iShares MSCI EM Islamic UCITS ETF

A sub-fund of iShares II plc

USD (Dist) Share Class

ISIN: IE00B27YCP72

Exchange Traded Fund (ETF)

Manager: BlackRock Asset Management Ireland Limited

Objectives and Investment Policy

- ▶ The Share Class is a share class of a Fund which aims to achieve a return on your investment, through a combination of capital growth and income on the Fund's assets, which reflects the return of the MSCI Emerging Markets (EM) Islamic Index, the Fund's benchmark index (Index).
 - ▶ The Share Class, via the Fund, is passively managed and aims to invest so far as possible and practicable, and in a manner consistent with Shari'ah principles, in the equity securities (e.g. shares) that make up the Index.
 - ▶ Shari'ah principles are the rules, precepts and parameters of Islamic law as interpreted by Islamic scholars including, in this instance, by the BlackRock Shari'ah Panel (a panel of Islamic scholars appointed to provide guidance relating to the Fund's compliance with Shari'ah principles).
 - ▶ The Index measures the performance of the Shari'ah compliant equity securities in large and mid capitalisation companies in emerging markets determined to be compliant with Shari'ah principles by the Index provider's Shari'ah panel.
 - ▶ The Fund intends to replicate the Index by holding the equity securities which make up the Index, in similar proportions to it.
 - ▶ This Fund is determined to be compliant with Shari'ah principles and targeted at Islamic investors. However, subscription is open to any other investor.
 - ▶ To the extent compliant with Shari'ah principles, the Fund may invest in American Depositary Receipts (ADRs), Global Depositary Receipts (GDRs), and other funds to gain exposure to the relevant equity securities that make up the Index. ADRs and GDRs are investments issued by financial institutions which give exposure to underlying equity securities.
 - ▶ Recommendation: This Fund is suitable for medium to long term investment, though the Fund may also be suitable for shorter term exposure to the Index.
 - ▶ Your shares will be distributing shares (i.e. income will be paid out semi-annually on the shares). The dividends may include a portion of 'impure income' (i.e. income prohibited under Shari'ah principles) which will be notified to investors. Islamic investors will be responsible for the purification of any such impure income in accordance with Shari'ah principles (e.g. by donation to charity).
 - ▶ Your shares will be denominated in US Dollar, the Fund's base currency.
 - ▶ The shares are listed on one or more stock exchanges and may be traded in currencies other than their base currency. The performance of your shares may be affected by this currency difference. In normal circumstances, only authorised participants (e.g. select financial institutions) may deal in shares (or interests in shares) directly with the Fund. Other investors can deal in shares (or interests in shares) daily through an intermediary on stock exchange (s) on which the shares are traded.
- For more information on the Fund, Share Class, risks and charges, please see the Fund's prospectus, available on the product pages at www.blackrock.com

Risk and Reward Profile

- ▶ This indicator is based on historical data and may not be a reliable indication of the future risk profile of this Share Class.
- ▶ The risk category shown is not guaranteed and may change over time.
- ▶ The lowest category does not mean risk free.
- ▶ The Share Class is rated six due to the nature of its investments which include the risks listed below. These factors may impact the value of the Share Class or expose the Share Class to losses.
 - Emerging markets are generally more sensitive to economic and political conditions than developed markets. Other factors include greater 'Liquidity Risk', restrictions on investment or transfer of assets, failed/delayed delivery of securities or payments to the Fund and sustainability-related risks.

- Currency Risk: The Fund invests in other currencies. Changes in exchange rates will therefore affect the value of the investment.
- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- Shari'ah funds generally do not pay interest and are prohibited from investing in businesses that are considered unlawful under Islamic principles. As a result, they may perform differently from other funds that do not follow Islamic principles.
- ▶ Particular risks not adequately captured by the risk indicator include:
 - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Share Class to financial loss.
 - Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.
