| EU Taxonomy environmental objectives contributed to by the Fund |
|---|
| Climate mitigation |
| Climate adaptation |

**How did the sustainability indicators perform?**

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

| Sustainability Indicator | Metric | 2026 | 2025 | 2024 | 2023 |

[1]Effective 30 April 2025, the Fund committed to additional exclusionary screens as a result of ESMA fund naming guidelines. The Benchmark Index applies exclusions consistent with the outcomes of the EU Paris-aligned Benchmark exclusions. As a result, the fossil fuel power generation & oil fuels exclusionary screens are applied by the Fund.

**…and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

**What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 15.97% of its holdings in Sustainable Investments in pursuit of its investment objective.

The Fund's investments qualifying as Sustainable Investments were either in:
(1) issuers involved in activities deemed to contribute to positive environmental and/or social impacts, or
(2) issuers which have committed to one or more active carbon emissions reduction target(s) approved by the Science Based Targets initiative (SBTi).
(3) fixed income securities which have been classified as "green bonds".

To be classified as a green bond, a bond's proceeds must be exclusively and formally applied to fund projects that fall within one or more qualifying environmental categories including alternative energy, energy efficiency, pollution prevention and control, sustainable water, green building and climate adaptation.

The Fund's investments were assessed against their revenue exposure to positive sustainable impacts in line with the United Nations' Sustainable Development Goals, the EU Taxonomy and other sustainability-related frameworks. The positive environmental impacts considered as part of this assessment may have related to themes such as climate change and natural capital and identify issuers that may have derived revenues from activities (or related activities) such as alternative energy, energy efficiency and green building, sustainable water, pollution prevention and control and sustainable agriculture. The positive societal impacts considered as part of this assessment may have related to themes such as basic needs and empowerment and identify issuers that may have derived revenues from activities (or related activities) such as nutrition, major disease treatments, sanitation, affordable real estate, small and medium enterprise (SME) finance, education and connectivity.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares Global Aggregate Bond ESG SRI UCITS ETF**

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. At each index rebalance, all investments qualifying as Sustainable Investments were assessed against certain minimum environmental and social indicators. As part of the assessment, issuers were assessed on their involvement in activities deemed to have highly negative environmental and social impacts. Where an issuer was identified as being involved in activities with highly negative environmental and social impacts, it was not eligible as a Sustainable Investment.

For bonds qualifying as green bonds, the assessment was conducted at an issuance level based on the use of the proceeds of the bonds which must be formally and exclusively applied to promote climate or other environmental sustainability purposes. In addition, certain minimum safeguards and eligibility exclusions were incorporated in the selection of green bonds to avoid exposure to bonds associated with activities deemed to have highly negative environmental and societal impacts.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

  The mandatory indicators for adverse impacts on sustainability factors (as set out in the Regulatory Technical Standards ("RTS") under the SFDR) were considered at each index rebalance through the screening criteria applied by the index provider in the selection of index constituents qualifying as Sustainable Investments.

  Following this assessment, the following investments did not qualify as Sustainable Investments: (1) issuers deemed to be deriving at least 1% of their revenue from thermal coal which is significantly carbon intensive and a major contributor to greenhouse gas emissions (taking into account indicators relating to GHG emissions) (2) issuers with an "orange" MSCI ESG controversy flag that have been deemed to be involved in severe ESG controversies (including in relation to indicators concerning greenhouse gas emissions, biodiversity, water, waste and social and employee matters), and (3) issuers which were deemed to be lagging industry peers based on their high exposure and failure to manage significant ESG risks (taking into account indicators relating to greenhouse gas emissions, biodiversity, water, waste, unadjusted gender pay gap and board gender diversity).

  In respect of green bonds, the indicators for adverse impacts on sustainability factors were taken into account at each index rebalance and were assessed by the index provider at the issuance level based on an assessment of the use of proceeds of the bonds which must be formally and exclusively applied to promote climate or other environmental sustainability purposes. In addition, minimum safeguards and eligibility exclusions were applied by the index provider in the selection of green bonds to ensure the proceeds of which were not applied to activities with highly negative environmental and social outcomes. This includes through the minimum safeguards and eligibility exclusions of bonds with the use of proceeds linked to thermal coal extraction and power generation, significant biodiversity loss and controversial weapons.

  The benchmark index also excluded: (1) issuers with a "red" MSCI ESG controversy flag which included issuers determined to be in violation of international and/or national standards (taking into account indicators concerning violations of United Nations Global Compact principles and OECD Guidelines for Multinational Enterprises) and (2) issuers determined to have any tie to controversial weapons (taking into account indicators concerning ties to controversial weapons).

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

  The Fund's benchmark index has excluded companies with a "red" ESG controversy flag which excludes issuers which have been determined by the index provider to be in violation of the UN Guiding Principles on Business and Human Rights and OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria of the benchmark index at each index rebalance. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

| Adverse Sustainability Indicator | Sustainability Indicators |
|---|---|
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers based on certain environmental screens (listed above) |
| Greenhouse gas (GHG) Emissions | Exclusion of issuers based on certain environmental screens (listed above) |
| Carbon footprint | Exclusion of issuers based on certain environmental screens (listed above) |
| GHG intensity of investee companies | Exclusion of issuers based on certain environmental screens (listed above) |
| Share of non-renewable energy consumption and production | Exclusion of issuers based on certain environmental screens (listed above) |
| Negative impact to Biodiversity sensitive areas | Exclusion of issuers based on an MSCI ESG controversy score |
| Emissions to water | Exclusion of issuers based on an MSCI ESG controversy score |
| Hazardous waste and radioactive waste ratio | Exclusion of issuers based on an MSCI ESG controversy score |
| Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | Exclusion of issuers based on an MSCI ESG controversy score |
| Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons) | Exclusion of issuers determined to have any tie to controversial weapons |
| Investee countries subject to social violations | Exclusion of issuers based on UN Sanctions screens |

**Asset allocation** describes the share of investments in specific assets.

**What was the proportion of sustainability-related investments?**

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

**What was the asset allocation?**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:
- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

| Asset allocation | % of Investments | | | |

**In which economic sectors were the investments made?**

The following table details the economic sectors that the Fund was exposed to during the reference period.

| Sector | Sub-Sector | % of Investments |
|---|---|---|
| Treasuries | Treasuries | 57.01% |
| Securitized | MBS Pass-Through | 9.87% |
| Banking | Banking | 8.16% |
| Government Related | Agency | 3.84% |

| Government Related | Supranational | 2.98% |
| Securitized | Covered | 2.35% |
| Government Related | Sovereign | 1.73% |
| Technology | Technology | 1.62% |
| Electric | Electric | 1.10% |
| Energy | Integrated | 0.00% |

The Fund had exposure to energy sectors during the reference period, however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Barclays Industry Classification System): independent, midstream, oil field services, refining, or metals and mining.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

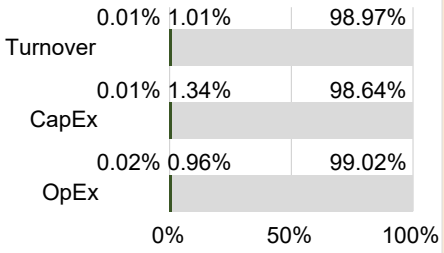
**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 1.05% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

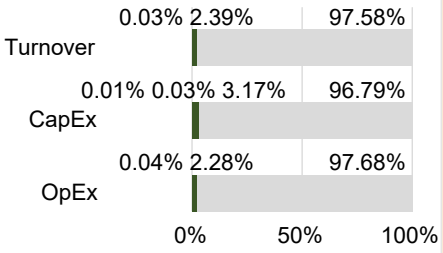
X Yes:



X In fossil gas X In nuclear energy

No

[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.



The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

Taxonomy-aligned: Fossil gas
Taxonomy-aligned: Nuclear
Taxonomy-aligned:(no gas and nuclear)
Non Taxonomy-aligned

2. Taxonomy-alignment of investments **excluding sovereign bonds***

Taxonomy-aligned: Fossil gas
Taxonomy-aligned: Nuclear
Taxonomy-aligned:(no gas and nuclear)

This graph represents 42.35% of the total investments.

** For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

The Fund had exposure to investments that were EU Taxonomy-aligned; however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

For the reference period, 57.65% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| Environmental objectives | % of Investments |
|---|---|
| Climate mitigation | 1.00% |
| Climate adaptation | 0.01% |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

**What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

| | % of Investments |
|---|---|
| Transitional Activities | 0.07% |
| Enabling Activities | 0.42% |

**How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

| | % of Investments | | | |
|---|---|---|---|---|
| | 2026 | 2025 | 2024 | 2023 |

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

For the reference period, 14.20% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

**What was the share of socially sustainable investments?**

For the reference period, 0.72% of the Fund's investments were classified as socially sustainable investments.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included cash, money market funds and derivatives, however such holdings did not exceed 20%. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section To what extent were the environmental and/or social characteristics of the Fund met?).

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

**How did this financial product perform compared to the reference benchmark?**

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

**How does the reference benchmark differ from a broad market index?**

The benchmark index excluded issuers that do not meet its ESG selection criteria from its broad market index, the Bloomberg Global-Aggregate Total Return Index. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at https://www.bloomberg.com/professional/product/indices/bloomberg-fixed-income-indices/#/ucits.

**How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Fund achieved the environmental and social characteristics it promotes through a portfolio that is primarily made up of securities that represent the Fund's benchmark index.

**How did this financial product perform compared with the reference benchmark?**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**How did the sustainability indicators perform?**

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

| Sustainability Indicator | Metric | 2026 | 2025 | 2024 | 2023 |
|---|---|---|---|---|---|
| Improvement in weighted average FTSE Climate Score relative to the Parent Index | % improvement of weighted average FTSE Climate Score relative to the Parent Index | 94.98% | 87.52% | 78.41% | 78.14% |

The Fund was terminated in August 2025; therefore, the figures provided relate only to the July 2025 rebalance.

**…and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

**What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

  This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

  This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares Global Govt Bond Climate UCITS ETF**

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria of the benchmark index at each index rebalance. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

| Adverse Sustainability Indicator | Sustainability Indicators |

**Asset allocation** describes the share of investments in specific assets.

**What was the proportion of sustainability-related investments?**

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

**What was the asset allocation?**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The Fund did not commit to holding Sustainable Investments and therefore the Fund's exposure to Sustainable Investments has not been assessed, however, during the reference period, a percentage of the Fund's investments were aligned with the EU Taxonomy (see the section "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?" below).

The following table details the asset allocation of the Fund for the current and the previous reference periods.

| Asset allocation | % of Investments | | | |

The Fund was terminated in August 2025; therefore, the figures provided relate only to the July 2025 rebalance.

**In which economic sectors were the investments made?**

The following table details the economic sectors representing 1% or more of investments held that the Fund was exposed to during the reference period.

| Sector | Sub-Sector | % of Investments |
|---|---|---|
| Treasuries | Treasuries | 99.53% |

The Fund was terminated in August 2025; therefore, the figures provided relate only to the July 2025 rebalance.

During the reference period, none of the Fund’s investments were held in the following sub-sectors (as defined by the Barclays Industry Classification System): integrated, independent, midstream, oil field services, refining, or metals and mining.

**iShares Global Govt Bond Climate UCITS ETF**

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

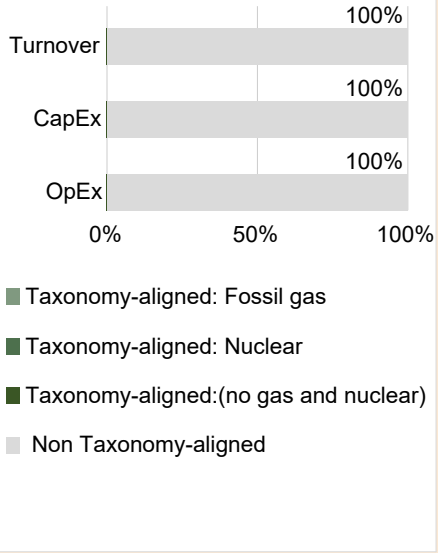
**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

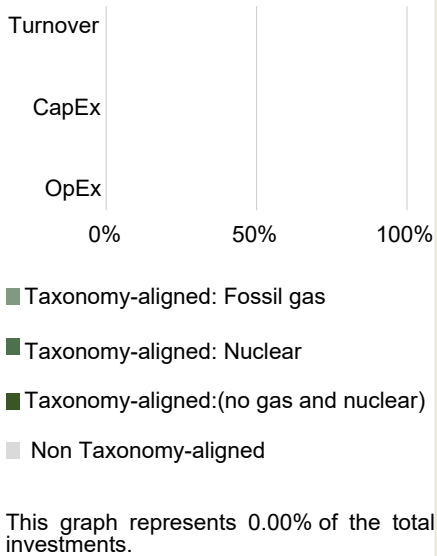
**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.



**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

| | |
|---|---|
| | Yes: |
| | In fossil gas |
| | In nuclear energy |
| X | No |



[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

2. Taxonomy-alignment of investments **excluding sovereign bonds***

This graph represents 0.00% of the total investments.

** For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

**What was the share of socially sustainable investments?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included cash, money market funds and derivatives, however such holdings did not exceed 20%. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section To what extent were the environmental and/or social characteristics of the Fund met?).

**How did this financial product perform compared to the reference benchmark?**

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

**How does the reference benchmark differ from a broad market index?**

The benchmark index excluded issuers that do not meet its ESG selection criteria from its broad market index, the FTSE World Government Bond Index. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at https://www.lseg.com/en/ftse-russell/indices/climate-wgbi#t-methodology.

**How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Fund achieved the environmental and social characteristics it promotes through a portfolio that is primarily made up of securities that represent the Fund's benchmark index.

**How did this financial product perform compared with the reference benchmark?**

| Sustainability Indicator | Metric | Fund | Reference benchmark |
|---|---|---|---|
| Improvement in weighted average FTSE Climate Score relative to the Parent Index | % improvement of weighted average FTSE Climate Score relative to the Parent Index | 94.98% | 94.73% |

**How did this financial product perform compared with the broad market index?**

| Sustainability Indicator | Metric | Fund | Broad market index |
|---|---|---|---|
| Improvement in weighted average FTSE Climate Score relative to the Parent Index | % improvement of weighted average FTSE Climate Score relative to the Parent Index | 94.98% | N/A[1] |

[1]Where a sustainability indicator is a comparison with the Parent Index, performance of that indicator relative to the Broad Market Index is shown as 'N/A'.

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**Asset allocation** describes the share of investments in specific assets.

**What was the proportion of sustainability-related investments?**

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

**What was the asset allocation?**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The Fund did not commit to holding Sustainable Investments and therefore the Fund's exposure to Sustainable Investments has not been assessed, however, during the reference period, a percentage of the Fund's investments were aligned with the EU Taxonomy (see the section "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?" below).

The following table details the asset allocation of the Fund for the current and the previous reference periods.

| Asset allocation | % of Investments | | | |

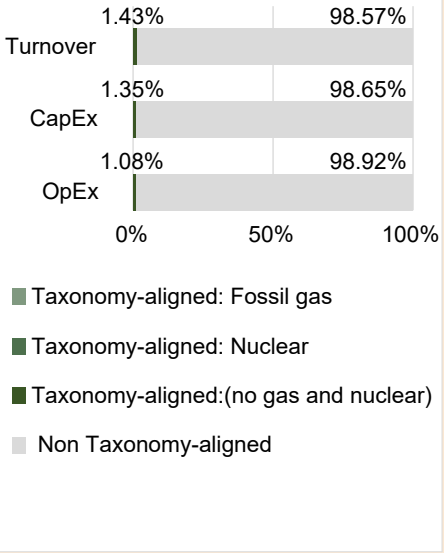
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

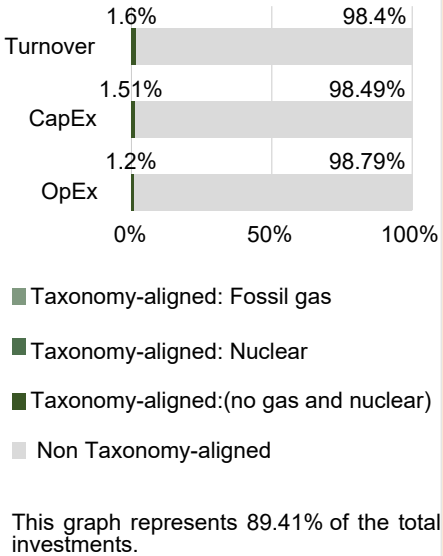
**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

[X] Yes:



[X] In fossil gas [X] In nuclear energy

[ ] No



[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

2. Taxonomy-alignment of investments **excluding sovereign bonds***

This graph represents 89.41% of the total investments.

** For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

The Fund had exposure to investments that were EU Taxonomy-aligned; however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

For the reference period, 10.59% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| Environmental objectives | % of Investments |
|---|---|
| Climate mitigation | 1.33% |
| Climate adaptation | 0.02% |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

**What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

| | % of Investments |

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

| Adverse Sustainability Indicator | Sustainability Indicators |

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

| Environmental and social characteristics promoted by the Fund |
|---|
| Exclusion of companies classified as violating United Nations Global Compact principles |
| Improvement of weighted average ESG score versus the MSCI Pacific ex-Japan Index (the "Parent Index") |
| Exposure to investments qualified as Sustainable Investments |
| Annualised Reduction (7%) in GHG intensity |
| Exclusion of issuers with a zero MSCI controversy score or no MSCI controversy score |
| Exclusion of issuers with an MSCI Environmental controversy score of zero or one |
| Improvement of the market value exposure to high impact climate change sectors relative to the MSCI Pacific ex-Japan Index (the "Parent Index") |
| Reduction (30%) in GHG intensity relative to the MSCI Pacific ex-Japan Index (the "Parent Index") |
| Improvement (10%) in exposure to companies with credible carbon reduction targets compared to the MSCI Pacific ex-Japan Index (the "Parent Index") |
| Improvement in the weighted average green revenue to fossil fuels-based revenue relative to the MSCI Pacific ex-Japan Index (the "Parent Index") |
| Exclusion of issuers involved in certain activities deemed to have negative environmental and/or social outcomes such as: controversial weapons, nuclear weapons, civilian firearms, small arms ammunition, tobacco, thermal coal, unconventional oil and gas |
| Reduction (30%) in portfolio weighted average potential GHG emissions per $million of EVIC |

The Sustainable Investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| EU Taxonomy environmental objectives contributed to by the Fund |
|---|
| Climate mitigation |
| Climate adaptation |

**How did the sustainability indicators perform?**

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

| Sustainability Indicator | Metric | 2026 | 2025 | 2024 | 2023 |

[1]The aggregate portfolio values for each sustainability indicator are calculated as the average of the realised values on or around each applicable index rebalance during the reference period. In some instances, due to market movements between the index review and effective rebalance date/reporting date, the realised values diverged from the targets achieved by the index construction process.
[2]MSCI collects fossil fuel reserves data, where relevant, for companies which have reserves, typically in the oil & gas, coal mining and electric utilities industries and only fossil fuel reserves used for energy are taken into account. For newly added companies where data is not yet available, MSCI uses zero fossil fuel reserves. The size of a company's reserves is normalised by MSCI for size by dividing the potential carbon emissions of the company by its market capitalisation. Whilst the reduction in potential emissions shown in the table above is significantly higher than the target, this is primarily due to a relatively small number of companies for which data is available.
[3]Effective 24 November 2025, the Fund ceased to adhere to this sustainability indicator. The results presented therefore cover the period up to (but not including) 24 November 2025.
[4]Effective 2 June 2026, the Fund committed to applying the additional exclusions. As a result, the civilian firearms & small arms ammunition exclusionary screens are applied by the Fund.

**…and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares MSCI Pacific ex-Japan CTB Enhanced ESG UCITS ETF**

**What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 37.83% of its holdings in Sustainable Investments in pursuit of its investment objective.

The Fund's investments qualifying as Sustainable Investments were either in:
(1) companies involved in activities deemed to contribute to positive environmental and/or social impacts, or
(2) companies which have committed to one or more active carbon emissions reduction target(s) approved by the Science Based Targets initiative (SBTi).

The Fund's investments were assessed against their revenue exposure to positive sustainable impacts in line with the United Nations' Sustainable Development Goals, the EU Taxonomy and other sustainability-related frameworks. The positive environmental impacts considered as part of this assessment may have related to themes such as climate change and natural capital and identify companies that may have derived revenues from activities (or related activities) such as alternative energy, energy efficiency and green building, sustainable water, pollution prevention and control and sustainable agriculture. The positive societal impacts considered as part of this assessment may have related to themes such as basic needs and empowerment and identify companies that may have derived revenues from activities (or related activities) such as nutrition, major disease treatments, sanitation, affordable real estate, small and medium enterprise (SME) finance, education and connectivity.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. At each index rebalance, all investments qualifying as Sustainable Investments were assessed against certain minimum environmental and social indicators. As part of the assessment, companies were assessed on their involvement in activities deemed to have highly negative environmental and social impacts. Where a company was identified as being involved in activities with highly negative environmental and social impacts, it was not eligible as a Sustainable Investment.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

  The mandatory indicators for adverse impacts on sustainability factors (as set out in the Regulatory Technical Standards ("RTS") under the SFDR) were considered at each index rebalance through the assessment of the Fund's investments qualifying as Sustainable Investments.

  As a result of the screening criteria applied by the index provider, the following investments within the benchmark index did not qualify as Sustainable Investments: (1) companies deriving a minimum % revenue from thermal coal (as determined by the index provider) which was significantly carbon intensive and a major contributor to greenhouse gas emissions (taking into account indicators relating to GHG emissions), (2) companies with an "orange" MSCI ESG controversy flag that have been deemed to be involved in severe ESG controversies (including in relation to indicators concerning greenhouse gas emissions, biodiversity, water, waste and social and employee matters), and (3) companies with an MSCI ESG rating of B or below, which were deemed to be lagging industry peers based on their high exposure and failure to manage significant ESG risks (including in relation to indicators concerning greenhouse gas emissions, biodiversity, water, waste, unadjusted gender pay gap and board gender diversity).

  The benchmark index also excluded: (1) companies with a "red" MSCI ESG controversy flag which included companies determined to be in violation of international and/or national standards (taking into account indicators concerning violations of United Nations Global Compact principles and OECD Guidelines for Multinational Enterprises) and (2) companies determined to have any tie to controversial weapons (taking into account indicators concerning ties to controversial weapons).

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

  The Fund's benchmark index has excluded companies with a "red" ESG controversy flag which excludes issuers which have been determined by the index provider to be in violation of the UN Guiding Principles on Business and Human Rights and OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria of the benchmark index at each index rebalance. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

| Adverse Sustainability Indicator | Sustainability Indicators |
|---|---|
| Greenhouse gas (GHG) Emissions | Minimum % reduction of carbon emission intensity and potential carbon emissions targets |
| Carbon footprint | Minimum % reduction of carbon emission intensity and potential carbon emissions targets |
| GHG intensity of investee companies | Minimum % reduction of carbon emission intensity and potential carbon emissions targets |
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers deriving % revenue from thermal coal and unconventional oil and gas |
| Negative impact to Biodiversity sensitive areas | Exclusion of issuers based on an MSCI ESG controversy score |
| Emissions to water | Exclusion of issuers based on an MSCI ESG controversy score |
| Hazardous waste and radioactive waste ratio | Exclusion of issuers based on an MSCI ESG controversy score |
| Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | Exclusion of issuers based on an MSCI ESG controversy score |
| Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | Exclusion of issuers classified as violating United Nations Global Compact principles |
| Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons) | Exclusion of issuers determined to have any tie to controversial weapons |

**Asset allocation** describes the share of investments in specific assets.

**What was the proportion of sustainability-related investments?**

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

**What was the asset allocation?**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:
- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

| Asset allocation | % of Investments | | | |
|---|---|---|---|---|
| | 2026 | 2025 | 2024 | 2023 |
| #1 Aligned with E/S characteristics | 99.09% | 99.14% | 98.93% | 99.03% |
| #2 Other | 0.91% | 0.86% | 1.07% | 0.97% |
| #1A Sustainable | 37.83% | 31.65% | 33.76% | 28.32% |
| #1B Other E/S characteristics | 61.26% | 67.49% | 65.17% | 70.71% |
| Taxonomy-aligned | 0.06% | 0.05% | 0.05% | N/A[1] |
| Other environmental | 32.42% | 25.32% | 19.32% | N/A[1] |
| Social | 5.36% | 6.28% | 14.40% | N/A[1] |

[1]Comparative information is not disclosed as these Sustainable Investments were disclosed as a mix of Sustainable Investments with an environmental objective that is not aligned with the EU Taxonomy or a social objective or a combination of both, and the exact composition may have fluctuated.

**In which economic sectors were the investments made?**

The following table details the economic sectors that the Fund was exposed to during the reference period.

| Sector | Sub-Sector | % of Investments |
|---|---|---|
| Financials | Banks | 29.59% |
| Financials | Financial Services | 9.34% |
| Financials | Insurance | 8.92% |
| Materials | Materials | 8.75% |
| Industrials | Transportation | 8.42% |
| Real Estate | Equity Real Estate Investment Trusts (REITs) | 8.02% |
| Real Estate | Real Estate Management & Development | 5.52% |
| Consumer Discretionary | Consumer Discretionary Distribution & Retail | 4.83% |
| Industrials | Capital Goods | 2.86% |
| Health Care | Health Care Equipment & Services | 2.43% |
| Health Care | Pharma, Biotech & Life Sciences | 2.03% |
| Industrials | Commercial & Professional Services | 1.87% |
| Utilities | Utilities | 1.69% |
| Consumer Discretionary | Consumer Services | 1.58% |
| Communication | Telecommunications | 1.26% |
| Energy | Oil & Gas Exploration & Production | 0.32% |
| Energy | Coal & Consumable Fuels | 0.00% |
| Energy | Oil & Gas Refining & Marketing | 0.00% |

The Fund had exposure to energy sectors during the reference period, however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): integrated oil and gas, oil and gas drilling, oil and gas storage and transportation, oil and gas equipment services.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares MSCI Pacific ex-Japan CTB Enhanced ESG UCITS ETF**

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

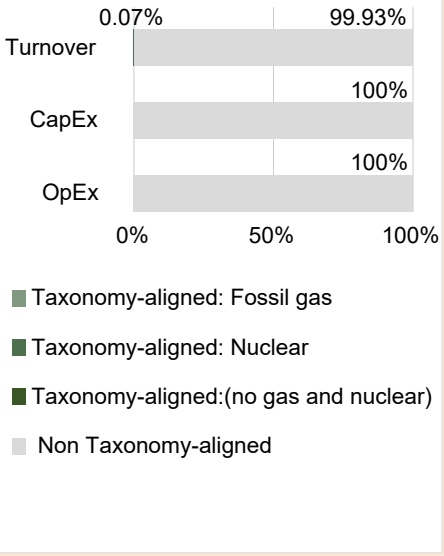
**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 0.06% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

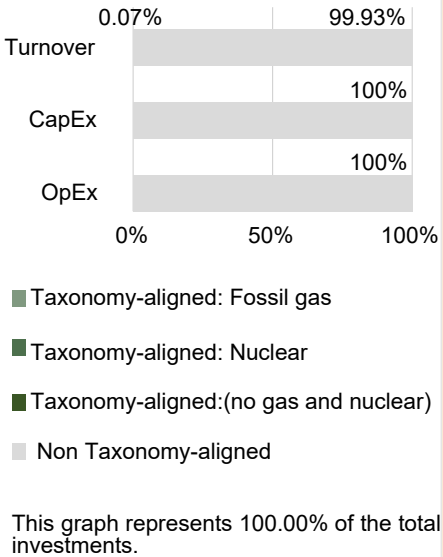
**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

☐ Yes:



☐ In fossil gas ☐ In nuclear energy

☒ No



[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

2. Taxonomy-alignment of investments **excluding sovereign bonds***

This graph represents 100.00% of the total investments.

** For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

For the reference period, 0.00% of the Fund's total investments were held in sovereign exposures.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| Environmental objectives | % of Investments |
|---|---|
| Climate mitigation | 0.07% |
| Climate adaptation | 0.00% |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

**What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

| | % of Investments |
|---|---|
| Transitional Activities | 0.00% |
| Enabling Activities | 0.01% |

**How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

| | % of Investments | | | |
|---|---|---|---|---|

**iShares MSCI Pacific ex-Japan CTB Enhanced ESG UCITS ETF**

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

For the reference period, 32.42% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

**What was the share of socially sustainable investments?**

For the reference period, 5.36% of the Fund's investments were classified as socially sustainable investments.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included cash, money market funds and derivatives, however such holdings did not exceed 20%. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section To what extent were the environmental and/or social characteristics of the Fund met?).

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

**How did this financial product perform compared to the reference benchmark?**

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

**How does the reference benchmark differ from a broad market index?**

The benchmark index excluded issuers that do not meet its ESG selection criteria from its broad market index, the MSCI Pacific ex-Japan Index. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at https://www.msci.com/indexes/ishares.

**How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Fund achieved the environmental and social characteristics it promotes through replicating the constituents of the Fund's benchmark index.

**How did this financial product perform compared with the reference benchmark?**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

| Environmental and social characteristics promoted by the Fund |
|---|
| Exclusion of issuers with a zero MSCI controversy score |
| Exclusion of issuers with an MSCI Environmental controversy score of zero or one |
| Improvement of the market value exposure to high impact climate change sectors relative to the MSCI World Index (the "Parent Index") |
| The reduction (7%) of the weighted average GHG intensity per year in line with the minimum PAB standards |
| Exposure to investments qualified as Sustainable Investments |
| Exclusion of issuers involved in certain activities deemed to have negative environmental and/or social outcomes such as: controversial weapons, tobacco, thermal coal mining, oil fuels, gaseous fuels, power generation (relating to thermal coal-based power generation, liquid fuel-based power generation and natural gas based power generation) |
| Improvement in weighted average green revenue relative to the MSCI World Index (the "Parent Index") |
| Improvement (20%) in exposure to companies with credible carbon reduction targets - higher allocation of companies that set corporate targets relating to climate change, publish their emissions and also have reduced their GHG intensity by 7% over the last 3 years relative to the MSCI World Index (the "Parent Index") |
| Improvement of weighted average Low Carbon Transition score relative to the MSCI World Index (the "Parent Index") |
| Improvement in the weighted average green revenue to fossil fuels-based revenue relativeto the MSCI World Index (the "Parent Index") |
| Reduction (50%) in GHG intensity relativeto the MSCI World Index (the "Parent Index") |
| Reduction (50%) in portfolio weighted average potential GHG emissions per $million of EVIC |

The Sustainable Investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| EU Taxonomy environmental objectives contributed to by the Fund |
|---|
| Climate mitigation |
| Climate adaptation |

**How did the sustainability indicators perform?**

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

[1]The 2023 iShares III plc periodic report omitted this indicator however BlackRock has verified that the Fund achieved this sustainability commitment across both reporting periods.
[2]The aggregate portfolio values for each sustainability indicator are calculated as the average of the realised values on or around each applicable index rebalance during the reference period. In some instances, due to market movements between the index review and effective rebalance date/reporting date, the realised values diverged from the targets achieved by the index construction process.
[3]MSCI collects fossil fuel reserves data, where relevant, for companies which have reserves, typically in the oil & gas, coal mining and electric utilities industries and only fossil fuel reserves used for energy are taken into account. For newly added companies where data is not yet available, MSCI uses zero fossil fuel reserves. The size of a company's reserves is normalised by MSCI for size by dividing the potential carbon emissions of the company by its market capitalisation. Whilst the reduction in potential emissions shown in the table above is significantly higher than the target, this is primarily due to a relatively small number of companies for which data is available.
[4]Effective 28 May 2026, the Fund ceased to adhere to this sustainability indicator. The results presented therefore cover the period up to (but not including) 28 May 2026.
[5]Effective 2 June 2026, the target for this sustainability indicator has been updated in line with the Fund's prospectus.
[6]Effective 2 June 2026, the Fund committed to applying the additional exclusions. As a result, the oil fuels & gaseous fuels exclusionary screens are applied by the Fund.

**…and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

**SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)**

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares MSCI World Paris-Aligned Climate UCITS ETF**

**What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 53.36% of its holdings in Sustainable Investments in pursuit of its investment objective.

The Fund's investments qualifying as Sustainable Investments were either in:
(1) companies involved in activities deemed to contribute to positive environmental and/or social impacts, or
(2) companies which have committed to one or more active carbon emissions reduction target(s) approved by the Science Based Targets initiative (SBTi).

The Fund's investments were assessed against their revenue exposure to positive sustainable impacts in line with the United Nations' Sustainable Development Goals, the EU Taxonomy and other sustainability-related frameworks. The positive environmental impacts considered as part of this assessment may have related to themes such as climate change and natural capital and identify companies that may have derived revenues from activities (or related activities) such as alternative energy, energy efficiency and green building, sustainable water, pollution prevention and control and sustainable agriculture. The positive societal impacts considered as part of this assessment may have related to themes such as basic needs and empowerment and identify companies that may have derived revenues from activities (or related activities) such as nutrition, major disease treatments, sanitation, affordable real estate, small and medium enterprise (SME) finance, education and connectivity.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. At each index rebalance, all investments qualifying as Sustainable Investments were assessed against certain minimum environmental and social indicators. As part of the assessment, companies were assessed on their involvement in activities deemed to have highly negative environmental and social impacts. Where a company was identified as being involved in activities with highly negative environmental and social impacts, it was not eligible as a Sustainable Investment.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

  The mandatory indicators for adverse impacts on sustainability factors (as set out in the Regulatory Technical Standards ("RTS") under the SFDR) were considered at each index rebalance through the screening criteria applied by the index provider in the selection of index constituents qualifying as Sustainable Investments.

  As a result of the screening criteria applied by the index provider, the following investments within the benchmark index did not qualify as Sustainable Investments: (1) companies deriving a minimum % revenue from thermal coal (as determined by the index provider) which was significantly carbon intensive and a major contributor to greenhouse gas emissions (taking into account indicators relating to GHG emissions), (2) companies with an "orange" MSCI ESG controversy flag that have been deemed to be involved in severe ESG controversies (including in relation to indicators concerning greenhouse gas emissions, biodiversity, water, waste and social and employee matters), and (3) companies with an MSCI ESG rating of B or below, which were deemed to be lagging industry peers based on their high exposure and failure to manage significant ESG risks (including in relation to indicators concerning greenhouse gas emissions, biodiversity, water, waste, unadjusted gender pay gap and board gender diversity).

  The benchmark index also excluded: (1) companies with a "red" MSCI ESG controversy flag which included companies determined to be in violation of international and/or national standards (taking into account indicators concerning violations of United Nations Global Compact principles and OECD Guidelines for Multinational Enterprises) and (2) companies determined to have any tie to controversial weapons (taking into account indicators concerning ties to controversial weapons).

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

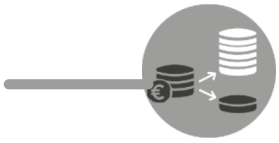
  The Fund's benchmark index has excluded companies with a "red" ESG controversy flag which excludes issuers which have been determined by the index provider to be in violation of the UN Guiding Principles on Business and Human Rights and OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**



**iShares MSCI World Paris-Aligned Climate UCITS ETF**

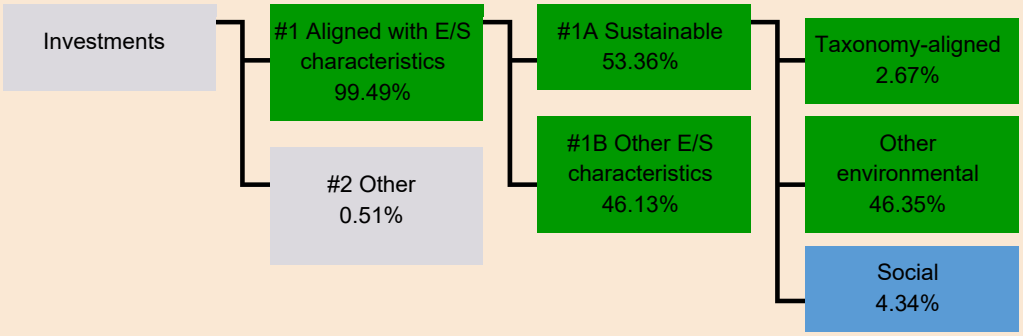
**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria of the benchmark index at each index rebalance. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

| Adverse Sustainability Indicator | Sustainability Indicators |
|---|---|
| Greenhouse gas (GHG) Emissions | Minimum % reduction of GHG emissions and carbon intensity |
| Carbon footprint | Minimum % reduction of GHG emissions and carbon intensity |
| GHG intensity of investee companies | Minimum % reduction of GHG emissions and carbon intensity |
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers based on certain environmental screens (listed above) |
| Negative impact to Biodiversity sensitive areas | Exclusion of issuers based on an MSCI ESG controversy score |
| Emissions to water | Exclusion of issuers based on an MSCI ESG controversy score |
| Hazardous waste and radioactive waste ratio | Exclusion of issuers based on an MSCI ESG controversy score |
| Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | Exclusion of issuers based on an MSCI ESG controversy score |
| Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons) | Exclusion of issuers determined to have any tie to controversial weapons |

**What were the top investments of this financial product?**

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 1 July 2025 to 30 June 2026.



| Largest investments | Sector | % Assets | Country |

**Asset allocation** describes the share of investments in specific assets.

**What was the proportion of sustainability-related investments?**

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

**What was the asset allocation?**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:
- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

| Asset allocation | % of Investments | | | |
|---|---|---|---|---|
| | 2026 | 2025 | 2024 | 2023 |
| #1 Aligned with E/S characteristics | 99.49% | 99.72% | 99.45% | 99.64% |

| #1B Other E/S characteristics | 46.13% | 50.15% | 53.90% | 59.17% |
| Taxonomy-aligned | 2.67% | 3.48% | 3.14% | N/A[1] |
| Other environmental | 46.35% | 41.28% | 35.65% | N/A[1] |
| Social | 4.34% | 4.81% | 6.76% | N/A[1] |

[1]Comparative information is not disclosed as these Sustainable Investments were disclosed as a mix of Sustainable Investments with an environmental objective that is not aligned with the EU Taxonomy or a social objective or a combination of both, and the exact composition may have fluctuated.

**In which economic sectors were the investments made?**

The following table details the economic sectors that the Fund was exposed to during the reference period.

| Sector | Sub-Sector | % of Investments |
|---|---|---|
| Information Technology | Semiconductors & Semiconductor Equipment | 14.55% |
| Information Technology | Software & Services | 9.17% |
| Information Technology | Technology Hardware & Equipment | 8.41% |

| Industrials | Capital Goods | 7.33% |
| Financials | Financial Services | 6.13% |
| Financials | Banks | 5.58% |
| Financials | Insurance | 5.17% |
| Consumer Discretionary | Consumer Discretionary Distribution & Retail | 4.98% |
| Real Estate | Equity Real Estate Investment Trusts (REITs) | 4.44% |
| Materials | Materials | 3.24% |
| Utilities | Utilities | 2.74% |
| Consumer Discretionary | Autos & Components | 2.43% |
| Health Care | Health Care Equipment & Services | 2.10% |
| Industrials | Transportation | 1.81% |
| Communication | Telecommunications | 1.24% |
| Industrials | Commercial & Professional Services | 1.16% |
| Consumer Staples | Food, Beverage, Tobacco | 1.05% |
| Energy | Coal & Consumable Fuels | 0.17% |
| Energy | Integrated Oil & Gas | 0.01% |
| Energy | Oil & Gas Exploration & Production | 0.00% |
| Energy | Oil & Gas Storage & Transportation | 0.00% |
| Energy | Oil & Gas Refining & Marketing | 0.00% |
| Energy | Oil & Gas Equipment & Services | 0.00% |
| Energy | Oil & Gas Drilling | 0.00% |

The Fund had exposure to energy sectors during the reference period, however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

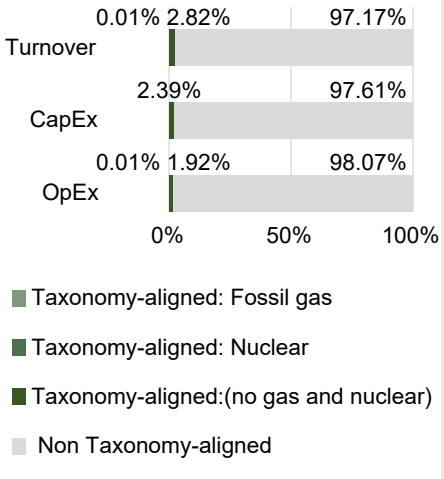
**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 2.67% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

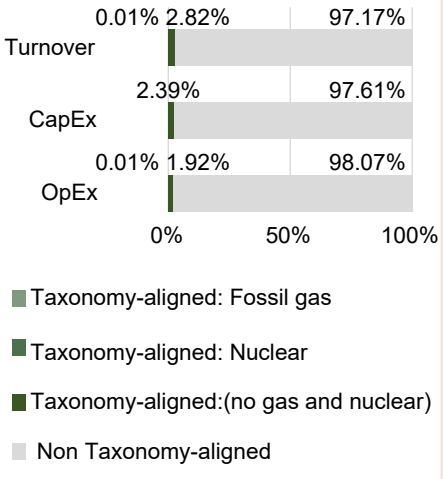
**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

X Yes:



X In fossil gas X In nuclear energy

No



[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

2. Taxonomy-alignment of investments **excluding sovereign bonds***

This graph represents 99.99% of the total investments.

** For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

The Fund had exposure to investments that were EU Taxonomy-aligned; however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

For the reference period, 0.01% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| Environmental objectives | % of Investments |
|---|---|
| Climate mitigation | 2.76% |
| Climate adaptation | 0.03% |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

**What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

| | % of Investments |
|---|---|
| Transitional Activities | 0.02% |
| Enabling Activities | 1.59% |

**How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

**iShares MSCI World Paris-Aligned Climate UCITS ETF**

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

For the reference period, 46.35% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

**What was the share of socially sustainable investments?**

For the reference period, 4.34% of the Fund's investments were classified as socially sustainable investments.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included cash, money market funds and derivatives, however such holdings did not exceed 20%. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section To what extent were the environmental and/or social characteristics of the Fund met?).

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

**How did this financial product perform compared to the reference benchmark?**

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

**How does the reference benchmark differ from a broad market index?**

The benchmark index excluded issuers that do not meet its ESG selection criteria from its broad market index, the EU Paris-aligned Benchmark. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at https://www.msci.com/constituents..

**How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Fund achieved the environmental and social characteristics it promotes through replicating the constituents of the Fund's benchmark index.

**How did this financial product perform compared with the reference benchmark?**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

| Environmental and social characteristics promoted by the Fund |
|---|
| Improvement of portfolio weighted-average S&P DJI ESG Score |
| Exclusion of issuers involved in certain activities deemed to have negative environmental and/or social outcomes such as; thermal coal, tobacco, controversial weapons, small arms, military contracting and oil sand |
| Exposure to investments qualified as Sustainable Investments |
| Exclusion of companies classified as violating United Nations Global Compact principles |

The Sustainable Investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| EU Taxonomy environmental objectives contributed to by the Fund |

[1]Effective 31 March 2025, the Fund committed to holding Sustainable Investments, therefore performance data is not present for the reference periods ended 30 June 2024 and 30 June 2023.
[2]Due to the unavailability of Fund-level data, the figures shown use the performance of the Benchmark Index over the reference period rebalance as a proxy for the performance of the Fund. BlackRock continues to engage with the third-party data provider to ensure the relevant ESG data becomes available.
[3]Comparative information has been restated to align with the current year presentation and basis of calculation.

**…and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

**SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)**

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares S&P 500 Scored and Screened UCITS ETF**

**What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 54.29% of its holdings in Sustainable Investments in pursuit of its investment objective.

The Fund's investments qualifying as Sustainable Investments were either in:
(1) companies involved in activities deemed to contribute to positive environmental and/or social impacts, or
(2) companies which have committed to one or more active carbon emissions reduction target(s) approved by the Science Based Targets initiative (SBTi).

The Fund's investments were assessed against their revenue exposure to positive sustainable impacts in line with the United Nations' Sustainable Development Goals, the EU Taxonomy and other sustainability-related frameworks. The positive environmental impacts considered as part of this assessment may have related to themes such as climate change and natural capital and identify companies that may have derived revenues from activities (or related activities) such as alternative energy, energy efficiency and green building, sustainable water, pollution prevention and control and sustainable agriculture. The positive societal impacts considered as part of this assessment may have related to themes such as basic needs and empowerment and identify companies that may have derived revenues from activities (or related activities) such as nutrition, major disease treatments, sanitation, affordable real estate, small and medium enterprise (SME) finance, education and connectivity.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. At each index rebalance, all investments qualifying as Sustainable Investments were assessed against certain minimum environmental and social indicators. As part of the assessment, companies were assessed on their involvement in activities deemed to have highly negative environmental and social impacts. Where a company was identified as being involved in activities with highly negative environmental and social impacts, it was not eligible as a Sustainable Investment.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

  The mandatory indicators for adverse impacts on sustainability factors (as set out in the Regulatory Technical Standards ("RTS") under the SFDR) were considered at each index rebalance through the assessment of the Fund's investment qualifying as Sustainable Investments.

  Following this assessment, the following investments did not qualify as Sustainable Investments: (1) companies deemed to be deriving at least 1% of their revenue from thermal coal which is significantly carbon intensive and a major contributor to greenhouse gas emissions (taking into account indicators relating to GHG emissions) (2) companies that have been deemed to be involved in severe ESG related controversies (taking into account indicators relating to greenhouse gas emissions, biodiversity, water, waste and social and employee matters), and (3) issuers which were deemed to be lagging industry peers based on their high exposure and failure to manage significant ESG risks (taking into account indicators relating to greenhouse gas emissions, biodiversity, water, waste, unadjusted gender pay gap and board gender diversity).

  The benchmark index also excluded: (1) companies which were classified as violating or are at risk of violating commonly accepted international norms and standards, enshrined in the United Nations Global Compact (UNGC) Principles, the Organisation for Economic Co-operation and Development (OECD) Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights (UNGPs) and their underlying conventions and (2) companies determined to have any tie to controversial weapons (taking into account indicators concerning ties to controversial weapons).

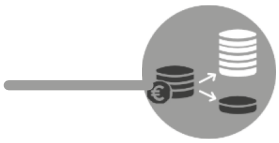
- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

  The Fund's benchmark index excluded companies which were classified as violating or were at risk of violating commonly accepted international norms and standards, enshrined in the United Nations Global Compact (UNGC) Principles, the Organisation for Economic Co-operation and Development (OECD) Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights (UNGPs) and their underlying conventions. The benchmark index applied the above exclusionary criteria at each index rebalance.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*



**iShares S&P 500 Scored and Screened UCITS ETF**

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria of the benchmark index at each index rebalance. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

| Adverse Sustainability Indicator | Sustainability Indicators |
|---|---|
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers based on certain environmental screens (listed above) |
| Negative impact to Biodiversity sensitive areas | Exclusion of issuers classified as violating commonly accepted international norms and standards |
| Emissions to water | Exclusion of issuers classified as violating commonly accepted international norms and standards |
| Hazardous waste and radioactive waste ratio | Exclusion of issuers classified as violating commonly accepted international norms and standards |
| Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | Exclusion of issuers classified as violating commonly accepted international norms and standards |
| Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons) | Exclusion of issuers determined to have any tie to controversial weapons |

**What were the top investments of this financial product?**

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 1 July 2025 to 30 June 2026.

**Asset allocation** describes the share of investments in specific assets.

**What was the proportion of sustainability-related investments?**

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

**What was the asset allocation?**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:
- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

| Asset allocation | % of Investments | | | |
|---|---|---|---|---|
| | 2026 | 2025 | 2024 | 2023 |

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): oil and gas drilling or coal and consumable fuels.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares S&P 500 Scored and Screened UCITS ETF**

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

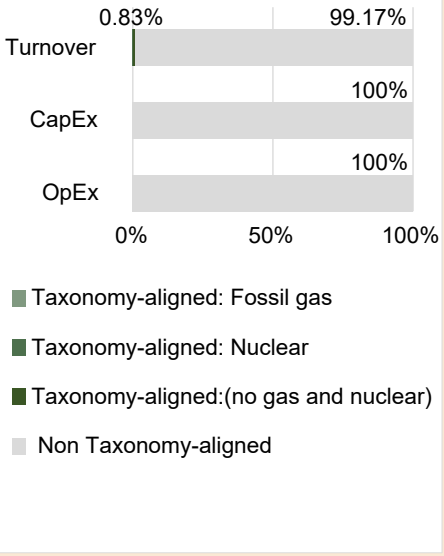
**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 0.79% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

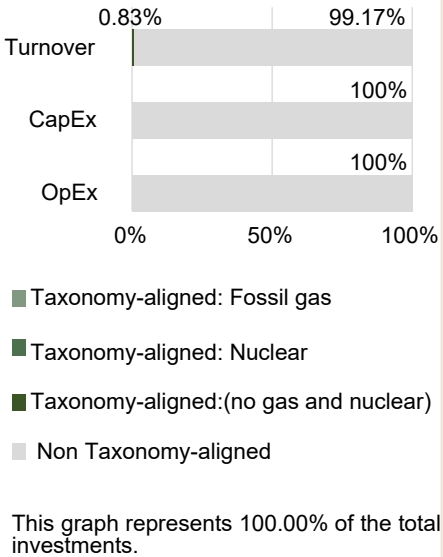
**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

☐ Yes:



☐ In fossil gas ☐ In nuclear energy

☒ No



[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

2. Taxonomy-alignment of investments **excluding sovereign bonds***

This graph represents 100.00% of the total investments.

** For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

For the reference period, 0.00% of the Fund's total investments were held in sovereign exposures.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| Environmental objectives | % of Investments |
|---|---|
| Climate mitigation | 0.83% |
| Climate adaptation | 0.00% |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

**What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

| | % of Investments |
|---|---|
| Transitional Activities | 0.07% |
| Enabling Activities | 0.50% |

**How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

| | % of Investments | | | |
|---|---|---|---|---|
| | 2026 | 2025 | 2024 | 2023 |
| EU Taxonomy Aligned | 0.83% | 0.38% | 0.60% | 0.00% |

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares S&P 500 Scored and Screened UCITS ETF**

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

For the reference period, 49.90% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

**What was the share of socially sustainable investments?**

For the reference period, 3.60% of the Fund's investments were classified as socially sustainable investments.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included cash, money market funds and derivatives, however such holdings did not exceed 20%. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section To what extent were the environmental and/or social characteristics of the Fund met?).

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares S&P 500 Scored and Screened UCITS ETF**

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

**How did this financial product perform compared to the reference benchmark?**

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

**How does the reference benchmark differ from a broad market index?**

The benchmark index excluded issuers that do not meet its ESG selection criteria from its broad market index, the S&P 500. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at https://www.spglobal.com/spdji/en/indices/esg/sp-500-esg-index/#overview.

**How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Fund achieved the environmental and social characteristics it promotes through replicating the constituents of the Fund's benchmark index.

**How did this financial product perform compared with the reference benchmark?**

| Sustainability Indicator | Metric | Fund | Reference benchmark |
|---|---|---|---|
| Improvement of portfolio weighted-average S&P DJI ESG Score | Portfolio weighted average S&P DJI ESG Score, relative to the Parent Index | N/A[1] | 13.62% |
| Exclusion of issuers involved in certain activities deemed to have negative environmental and/or social outcomes (listed above) | % market value exposure to issuers involved in certain activities deemed to have negative environmental and/or social outcomes (listed above) | 0.00% | 0.00% |
| Exposure to investments qualified as Sustainable Investments | % market value exposure to Sustainable Investments | 54.29% | 54.31% |

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

| Environmental and social characteristics promoted by the Fund |
|---|
| Exposure to investments qualified as Sustainable Investments |
| Reduction in carbon emission intensity (emissions per $1 million of sales revenue) relative to the S&P 500 Index (the "Index") |
| Exclusion of issuers which produce tobacco products |
| Exclusion of issuers that derive more than 5% of their revenue from the production of firearms intended for civilian use |
| Exclusion of issuers that derive more than 5% of their revenue from distribution of firearms intended for civilian use |
| Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption) |
| Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads and nuclear missiles, or essential components for exclusive use in nuclear weapons |
| Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, nondetectable fragments and/or incendiary weapons) |
| Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands) |
| Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation |
| Exclusion of issuers that have any ties to automatic/semi-automatic firearms or ammunition production intended for civilian use |
| Ensure that more than 90% of the issuers of securities in which the Fund invests (excluding money market funds) shall be ESG rated or have been analysed for ESG purposes |

The Sustainable Investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| EU Taxonomy environmental objectives contributed to by the Fund |
|---|
| Climate mitigation |
| Climate adaptation |

[1]The Fund launched on 20 March 2024, therefore performance data is not present for the 2023 reference period.
[2]The indicator was added to the investment strategy in July 2023 and therefore was not reported as part of the previous reference period.
[3]The good governance and DNSH methodology was updated in the Fund's prospectus effective from 4 March 2026. The metrics presented in this report have been calculated based on the new methodology notwithstanding that it was not applicable for the full reference period.

**…and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares U.S. Equity High Income Active UCITS ETF**

**What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 64.33% of its holdings in Sustainable Investments in pursuit of its investment objective.

***Environmental and social objectives***

The Fund invested in Sustainable Investments which contributed to a range of environmental and/or social objectives which may include but are not limited to, alternative and renewable energy, energy efficiency, pollution prevention or mitigation, reuse and recycling, health, nutrition, sanitation and education and the UN Sustainable Development Goals and other sustainability-related frameworks ("Environmental and Social Objectives").

***Economic activity assessment***

An investment was assessed as contributing to an environmental and/or social objective where:
(i) a minimum proportion of the issuer's business activity contributed to an environmental and/or social objective; or
(ii) the issuer's business practices contributed to an environmental and/or social objective.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments. The Investment Manager assessed the indicators for adverse impacts on sustainability factors for each type of investment as defined by the regulation. Criteria for adverse impacts were assessed using third-party vendor data regarding an investment's business involvement (in specific activities identified as having negative environmental or social impacts) or environmental or social controversies to exclude investments which the Investment Manager has determined are harmful to sustainability indicators subject to limited exceptions, for example, where the data was determined to be inaccurate or not up to date. Where no data was available, or it was substantially incomplete, fundamental analysis was undertaken using reasonable efforts to identify impacts which the Investment Manager determined to be harmful to the sustainability indicators.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

  The indicators for principal adverse impacts ("PAI"s) on sustainability factors for each type of investment were assessed using BlackRock's Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

  Sustainable Investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers or companies deemed to have violated these conventions are not considered as Sustainable Investments.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares U.S. Equity High Income Active UCITS ETF**

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

| Adverse Sustainability Indicator | Sustainability Indicators |
|---|---|
| Greenhouse gas (GHG) emissions | Reduction in carbon emission intensity relative to the reference benchmark |
| GHG intensity of investee companies | Reduction in carbon emission intensity relative to the reference benchmark |
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands) |
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation. |
| Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption) |
| Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons) | Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons). |

**What were the top investments of this financial product?**

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 1 July 2025 to 30 June 2026.

**Asset allocation** describes the share of investments in specific assets.

**What was the proportion of sustainability-related investments?**

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

**What was the asset allocation?**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:
- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

| Asset allocation | % of Investments | | | |
|---|---|---|---|---|
| | 2026 | 2025 | 2024 | 2023 |
| #1 Aligned with E/S characteristics | 96.81% | 96.91% | 97.26% | N/A[1] |

[1]The Fund launched on 20 March 2024, therefore performance data is not present for the 2023 reference period.

**In which economic sectors were the investments made?**

The following table details the economic sectors that the Fund was exposed to during the reference period.

| Sector | Sub-Sector | % of Investments |
|---|---|---|
| Information Technology | Semiconductors & Semiconductor Equipment | 16.58% |
| Information Technology | Software & Services | 12.00% |
| Information Technology | Technology Hardware & Equipment | 10.33% |

| Financials | Insurance | 2.07% |
| Materials | Materials | 1.57% |
| Real Estate | Equity Real Estate Investment Trusts (REITs) | 1.42% |
| Industrials | Transportation | 1.41% |
| Consumer Staples | Household & Personal Products | 1.15% |
| Energy | Oil & Gas Exploration & Production | 0.72% |
| Energy | Oil & Gas Storage & Transportation | 0.48% |
| Energy | Oil & Gas Refining & Marketing | 0.36% |
| Energy | Oil & Gas Equipment & Services | 0.04% |

The Fund had exposure to energy sectors during the reference period, however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): oil and gas drilling or coal and consumable fuels.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

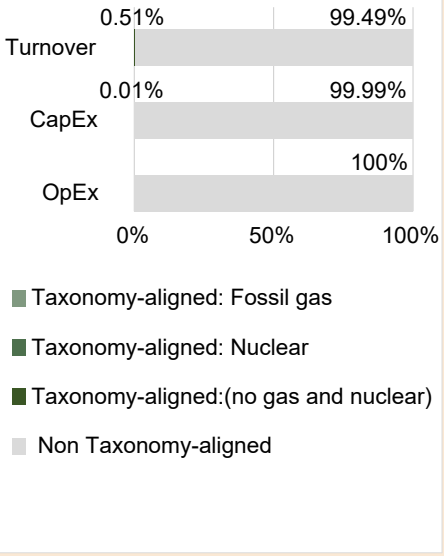
**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 0.45% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

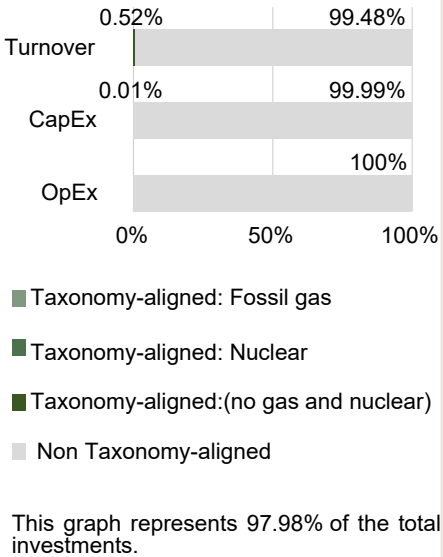
**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

☐ Yes:



☐ In fossil gas ☐ In nuclear energy

☒ No



[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

2. Taxonomy-alignment of investments **excluding sovereign bonds***

This graph represents 97.98% of the total investments.

** For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

| Non Taxonomy-aligned | 99.48% | 99.99% | 100.00% |

For the reference period, 2.02% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| Environmental objectives | % of Investments |
|---|---|
| Climate mitigation | 0.51% |
| Climate adaptation | 0.00% |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

**What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

| | % of Investments |
|---|---|
| Transitional Activities | 0.03% |
| Enabling Activities | 0.35% |

**How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

| | % of Investments | | | |
|---|---|---|---|---|
| | 2026 | 2025 | 2024 | 2023 |
| EU Taxonomy Aligned | 0.51% | 1.52% | 0.40% | 0.00% |

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares U.S. Equity High Income Active UCITS ETF**

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

For the reference period, 54.25% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

**What was the share of socially sustainable investments?**

For the reference period, 9.64% of the Fund's investments were classified as socially sustainable investments.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included cash, money market funds and derivatives and shares or units of CIS and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide, however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

BlackRock assesses good governance practices of the investee companies by combining proprietary insights with data from external ESG research providers. BlackRock uses data from external ESG research providers to identify investee companies which may not have satisfactory governance practices in relation to key performance indicators related to sound management structure, employee relations, remuneration of staff and tax compliance. Investee companies that do not satisfy BlackRock's assessment of good governance are excluded from the investment universe.

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website.

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

| Environmental and social characteristics promoted by the Fund |
|---|
| Exposure to investments qualified as Sustainable Investments |
| Lower carbon emission intensity (emissions per $1 million of sales revenue) relative to the MSCI USA Index (the "Index") |
| Exclusion of issuers which derive more than a certain portion of their revenue from the distribution, retailing and/or licensing of tobacco and/or tobacco-related products |
| Exclusion of issuers that derive more than 5% of their revenue from the production of firearms intended for civilian use |
| Exclusion of issuers that derive more than 5% of their revenue from distribution of firearms intended for civilian use |
| Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption) |
| Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads and nuclear missiles, or essential components for exclusive use in nuclear weapons |
| Exclusion of issuers which are engaged in, or are otherwise exposed to the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons) |
| Exclusion of issuers deriving more than 5% of their revenue from the production of tar sands (also known as oil sands) |
| Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation |
| Exclusion of issuers involved in production of tobacco-related products |
| Ensure that more than 90% of the issuers of securities in which the Fund invests (excluding money market funds) shall be ESG rated or have been analysed for ESG purposes |
| Exclusion of issuers that have any ties to automatic/semi-automatic firearms or ammunition production intended for civilian use |

The Sustainable Investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

[1]The Fund launched on 24 July 2024, therefore performance data is not present for the 2023 reference period.
[2]The good governance and DNSH methodology was updated in the Fund's prospectus effective from 4 March 2026. The metrics presented in this report have been calculated based on the new methodology notwithstanding that it was not applicable for the full reference period.

**…and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares US Equity Enhanced Active UCITS ETF**

**What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 71.94% of its holdings in Sustainable Investments in pursuit of its investment objective.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments. The Investment Manager assessed the indicators for adverse impacts on sustainability factors for each type of investment as defined by the regulation. Criteria for adverse impacts were assessed using third-party vendor data regarding an investment's business involvement (in specific activities identified as having negative environmental or social impacts) or environmental or social controversies to exclude investments which the Investment Manager has determined are harmful to sustainability indicators subject to limited exceptions, for example, where the data was determined to be inaccurate or not up to date. Where no data was available, or it was substantially incomplete, fundamental analysis was undertaken using reasonable efforts to identify impacts which the Investment Manager determined to be harmful to the sustainability indicators.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

  The indicators for principal adverse impacts ("PAI"s) on sustainability factors for each type of investment were assessed using BlackRock's Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

  The Fund's benchmark index excluded companies which were classified as violating or were at risk of violating commonly accepted international norms and standards, enshrined in the United Nations Global Compact (UNGC) Principles, the Organisation for Economic Co-operation and Development (OECD) Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights (UNGPs) and their underlying conventions. The benchmark index applied the above exclusionary criteria at each index rebalance.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria of the benchmark index at each index rebalance. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

| Adverse Sustainability Indicator | Sustainability Indicators |
|---|---|
| Greenhouse gas (GHG) emissions | Lower carbon emission intensity relative to the Index |
| Carbon footprint | Lower carbon emission intensity relative to the Index |
| GHG intensity of investee companies | Lower carbon emission intensity relative to the Index |
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers deriving more than 5% of their revenue from the production of tar sands (also known as oil sands) |
| Exposure to companies active in the fossil fuel sector | Exclusion of Issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation |
| Share of non-renewable energy consumption and production | Exclusion of issuers deriving more than 5% of their revenue from the production of tar sands (also known as oil sands) |
| Share of non-renewable energy consumption and production | Exclusion of Issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation |
| Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption) |
| Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons) | Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons). |

**Asset allocation** describes the share of investments in specific assets.

**What was the proportion of sustainability-related investments?**

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

**What was the asset allocation?**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:
- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

| Asset allocation | % of Investments | | | |
|---|---|---|---|---|
| | 2026 | 2025 | 2024 | 2023 |
| #1 Aligned with E/S characteristics | 99.38% | 98.84% | N/A[1] | N/A[1] |

[1]The Fund launched on 24 July 2024, therefore performance data is not present for the 2023 reference period.

**In which economic sectors were the investments made?**

The following table details the economic sectors that the Fund was exposed to during the reference period.

| Sector | Sub-Sector | % of Investments |
|---|---|---|
| Information Technology | Semiconductors & Semiconductor Equipment | 15.85% |
| Information Technology | Software & Services | 9.96% |
| Information Technology | Technology Hardware & Equipment | 9.95% |
| Communication | Media & Entertainment | 9.40% |
| Financials | Financial Services | 7.15% |
| Industrials | Capital Goods | 6.77% |
| Consumer Discretionary | Consumer Discretionary Distribution & Retail | 6.10% |
| Health Care | Pharma, Biotech & Life Sciences | 5.83% |
| Health Care | Health Care Equipment & Services | 3.60% |
| Financials | Banks | 3.26% |
| Consumer Discretionary | Autos & Components | 2.39% |
| Consumer Staples | Consumer Staples Distribution & Retail | 2.23% |
| Energy | Integrated Oil & Gas | 2.07% |
| Utilities | Utilities | 2.04% |
| Consumer Discretionary | Consumer Services | 1.77% |
| Financials | Insurance | 1.69% |
| Materials | Materials | 1.58% |
| Real Estate | Equity Real Estate Investment Trusts (REITs) | 1.34% |
| Consumer Staples | Food, Beverage, Tobacco | 1.31% |
| Communication | Telecommunications | 1.28% |
| Industrials | Transportation | 1.16% |
| Industrials | Commercial & Professional Services | 1.07% |
| Energy | Oil & Gas Exploration & Production | 0.35% |
| Energy | Oil & Gas Storage & Transportation | 0.22% |
| Energy | Oil & Gas Equipment & Services | 0.22% |
| Energy | Oil & Gas Refining & Marketing | 0.21% |

The Fund had exposure to energy sectors during the reference period, however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): oil and gas drilling or coal and consumable fuels.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

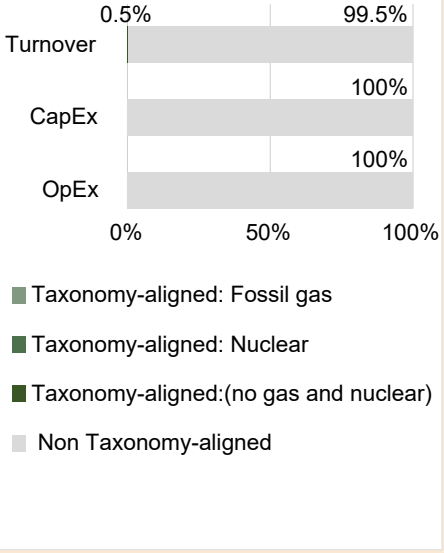
**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 0.41% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

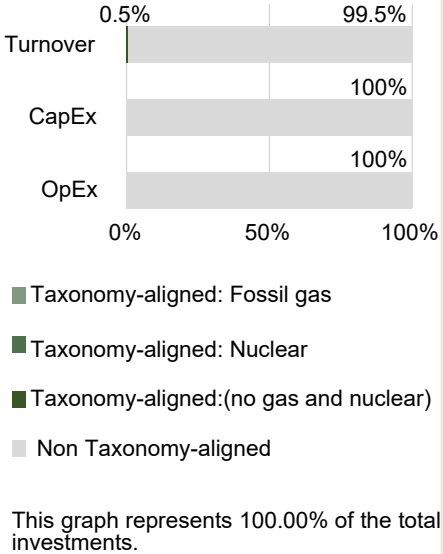
**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

☐ Yes:



☐ In fossil gas ☐ In nuclear energy

☒ No



[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

2. Taxonomy-alignment of investments **excluding sovereign bonds***

This graph represents 100.00% of the total investments.

** For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

| Non Taxonomy-aligned | 99.50% | 100.00% | 100.00% |

For the reference period, 0.00% of the Fund's total investments were held in sovereign exposures.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| Environmental objectives | % of Investments |
|---|---|
| Climate mitigation | 0.50% |
| Climate adaptation | 0.00% |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

**What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

| | % of Investments |
|---|---|
| Transitional Activities | 0.00% |
| Enabling Activities | 0.32% |

**How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

For the previous reference period, 0.02% of the Fund's investments were aligned with EU Taxonomy.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares US Equity Enhanced Active UCITS ETF**

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

For the reference period, 63.06% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

**What was the share of socially sustainable investments?**

For the reference period, 8.47% of the Fund's investments were classified as socially sustainable investments.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included cash, money market funds and derivatives and shares or units of CIS and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide, however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

BlackRock assesses good governance practices of the investee companies by combining proprietary insights with data from external ESG research providers. BlackRock uses data from external ESG research providers to identify investee companies which may not have satisfactory governance practices in relation to key performance indicators related to sound management structure, employee relations, remuneration of staff and tax compliance. Investee companies that do not satisfy BlackRock's assessment of good governance are excluded from the investment universe.

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

**How did this financial product perform compared to the reference benchmark?**

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

**How does the reference benchmark differ from a broad market index?**

Not applicable.

**How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

| Environmental and social characteristics promoted by the Fund |
|---|
| Exposure to investments qualified as Sustainable Investments |
| Lower carbon emissions intensity (Scope 1 and 2 emissions per $1 million of sales revenue) relative to the MSCI World Index (the "Index") |
| Exclusion of issuers which derive more than a certain portion of their revenue from the distribution, retailing and/or licensing of tobacco and/or tobacco-related products |
| Exclusion of issuers that derive more than 5% of their revenue from the production of firearms intended for civilian use |
| Exclusion of issuers that derive more than 5% of their revenue from distribution of firearms intended for civilian use |
| Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption) |
| Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads and nuclear missiles, or essential components for exclusive use in nuclear weapons |
| Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons) |
| Exclusion of issuers deriving more than 5% of their revenue from the production of tar sands (also known as oil sands) |
| Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation |
| Exclusion of issuers involved in production of tobacco-related products |
| Ensure that more than 90% of the issuers of securities in which the Fund invests (excluding money market funds) shall be ESG rated or have been analysed for ESG purposes |
| Exclusion of issuers that have any ties to automatic/semi-automatic firearms or ammunition production intended for civilian use |

The Sustainable Investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| EU Taxonomy environmental objectives contributed to by the Fund |
|---|
| Climate mitigation |
| Climate adaptation |

[1]The Fund launched on 23 July 2024, therefore performance data is not present for the 2023 reference period.
[2]The good governance and DNSH methodology was updated in the Fund's prospectus effective from 4 March 2026. The metrics presented in this report have been calculated based on the new methodology notwithstanding that it was not applicable for the full reference period.

**…and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares World Equity Enhanced Active UCITS ETF**

**What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 67.54% of its holdings in Sustainable Investments in pursuit of its investment objective.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments. The Investment Manager assessed the indicators for adverse impacts on sustainability factors for each type of investment as defined by the regulation. Criteria for adverse impacts were assessed using third-party vendor data regarding an investment's business involvement (in specific activities identified as having negative environmental or social impacts) or environmental or social controversies to exclude investments which the Investment Manager has determined are harmful to sustainability indicators subject to limited exceptions, for example, where the data was determined to be inaccurate or not up to date. Where no data was available, or it was substantially incomplete, fundamental analysis was undertaken using reasonable efforts to identify impacts which the Investment Manager determined to be harmful to the sustainability indicators.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

  The indicators for principal adverse impacts ("PAI"s) on sustainability factors for each type of investment were assessed using BlackRock's Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

  The Fund's benchmark index has excluded companies with a "red" ESG controversy flag which excludes issuers which have been determined by the index provider to be in violation of the UN Guiding Principles on Business and Human Rights and OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares World Equity Enhanced Active UCITS ETF**

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria of the benchmark index at each index rebalance. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

| Adverse Sustainability Indicator | Sustainability Indicators |
|---|---|
| Greenhouse gas (GHG) emissions | Lower carbon emission intensity relative to the Index |
| Carbon footprint | Lower carbon emission intensity relative to the Index |
| GHG intensity of investee companies | Lower carbon emission intensity relative to the Index |
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers deriving more than 5% of their revenue from the production of tar sands (also known as oil sands) |
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation |
| Share of non-renewable energy consumption and production | Exclusion of issuers deriving more than 5% of their revenue from the production of tar sands (also known as oil sands) |
| Share of non-renewable energy consumption and production | Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation |
| Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption) |
| Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons) | Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons). |

**Asset allocation** describes the share of investments in specific assets.

**What was the proportion of sustainability-related investments?**

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

**What was the asset allocation?**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:
- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

| Asset allocation | % of Investments | | | |
|---|---|---|---|---|
| | 2026 | 2025 | 2024 | 2023 |
| #1 Aligned with E/S characteristics | 99.65% | 98.94% | N/A[1] | N/A[1] |
| #2 Other | 0.35% | 1.06% | N/A[1] | N/A[1] |
| #1A Sustainable | 67.54% | 52.37% | N/A[1] | N/A[1] |
| #1B Other E/S characteristics | 32.11% | 46.57% | N/A[1] | N/A[1] |
| Taxonomy-aligned | 1.13% | 0.02% | N/A[1] | N/A[1] |
| Other environmental | 57.13% | 41.87% | N/A[1] | N/A[1] |
| Social | 9.28% | 10.48% | N/A[1] | N/A[1] |

[1]The Fund launched on 23 July 2024, therefore performance data is not present for the 2023 reference period.

**In which economic sectors were the investments made?**

The following table details the economic sectors that the Fund was exposed to during the reference period.

| Sector | Sub-Sector | % of Investments |
|---|---|---|
| Information Technology | Semiconductors & Semiconductor Equipment | 12.80% |
| Industrials | Capital Goods | 9.76% |
| Information Technology | Software & Services | 8.19% |
| Information Technology | Technology Hardware & Equipment | 7.47% |
| Communication | Media & Entertainment | 6.85% |
| Health Care | Pharma, Biotech & Life Sciences | 6.80% |
| Financials | Banks | 6.43% |
| Financials | Financial Services | 6.33% |
| Consumer Discretionary | Consumer Discretionary Distribution & Retail | 4.37% |
| Materials | Materials | 3.15% |
| Financials | Insurance | 2.97% |
| Health Care | Health Care Equipment & Services | 2.74% |
| Energy | Integrated Oil & Gas | 2.48% |
| Communication | Telecommunications | 2.31% |
| Utilities | Utilities | 2.23% |
| Consumer Discretionary | Autos & Components | 2.18% |
| Consumer Staples | Consumer Staples Distribution & Retail | 1.82% |
| Consumer Staples | Food, Beverage, Tobacco | 1.66% |
| Consumer Discretionary | Consumer Services | 1.47% |
| Real Estate | Equity Real Estate Investment Trusts (REITs) | 1.42% |
| Industrials | Commercial & Professional Services | 1.27% |
| Consumer Discretionary | Consumer Durables | 1.16% |
| Industrials | Transportation | 1.08% |
| Energy | Oil & Gas Exploration & Production | 0.68% |
| Energy | Oil & Gas Refining & Marketing | 0.48% |
| Energy | Oil & Gas Storage & Transportation | 0.16% |
| Energy | Oil & Gas Equipment & Services | 0.14% |
| Energy | Coal & Consumable Fuels | 0.06% |

The Fund had exposure to energy sectors during the reference period, however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): oil and gas drilling.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

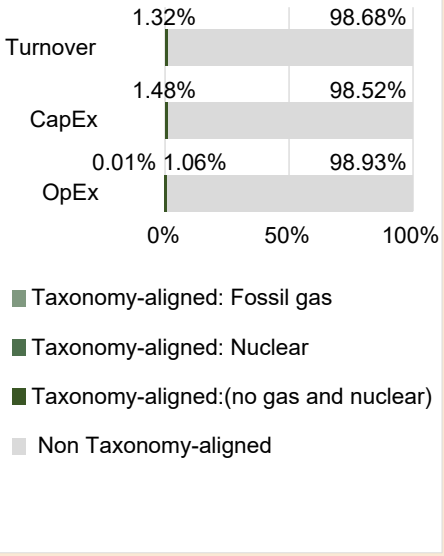
**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 1.13% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

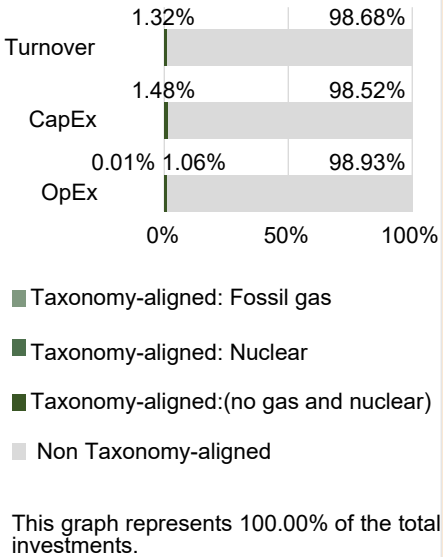
**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

[X] Yes:



[X] In fossil gas [X] In nuclear energy

[ ] No



[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

2. Taxonomy-alignment of investments **excluding sovereign bonds***

This graph represents 100.00% of the total investments.

** For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares World Equity Enhanced Active UCITS ETF**

| Taxonomy Alignment (including sovereign bonds) | Turnover | CapEx | OpEx |
|---|---|---|---|
| Taxonomy-aligned: Fossil gas | 0.00% | 0.00% | 0.01% |
| Taxonomy-aligned: Nuclear | 0.00% | 0.00% | 0.00% |
| Taxonomy-aligned: No gas and nuclear | 1.32% | 1.48% | 1.06% |

| Taxonomy Alignment (excluding sovereign bonds) | Turnover | CapEx | OpEx |
|---|---|---|---|
| Taxonomy-aligned: Fossil gas | 0.00% | 0.00% | 0.01% |
| Taxonomy-aligned: Nuclear | 0.00% | 0.00% | 0.00% |
| Taxonomy-aligned: No gas and nuclear | 1.32% | 1.48% | 1.06% |
| Non Taxonomy-aligned | 98.68% | 98.52% | 98.93% |

The Fund had exposure to investments that were EU Taxonomy-aligned; however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

For the reference period, 0.00% of the Fund's total investments were held in sovereign exposures.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| Environmental objectives | % of Investments |
|---|---|
| Climate mitigation | 1.26% |
| Climate adaptation | 0.01% |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

**What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

| | % of Investments |
|---|---|
| Transitional Activities | 0.05% |
| Enabling Activities | 0.76% |

**How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

For the previous reference period, 0.02% of the Fund's investments were aligned with EU Taxonomy.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares World Equity Enhanced Active UCITS ETF**

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

For the reference period, 57.13% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

**What was the share of socially sustainable investments?**

For the reference period, 9.28% of the Fund's investments were classified as socially sustainable investments.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included cash, money market funds and derivatives and shares or units of CIS and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide, however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

BlackRock assesses good governance practices of the investee companies by combining proprietary insights with data from external ESG research providers. BlackRock uses data from external ESG research providers to identify investee companies which may not have satisfactory governance practices in relation to key performance indicators related to sound management structure, employee relations, remuneration of staff and tax compliance. Investee companies that do not satisfy BlackRock's assessment of good governance are excluded from the investment universe.

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website.

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

| Environmental and social characteristics promoted by the Fund |
|---|
| Exposure to investments qualified as Sustainable Investments |
| Lower carbon emission intensity (emissions per $1 million of sales revenue) relative to MSCI World Index (the "Index") |
| Ensure that more than 90% of the issuers of securities in which the Fund invests (excluding money market funds) shall be ESG rated or have been analysed for ESG purposes |
| Exclusion of issuers which produce tobacco products |
| Exclusion of issuers that derive more than 5% of their revenue from the production of firearms intended for civilian use |
| Exclusion of issuers that derive more than 5% of their revenue from distribution of firearms intended for civilian use |
| Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption) |
| Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads and nuclear missiles, or essential components for exclusive use in nuclear weapons |
| Exclusion of issuers which are engaged in, or are otherwise exposed to the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons) |
| Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands) |
| Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of green bonds, that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers |
| Exclusion of issuers which derive more than 5% of their revenue from the production,distribution, retail and supply of tobacco-related products |

The Sustainable Investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

[1]The Fund launched on 14 January 2025, therefore performance data is not present for the 2023 reference period.

**…and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section “How did the sustainability indicators perform?”).

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares World Equity Factor Rotation Active UCITS ETF**

**What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 65.89% of its holdings in Sustainable Investments in pursuit of its investment objective.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

  The indicators for principal adverse impacts ("PAI"s) on sustainability factors for each type of investment were assessed using BlackRock's Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

  The Fund's benchmark index has excluded companies with a "red" ESG controversy flag which excludes issuers which have been determined by the index provider to be in violation of the UN Guiding Principles on Business and Human Rights and OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria of the benchmark index at each index rebalance. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

| Adverse Sustainability Indicator | Sustainability Indicators |
|---|---|
| Greenhouse gas (GHG) emissions | Lower carbon emission intensity (emissions per $1 million of sales revenue) relative to the Index |
| GHG intensity of investee companies | Lower carbon emission intensity (emissions per $1 million of sales revenue) relative to the Index |
| Exposure to companies active in the fossil fuel sector | Exclusion of Issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers. |
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands). |
| Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption) |
| Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons) | Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons). |

**Asset allocation** describes the share of investments in specific assets.

**What was the proportion of sustainability-related investments?**

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

**What was the asset allocation?**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:
- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

| Asset allocation | % of Investments | | | |
|---|---|---|---|---|
| | 2026 | 2025 | 2024 | 2023 |
| #1 Aligned with E/S characteristics | 100.00% | 99.37% | N/A[1] | N/A[1] |

| #1A Sustainable | 65.89% | 53.48% | N/A[1] | N/A[1] |
| #1B Other E/S characteristics | 34.11% | 45.89% | N/A[1] | N/A[1] |
| Taxonomy-aligned | 1.97% | 0.02% | N/A[1] | N/A[1] |
| Other environmental | 55.54% | 45.72% | N/A[1] | N/A[1] |
| Social | 8.38% | 7.74% | N/A[1] | N/A[1] |

[1]The Fund launched on 14 January 2025, therefore performance data is not present for the 2023 reference period.
[2]The net exposure to "Other" assets was -4.27% due to derivative positions held by the Fund.

**In which economic sectors were the investments made?**

The following table details the economic sectors that the Fund was exposed to during the reference period.

| Sector | Sub-Sector | % of Investments |
|---|---|---|
| Information Technology | Semiconductors & Semiconductor Equipment | 13.99% |
| Industrials | Capital Goods | 9.99% |
| Information Technology | Technology Hardware & Equipment | 9.45% |
| Information Technology | Software & Services | 9.16% |
| Communication | Media & Entertainment | 8.93% |
| Financials | Banks | 8.19% |
| Health Care | Pharma, Biotech & Life Sciences | 7.18% |
| Financials | Insurance | 7.11% |
| Financials | Financial Services | 5.44% |
| Consumer Discretionary | Consumer Discretionary Distribution & Retail | 3.91% |
| Materials | Materials | 2.90% |
| Communication | Telecommunications | 2.79% |
| Utilities | Utilities | 2.76% |
| Consumer Discretionary | Consumer Services | 2.24% |
| Consumer Discretionary | Autos & Components | 2.01% |
| Health Care | Health Care Equipment & Services | 1.48% |
| Consumer Staples | Consumer Staples Distribution & Retail | 1.41% |
| Real Estate | Equity Real Estate Investment Trusts (REITs) | 1.16% |
| Energy | Integrated Oil & Gas | 0.81% |
| Energy | Oil & Gas Refining & Marketing | 0.13% |
| Energy | Oil & Gas Exploration & Production | 0.01% |
| Energy | Oil & Gas Storage & Transportation | 0.00% |
| Energy | Oil & Gas Equipment & Services | 0.00% |

The Fund had exposure to energy sectors during the reference period, however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): oil and gas drilling or coal and consumable fuels.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares World Equity Factor Rotation Active UCITS ETF**

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

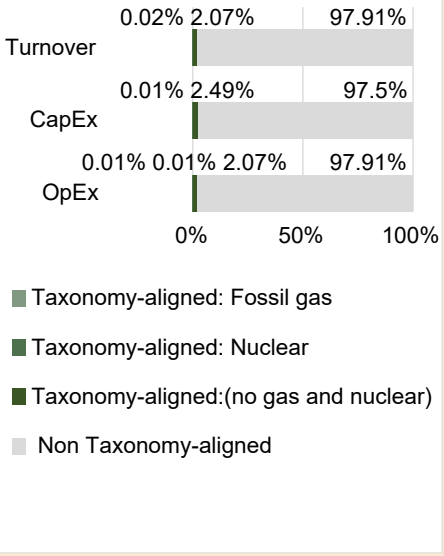
**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 1.97% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

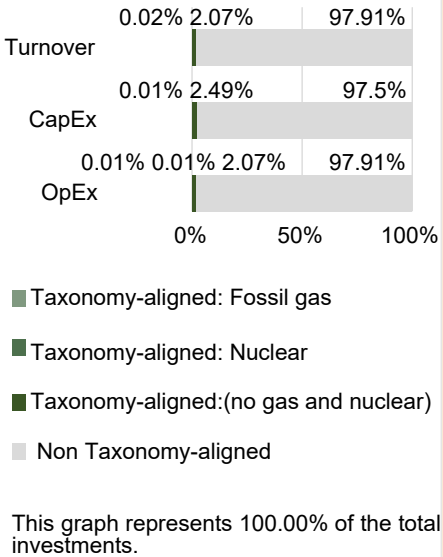
**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

[X] Yes:



[X] In fossil gas [X] In nuclear energy

[ ] No



[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

2. Taxonomy-alignment of investments **excluding sovereign bonds***

This graph represents 100.00% of the total investments.

** For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

| Non Taxonomy-aligned | 97.91% | 97.50% | 97.91% |

For the reference period, 0.00% of the Fund's total investments were held in sovereign exposures.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| Environmental objectives | % of Investments |
|---|---|
| Climate mitigation | 2.03% |
| Climate adaptation | 0.05% |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

**What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

| | % of Investments |
|---|---|
| Transitional Activities | 0.06% |
| Enabling Activities | 1.18% |

**How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

For the previous reference period, 0.02% of the Fund's investments were aligned with EU Taxonomy.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares World Equity Factor Rotation Active UCITS ETF**

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

For the reference period, 55.54% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

**What was the share of socially sustainable investments?**

For the reference period, 8.38% of the Fund's investments were classified as socially sustainable investments.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included cash, money market funds and derivatives and shares or units of CIS and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide, however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Manager agrees with this external assessment, the Investment Manager is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Manager's direct engagement with the issuer. The Investment Manager may also decide to reduce exposure to such issuers.

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

| Environmental and social characteristics promoted by the Fund |
|---|
| Exposure to investments qualified as Sustainable Investments |
| Lower carbon emission intensity (emissions per $1 million of sales revenue) relative to the MSCI World Index (the "Index") |
| Exclusion of issuers which produce tobacco products |
| Exclusion of issuers that derive more than 5% of their revenue from the production of firearms intended for civilian use |
| Exclusion of issuers that derive more than 5% of their revenue from distribution of firearms intended for civilian use |
| Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption) |
| Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads and nuclear missiles, or essential components for exclusive use in nuclear weapons |
| Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons) |
| Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands) |
| Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation |
| Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products |
| Exclusion of issuers that have any ties to automatic/semi-automatic firearms or ammunition production intended for civilian use |
| Ensure that more than 90% of the issuers of securities in which the Fund invests (excluding money market funds) shall be ESG rated or have been analysed for ESG purposes |

The Sustainable Investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| EU Taxonomy environmental objectives contributed to by the Fund |
|---|
| Climate mitigation |
| Climate adaptation |

**How did the sustainability indicators perform?**

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

[1]The Fund launched on 20 March 2024, therefore performance data is not present for the 2023 reference period.
[2]The indicator was added to the investment strategy in July 2023 and therefore was not reported as part of the previous reference period.
[3]The good governance and DNSH methodology was updated in the Fund's prospectus effective from 4 March 2026. The metrics presented in this report have been calculated based on the new methodology notwithstanding that it was not applicable for the full reference period.

**…and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares World Equity High Income Active UCITS ETF**

**What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 62.26% of its holdings in Sustainable Investments in pursuit of its investment objective.

***Environmental and social objectives***

The Fund invested in Sustainable Investments which contributed to a range of environmental and/or social objectives which may include but are not limited to, alternative and renewable energy, energy efficiency, pollution prevention or mitigation, reuse and recycling, health, nutrition, sanitation and education and the UN Sustainable Development Goals and other sustainability-related frameworks ("Environmental and Social Objectives").

***Economic activity assessment***

An investment was assessed as contributing to an environmental and/or social objective where:
(i) a minimum proportion of the issuer's business activity contributed to an environmental and/or social objective; or
(ii) the issuer's business practices contributed to an environmental and/or social objective.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments. The Investment Manager assessed the indicators for adverse impacts on sustainability factors for each type of investment as defined by the regulation. Criteria for adverse impacts were assessed using third-party vendor data regarding an investment's business involvement (in specific activities identified as having negative environmental or social impacts) or environmental or social controversies to exclude investments which the Investment Manager has determined are harmful to sustainability indicators subject to limited exceptions, for example, where the data was determined to be inaccurate or not up to date. Where no data was available, or it was substantially incomplete, fundamental analysis was undertaken using reasonable efforts to identify impacts which the Investment Manager determined to be harmful to the sustainability indicators.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

  The indicators for principal adverse impacts ("PAI"s) on sustainability factors for each type of investment were assessed using BlackRock's Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

  Sustainable Investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers or companies deemed to have violated these conventions are not considered as Sustainable Investments.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares World Equity High Income Active UCITS ETF**

**How did this financial product consider principal adverse impacts on sustainability factors?**

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

| Adverse Sustainability Indicator | Sustainability Indicators |
|---|---|
| Greenhouse gas (GHG) emissions | Reduction in carbon emission intensity relative to the reference benchmark |
| GHG intensity of investee companies | Reduction in carbon emission intensity relative to the reference benchmark |
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands) |
| Exposure to companies active in the fossil fuel sector | Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation |
| Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption) |
| Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons) | Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons). |

**What were the top investments of this financial product?**

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 1 July 2025 to 30 June 2026.

| Largest investments | Sector | % Assets | Country |

**Asset allocation** describes the share of investments in specific assets.

**What was the proportion of sustainability-related investments?**

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

**What was the asset allocation?**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:
- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

| Asset allocation | % of Investments | | | |
|---|---|---|---|---|
| | 2026 | 2025 | 2024 | 2023 |
| #1 Aligned with E/S characteristics | 96.82% | 96.75% | 96.37% | N/A[1] |

[1]The Fund launched on 20 March 2024, therefore performance data is not present for the 2023 reference period.

**In which economic sectors were the investments made?**

The following table details the economic sectors that the Fund was exposed to during the reference period.

| Sector | Sub-Sector | % of Investments |
|---|---|---|
| Information Technology | Semiconductors & Semiconductor Equipment | 14.57% |
| Information Technology | Software & Services | 8.48% |
| Industrials | Capital Goods | 8.22% |

| Energy | Oil & Gas Equipment & Services | 0.22% |
| Energy | Coal & Consumable Fuels | 0.00% |
| Energy | Oil & Gas Drilling | 0.00% |

The Fund had exposure to energy sectors during the reference period, however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)**

**iShares World Equity High Income Active UCITS ETF**

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

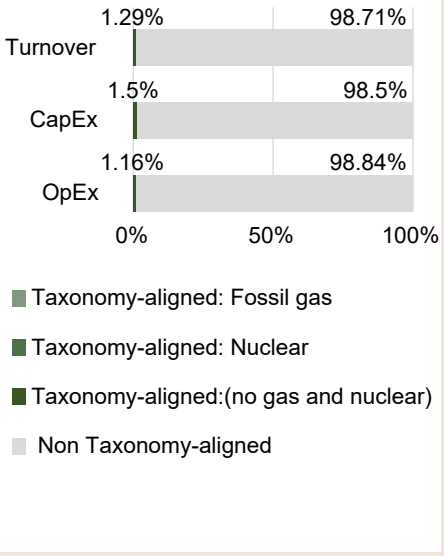
**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 1.05% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

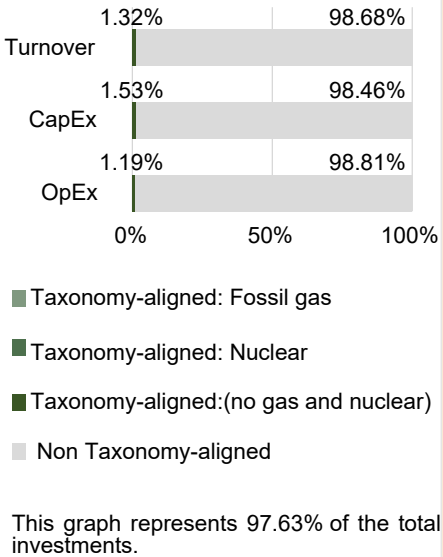
**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[1]?**

[X] Yes:



[X] In fossil gas [X] In nuclear energy

[ ] No



[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

2. Taxonomy-alignment of investments **excluding sovereign bonds***

This graph represents 97.63% of the total investments.

** For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

| Taxonomy-aligned: No gas and nuclear | 1.32% | 1.53% | 1.19% |
| Non Taxonomy-aligned | 98.68% | 98.46% | 98.81% |

The Fund had exposure to investments that were EU Taxonomy-aligned; however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

For the reference period, 2.37%
of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| Environmental objectives | % of Investments |
|---|---|
| Climate mitigation | 1.19% |
| Climate adaptation | 0.03% |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

**What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

| | % of Investments |
|---|---|
| Transitional Activities | 0.02% |
| Enabling Activities | 0.67% |

**How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

| | % of Investments | | | |
|---|---|---|---|---|
| | 2026 | 2025 | 2024 | 2023 |
| EU Taxonomy Aligned | 1.29% | 1.68% | 1.10% | 0.00% |

**iShares World Equity High Income Active UCITS ETF**

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

For the reference period, 51.21% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

**What was the share of socially sustainable investments?**

For the reference period, 10.00% of the Fund's investments were classified as socially sustainable investments.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included cash, money market funds and derivatives and shares or units of CIS and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide, however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

BlackRock assesses good governance practices of the investee companies by combining proprietary insights with data from external ESG research providers. BlackRock uses data from external ESG research providers to identify investee companies which may not have satisfactory governance practices in relation to key performance indicators related to sound management structure, employee relations, remuneration of staff and tax compliance. Investee companies that do not satisfy BlackRock's assessment of good governance are excluded from the investment universe.

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website.
