June 2026

Performance, Portfolio Breakdowns and Net Asset information as at: 30-Jun-2026. All other data as at 06-Jul-2026.
This document is marketing material. For Investors in the UK. Investors should read the KIID/PRIIPs document and prospectus prior to investing, and should refer to the prospectus for the funds full list of risks.

FUND OVERVIEW

The fund aims to provide investors with a total return, taking into account both capital and income returns, which reflects the return of the STOXX Global Lithium and Battery Producers Index.

KEY BENEFITS

- 1. Provides exposure to the lithium industry theme through lithium miners, compounds manufacturers and lithium battery producers
- 2. Exposure to equity securities of eligible developed and emerging market lithium industry theme companies
- 3. Seeks to exclude companies classified as Non-Compliant by Sustainalytics' Global Standards Screening ("GSS"), who provide an assessment of a company's impact on stakeholders and the extent to which a company causes, contributes or is linked to violations of international norms and standards.

RISK INDICATOR

CAPITAL AT RISK: The value of investments and the income from them can fall as well as rise and are not guaranteed. Investors may not get back the amount originally invested.

KEY RISKS:

- Shares in smaller companies typically trade in less volume and experience greater price variations than larger companies.
- Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political, sustainability-related or regulatory events.
- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- The prices of commodities tend to experience greater variations than other asset classes (e.g. equities or fixed income securities). Investments in commodities are therefore potentially riskier than other types of investments.
- Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Share Class to financial loss.
- Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

Product Information

ISIN : IE000WDG5795
Share Class Launch Date : 31-Oct-2023
Share Class Currency : USD
Total Expense Ratio : 0.55%
Use of Income : Accumulating
Net Assets of Share Class (M) : 73.52 USD

KEY FACTS

Asset Class : Equity
Benchmark : STOXX Global Lithium and Battery Producers Index
Fund Launch Date : 31-Oct-2023
Net Assets of Fund (M) : 73.52 USD
SFDR Classification : Other
Domicile : Ireland
Methodology : Replicated
Issuing Company : iShares IV plc

GEOGRAPHIC BREAKDOWN (%)

Fund

Geographic exposure relates principally to the domicile of the issuers of the securities held in the product, added together and then expressed as a percentage of the product's total holdings. However, in some instances it can reflect the location where the issuer of the securities carries out much of their business.

This is Marketing Material. iShares plc, iShares II plc, iShares III plc, iShares IV plc, iShares V plc, iShares VI plc and iShares VII plc (together 'the Companies') are open-ended investment companies with variable capital having segregated liability between their funds organised under the laws of Ireland and authorised by the Central Bank of Ireland. The Prospectus (Available in French, German, Polish and English Languages) Key Investor Information document (UK only), PRIIPs KID and further information about the Fund and the Share Class, such as details of the key underlying investments of the Share Class and share prices, is available on the iShares website at www.ishares.com or by calling +44 (0)845 357 7000 or from your broker or financial adviser. The indicative intra-day net asset value of the Share Class is available at <http://deutsche-boerse.com> and/or <http://www.reuters.com>. A UCITS ETF's units / shares that have been acquired on the secondary market cannot usually be sold directly back to the UCITS ETF itself. Investors who are not Authorised Participants must buy and sell shares on a secondary market with the assistance of an intermediary (e.g. a stockbroker) and may incur fees and additional taxes in doing so. In addition, as the market price at which the Shares are traded on the secondary market may differ from the Net Asset Value per Share, investors may pay more than the then current Net Asset Value per Share when buying shares and may receive less than the current Net Asset Value per Share when selling them. UCITS HAVE NO GUARANTEED RETURN AND PAST PERFORMANCE DOES NOT GUARANTEE THE FUTURE ONES
