GENERAL INFORMATION (continued)

Total Expense Ratio ("TER")

| Sub-fund | Unit Class | Currency | Flat fee charged to the sub-fund % | TER % | Max fee charged to the sub-fund % |
|----------------------------------|---------------|----------|--|----------|--|
| iShares Gold ETF (CH) | А | USD | 0.19 | 0.19 | 0.19 |
| iShares Gold CHF Hedged ETF (CH) | А | CHF | 0.22 | 0.22 | 0.22 |
| iShares Gold EUR Hedged ETF (CH) | Α | EUR | 0.22 | 0.22 | 0.22 |

TER describes the sum of all periodic costs and commissions that are charged to the sub-fund's assets. It is expressed retroactively as a percentage of average sub-fund assets and has been calculated in accordance with the Asset Management Association Switzerland ("AMAS") guidelines on the calculation and disclosure of the TER of collective investment schemes. Any reimbursements/commissions for client unit holdings from target funds have been credited to the sub-fund and thus reduce the TER.

Tracking error

Realised tracking error is the annualised standard deviation of the difference in monthly returns between a sub-fund and its benchmark index. Tracking error shows the consistency of the returns relative to the benchmark index over a defined period of time.

Investment techniques, efficient portfolio management techniques, transaction costs from rebalancing and currency hedging can have an impact on tracking error as well as the return differential between a sub-fund and its benchmark index. Importantly, these impacts can be either positive or negative depending on the underlying circumstances. Investment techniques include cash management, currency hedging, futures held and sampling techniques.

The following table shows the actual realised tracking error of the sub-funds as at 30 November 2023. The realised tracking error is annualised and calculated using data from the preceding 36 month observation period.

| Sub-fund | Unit Class | Maximum % | Minimum % | Average % | 30 November 2023 % |

Sub-fund performance is shown net of TER.

Sub-fund performance at the unit class level is based on officially published net asset value ("NAV") which in turn are based on stock exchange closing prices at the end of the month in question. Where, due to a holiday at the end of the month in question, a date relevant for the determination of the sub-fund returns would not be a bank working day (such that a NAV would not otherwise be calculated on that day), a non-tradeable NAV may nevertheless be determined and calculated in accordance with the prospectus for the purposes of these disclosures.

Historical performance is not an indicator of current or future performance. The performance data given does not take into account commissions and costs incurred in the purchase or redemption of fund units.

Performance has been calculated in accordance with the AMAS guidelines on the calculation and publication of performance data of collective investment schemes.

NOTES TO THE INTERIM REPORT

For the financial period ended 30 November 2023 and 31 May 2023

1. SALES RESTRICTIONS UNITED STATES OF AMERICA ("USA")

Units of this collective investment scheme may not be offered, sold or delivered to citizens and/or residents of the United States ("US") and/or persons or entities whose income and/or revenue, irrespective of source, is subject to US income tax, including those deemed to be US persons under Regulation S of the US Securities Act of 1933 and/or the US Commodity Exchange Act, as amended.

2. INFORMATION RELATING TO THE AMAS TRANSPARENCY PROVISIONS

The Fund Management Company and its agents do not pay any retrocessions to third parties mandated to promote the sale of their collective investment schemes. In respect of the sale of collective investment schemes, the Fund Management Company and its agents do not pay any rebates to reduce the fees or costs incurred by the investor and charged to the sub-fund.

3. SOFT COMMISSIONS

The Fund Management Company has not concluded any commission sharing agreements or agreements in respect of "soft commissions".

4. VALUATION OF THE FUND'S ASSETS AND THE UNITS

- a) The NAV of each sub-fund is calculated in the accounting unit of the respective sub-fund at the market value as of the end of the financial year, for each day on which units are issued or redeemed, as well as on days when no units are issued or redeemed but a LBMA Gold Price AM is available. The sub-fund's assets will not be calculated on days when precious metal trading in London is closed (e.g. bank and stock exchange holidays).
- b) Securities traded on a stock exchange or another regulated market open to the public shall be valued at the closing prices paid on the main market on the order day. The value of precious metal is calculated in London on the basis of end-of-day pricing for precious metals trading. Details are set out in the prospectus. Other investments or investments for which no current market value is available shall be valued at the price which would probably be obtained in a diligent sale at the time of the valuation. In such cases, the Fund Management Company shall use appropriate and recognised valuation models and principles to determine the market value.
- c) On-call and term deposits are valued on the basis of the amount due plus accrued interest. If there are significant changes in the market conditions or the credit rating, the valuation principles for term deposits will be adjusted in line with the new circumstances.
- d) The NAV of a unit of a sub-fund is determined by the market value of that sub-fund's assets, minus all that sub-fund's liabilities, divided by the number of units of that sub-fund in circulation. It will be rounded to four places after the decimal point of the unit of account.

In accordance with Article 84 paragraph 2 Ordinance of the Swiss Financial Market Supervisory Authority ("FINMA") on Collective Investment Schemes, the investments of the sub-funds are to be summarised in a table according to the following three valuation categories:

Level 1 - trading of investments listed in a stock exchange or in another regulated market open to the public and valued according to the prices in the primary market;

Level 2 – investments that are not priced according to level 1 whose value is based on market-observed parameters;

Level 3 – investments whose value cannot be based on market-observed parameters and are valued with suitable valuation models taking account of the current market circumstances.

The determination of what constitutes market-observed parameters requires significant judgement by the Fund Management Company taking into consideration factors specific to the asset or liability.

The Fund Management Company considers prices in the primary market to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The AIFMD imposes detailed and prescriptive obligations on fund managers established in the European Union (the "EU"). These do not currently apply to managers established outside of the EU, such as BlackRock Asset Management Schweiz AG (the "Company"). Rather, the Company is only required to comply with certain disclosure, reporting and transparency obligations of the AIFMD because it has registered the iShares ETF II (CH) (the "Fund") to be marketed to investors in Liechtenstein.
