**This report describes changes to the Fund that occurred during the reporting period.**

**What were the Fund costs for the last year?**

(based on a hypothetical \$10,000 investment)

Class name	Costs of a \$10,000 investment	Costs paid as a percentage of a \$10,000 investment
Class K Shares	\$47	0.45%

**How did the Fund perform last year?**

- For the reporting period ended April 30, 2025, the Fund’s Class K Shares returned 9.69%.
- For the same period, the MSCI World Index returned 12.16%.

**What contributed to performance?**

Holdings in the financials, information technology, consumer staples, healthcare and industrials sectors contributed to absolute performance. Positions in gold-related securities were additive, as well.

The Fund’s weighting in cash and cash equivalents was 11% of net assets at the close of the period. The cash position helped manage portfolio volatility, and it served as a source of funds for new investments and redemptions. Holdings in cash and cash equivalents contributed to performance.

**What detracted from performance?**

Holdings in materials, energy and consumer discretionary stocks detracted.

The Fund uses derivatives, which may include options, futures, swaps and forward contracts, in an effort to enhance returns and manage the risk of adverse market movements. The Fund’s use of derivatives detracted from results during the annual period.
