iShares Euro Long Duration Government Bond Index Fund (IE)

A sub-fund of BlackRock Fixed Income Dublin Funds plc

Class Flexible Acc EUR Accu

ISIN: IE000WYAQXR4

Manager: BlackRock Asset Management Ireland Limited

Objectives and Investment Policy

- ▶ The Fund aims to provide a total return, taking into account both capital and income returns, which reflects the return of the Bloomberg Core Euro Government Bonds Long Duration Index (the "Index").
- ▶ The Fund is passively managed and invests in the fixed income (FI) securities (such as bonds) that make up the Index. The Index is comprised of Euro denominated government bonds from core European domiciles.
- ▶ At the time of purchase, the FI securities will be rated investment grade (i.e. meet a specified level of credit worthiness) or are deemed, by the investment manager, to be of an equivalent rating. If the credit rating of a FI security is downgraded, the Fund may continue to hold this until it is practicable to sell the position.
- ▶ The Fund uses optimising techniques to achieve a similar return to its Index. The Fund may hold certain FI securities which are/were eligible for inclusion in the Index, but which are not currently components of the Index, where such FI securities provide similar performance (with matching risk profile) to FI securities that make up the Index. The Fund will also employ stratified sampling, where the market is divided into segments and FI securities are selected from each segment to match the risk characteristics of the Index.
- ▶ The Fund's investments will normally be listed or traded on regulated markets.
- ▶ The Fund may also invest in collective investment schemes (i.e. other investment funds which may be associated with the IM), derivatives, cash and money market instruments (i.e. debt securities with short-term maturities).
- ▶ The Fund may invest in financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets) for direct investment and/or efficient portfolio management purposes.
- ▶ Recommendation: This Fund may not be appropriate for short-term investment.
- ▶ Your shares will be accumulating shares (i.e. dividend income will be included in their value).
- ▶ Your shares will be denominated in Euro, the Fund's base currency.
- ▶ You can buy and sell your shares daily. The minimum initial investment for this share class is US\$500,000.

Risk and Reward Profile

- ▶ The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Fund.
 - ▶ The risk category shown is not guaranteed and may change over time.
 - ▶ The lowest category does not mean risk free.
 - ▶ The Fund is rated six due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
- Credit risk, changes to interest rates and/or issuer defaults will have a significant impact on the performance of fixed income securities. Potential or actual credit rating downgrades may increase the level of risk.
 - Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political, sustainability-related or regulatory events.
 - ▶ Particular risks not adequately captured by the risk indicator include:
 - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
 - Credit Risk: The issuer of a financial asset held within the Fund may not pay income or repay capital to the Fund when due.
 - Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

Charges

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual entry and exit charges.

*Subject to a charge of up to 2% paid into the Fund where the Manager suspects arbitrage by an investor on the yield of the Fund.

The ongoing charges figure is based on the fixed annualised fees charged to the Fund as set out in the Fund's prospectus. This figure excludes portfolio trade-related costs, except costs paid to the custodian and any entry/exit charge paid to an underlying collective investment scheme (if any).

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.
