iShares S&P 500 Equal Weight Index Fund
(UK)

A sub-fund of BlackRock Collective Investment Funds

Class Z GBP Accu

ISIN: GB00BV4B1915

Manager: BlackRock Fund Managers Limited

Objectives and Investment Policy

- ▶ The Fund aims to provide a return on your investment (generated through an increase in the value of the assets held by the Fund and/or income received from those assets) by tracking closely the performance of the S&P 500 Equal Weight Index (the “Benchmark Index”).
- ▶ The Fund invests in equity securities (e.g. shares) of companies that make up the Benchmark Index.
- ▶ The Benchmark Index aims to reflect the performance of securities within the S&P 500 Index (the “Parent Index”) with each security being equally weighted within the Benchmark Index. The Benchmark Index includes all constituents of the Parent Index but, at each rebalance date, all constituents are weighted equally. This means that, at each index rebalance, the Benchmark Index will have a larger weighting in the smaller market capitalisation securities compared to its Parent Index. Between index rebalances, index constituent weightings will fluctuate due to price performance.
- ▶ The Parent Index measures the performance of 500 stocks from top US companies in leading industries of the US economy which comply with S&P’s size, liquidity and free-float criteria.
- ▶ The Fund is passively managed and the investment manager has limited discretion to select the Fund’s investments and in doing so will take into consideration the Benchmark Index.
- ▶ The Fund intends to replicate the Benchmark Index by holding the equity securities, which make up the Benchmark Index, in similar proportions to the Benchmark Index.
- ▶ The Fund may also engage in short term secured lending of its investments to certain eligible third parties. This is used as a means of generating additional income and to off-set the costs of the Fund.
- ▶ Recommendation: This Fund may not be appropriate for short-term investment.
- ▶ Your units will be accumulating units (i.e. dividend income will be included in their value).
- ▶ Your units will be denominated in Sterling, the Fund’s base currency.
- ▶ You can buy and sell your units daily. The minimum initial investment for this unit class is £50,000,000.

For more information on the Fund, share/unit classes, risks and charges, please see the Fund’s prospectus, available on the product pages at www.blackrock.com

Risk and Reward Profile

- ▶ The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Fund.
- ▶ The risk category shown is not guaranteed and may change over time.
- ▶ The lowest category does not mean risk free.
- ▶ The Fund is rated five due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund’s investments or expose the Fund to losses.

- Private equity securities can be affected by daily stock market movements, political and economic news, company earnings and significant corporate events. Private equity companies may involve additional risks including higher levels of borrowing, unclear distribution of risk and losses within the private equity structure and constraints on buying and selling underlying investments quickly.
- ▶ Particular risks not adequately captured by the risk indicator include:
 - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.

Charges

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual entry and exit charges.

*Subject to a charge of up to 2% paid into the Fund where the Manager suspects excessive trading by an investor.

The ongoing charges figure shown here is an estimate of the annualised charges. An estimate is being used because the Fund (or unit class) was newly launched or it has been launched within the reported period. The Fund's annual report for each financial year will include detail on the exact charges made.

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.

One-off charges taken before or after you invest
