Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of each Fund's shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from your financial intermediary, such as a broker-dealer or bank. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

You may elect to receive all future reports in paper free of charge. If you hold accounts through a financial intermediary, you can follow the instructions included with this disclosure, if applicable, or contact your financial intermediary to request that you continue to receive paper copies of your shareholder reports. Please note that not all financial intermediaries may offer this service. Your election to receive reports in paper will apply to all funds held with your financial intermediary.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive electronic delivery of shareholder reports and other communications by contacting your financial intermediary. Please note that not all financial intermediaries may offer this service.

U.S. Municipal Bond Market Overview

The U.S. bond market rose modestly during the 12 months ended February 29, 2020 ("reporting period"). The S&P National AMT-Free Municipal Bond Index returned 9.35% for the reporting period, trailing the 11.68% return of the Bloomberg Barclays U.S. Aggregate Bond Index, a broad measure of U.S. taxable bond performance.

The U.S. economy grew at a modest yet steady pace with benign inflation for most of the reporting period. Concerns about the trade dispute between China and the U.S. and the resulting slowdown in global manufacturing were largely alleviated by stimulus from central banks and an agreement to de-escalate the trade conflict. Consumers, the main engine of the U.S. economy, continued to spend at a strong pace, as wages grew and the unemployment rate fell to a 50-year low of 3.5%. However, the emergence of the coronavirus in January 2020 injected uncertainty into global markets, leading to a sharp rally in the bond market that drove the 10-year U.S. Treasury yield to an all-time low.

The U.S. Federal Reserve ("Fed") shifted toward providing economic stimulus to counteract the slowdown in global trade and manufacturing by cutting interest rates three times during 2019. In response to the economic disruption from the coronavirus, the Fed signaled that it would be ready to administer additional economic stimulus if necessary.

In this environment, municipal bonds posted strong returns, supported during much of the reporting period by lower interest rates, the effect of a tax law change, and by strong demand for lower-volatility investments at the end of the reporting period. The 2017 tax bill limited the amount of state and local taxes that can be deducted from federally taxed income, driving higher-income investors toward tax-free municipal bonds. While the supply of tax-free bonds was somewhat restricted by limitations on advanced refunding (refinancing by issuing new tax-free bonds at a lower interest rate), issuance of taxable bonds increased significantly. Although the market for taxable municipal bonds is typically smaller than that of tax-exempt bonds since investors demand higher yields for taxable bonds, declining interest rates reached a level that meant issuing taxable bonds for refinancing became attractive to some issuers. Near the end of the reporting period, municipal bonds advanced sharply as uncertainty about the economic impact of the coronavirus caused many investors to shift toward less-risky assets.

Among individual states, New York and California municipal bonds both posted notable returns, due in part to demand generated by the limit on state and local tax deductions. Municipal bonds issued by other large states, such as Illinois, New Jersey, and Texas, also advanced as brisk demand from investors pressured yields, which declined to levels last seen in the 1950s. State revenues from the 2019 tax season were robust, and most state budgets were generally healthy, with many adding to rainy day funds designed to provide a financial cushion against future revenue shortfalls.

Investment Objective

The **iShares California Muni Bond ETF** (the "Fund") seeks to track the investment results of an index composed of investment-grade municipal bonds issued in the State of California, as represented by the S&P California AMT-Free Municipal Bond Index™ (the "Index"). The Fund invests in a representative sample of securities included in the Index that collectively has an investment profile similar to the Index. Due to the use of representative sampling, the Fund may or may not hold all of the securities that are included in the Index.

About Fund Performance

Past performance is no guarantee of future results. Financial markets have experienced extreme volatility and trading in many instruments has been disrupted. These circumstances may continue for an extended period of time, and may continue to affect adversely the value and liquidity of the fund's investments. As a result, current performance may be lower or higher than the performance data quoted. Performance data current to the most recent month-end is available at iShares.com. Performance results assume reinvestment of all dividends and capital gain distributions and do not reflect the deduction of taxes that a shareholder would pay on fund distributions or on the redemption or sale of fund shares. The investment return and principal value of shares will vary with changes in market conditions. Shares may be worth more or less than their original cost when they are redeemed or sold in the market. Performance for certain funds may reflect a waiver of a portion of investment advisory fees. Without such a waiver, performance would have been lower.

Net asset value or "NAV" is the value of one share of a fund as calculated in accordance with the standard formula for valuing mutual fund shares. The price used to calculate market return ("Market Price") is determined by using the midpoint between the highest bid and the lowest ask on the primary stock exchange on which shares of a fund are listed for trading, as of the time that such fund's NAV is calculated. Market and NAV returns assume that dividends and capital gain distributions have been reinvested at Market Price and NAV, respectively.

An index is a statistical composite that tracks a specified financial market or sector. Unlike a fund, an index does not actually hold a portfolio of securities and therefore does not incur the expenses incurred by a fund. These expenses negatively impact fund performance. Also, market returns do not include brokerage commissions that may be payable on secondary market transactions. If brokerage commissions were included, market returns would be lower.

Shareholder Expenses

As a shareholder of your Fund, you incur two types of costs: (1) transaction costs, including brokerage commissions on purchases and sales of fund shares and (2) ongoing costs, including management fees and other fund expenses. The expense example, which is based on an investment of \$1,000 invested at the beginning of the period (or from the commencement of operations if less than 6 months) and held through the end of the period, is intended to help you understand your ongoing costs (in dollars and cents) of investing in your Fund and to compare these costs with the ongoing costs of investing in other funds.

Actual Expenses – The table provides information about actual account values and actual expenses. Annualized expense ratios reflect contractual and voluntary fee waivers, if any. To estimate the expenses that you paid on your account over the period, simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number under the heading entitled "Expenses Paid During the Period."

Hypothetical Example for Comparison Purposes – The table also provides information about hypothetical account values and hypothetical expenses based on your Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of fund shares. Therefore, the hypothetical examples are useful in comparing ongoing costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

- (a) Zero-coupon bond.
(b) Variable or floating rate security. Rate shown is the rate in effect as of period-end.
(c) Security is payable upon demand on each reset date.
(d) Affiliate of the Fund.
(e) Annualized 7-day yield as of period-end.

Affiliates

Investments in issuers considered to be affiliates of the Fund during the year ended February 29, 2020, for purposes of Section 2(a)(3) of the 1940 Act, were as follows:

Affiliated Issuer	Shares Held at 02/28/19 (000)	Net Activity (000)	Shares Held at 02/29/20 (000)	Value at 02/29/20	Income	Net Realized Gain (Loss) ^(a)	Change in Unrealized Appreciation (Depreciation)
BlackRock Liquidity Funds: MuniCash	95,219	(11,631)	83,588	\$83,604,530	\$1,637,145	\$ 6,136	\$ 11,693

(a) Includes realized capital gain distributions from an affiliated fund, if any.

Fair Value Measurements

Various inputs are used in determining the fair value of financial instruments. For description of the input levels and information about the Fund's policy regarding valuation of financial instruments, refer to the Notes to Financial Statements.

The following table summarizes the value of the Fund's investments according to the fair value hierarchy as of February 29, 2020. The breakdown of the Fund's investments into major categories is disclosed in the Schedule of Investments above.

	Level 1	Level 2	Level 3	Total

- (a) Variable or floating rate security. Rate shown is the rate in effect as of period-end.
(b) Security is payable upon demand on each reset date.
(c) Zero-coupon bond.
(d) Affiliate of the Fund.
(e) Annualized 7-day yield as of period-end.

Affiliates

Investments in issuers considered to be affiliates of the Fund during the year ended February 29, 2020, for purposes of Section 2(a)(3) of the 1940 Act, were as follows:

Affiliated Issuer	Shares Held at 02/28/19 (000)	Net Activity (000)	Shares Held at 02/29/20 (000)	Value at 02/29/20	Income	Net Realized Gain (Loss) ^(a)	Change in Unrealized Appreciation (Depreciation)
BlackRock Liquidity Funds New York Money Fund Portfolio	3,236	(776)	2,460	\$2,459,588	\$82,254	\$ —	\$ —

(a) Includes realized capital gain distributions from an affiliated fund, if any.

February 29, 2020

Fair Value Measurements

Various inputs are used in determining the fair value of financial instruments. For description of the input levels and information about the Fund's policy regarding valuation of financial instruments, refer to the Notes to Financial Statements.

The following table summarizes the value of the Fund's investments according to the fair value hierarchy as of February 29, 2020. The breakdown of the Fund's investments into major categories is disclosed in the Schedule of Investments above.

	Level 1	Level 2	Level 3	Total
Investments				
Assets				
Municipal Debt Obligations	\$ —	\$480,787,786	\$ —	\$480,787,786

Affiliates

Investments in issuers considered to be affiliates of the Fund during the year ended February 29, 2020, for purposes of Section 2(a)(3) of the 1940 Act, were as follows:

Affiliated Issuer	Shares Held at 02/28/19 (000)	Net Activity (000)	Shares Held at 02/29/20 (000)	Value at 02/29/20	Income	Net Realized Gain (Loss) ^(a)	Change in Unrealized Appreciation (Depreciation)
BlackRock Liquidity Funds: MuniCash	1,972	1,220	3,192	\$3,193,077	\$182,786	\$ 124	\$ 160

^(a) Includes realized capital gain distributions from an affiliated fund, if any.

Fair Value Measurements

Various inputs are used in determining the fair value of financial instruments. For description of the input levels and information about the Fund's policy regarding valuation of financial instruments, refer to the Notes to Financial Statements.

The following table summarizes the value of the Fund's investments according to the fair value hierarchy as of February 29, 2020. The breakdown of the Fund's investments into major categories is disclosed in the Schedule of Investments above.

	Level 1	Level 2	Level 3	Total

Notes to Financial Statements

1. ORGANIZATION

iShares Trust (the “Trust”) is registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as an open-end management investment company. The Trust is organized as a Delaware statutory trust and is authorized to have multiple series or portfolios.

These financial statements relate only to the following funds (each, a “Fund,” and collectively, the “Funds”):

<i>iShares ETF</i>	<i>Diversification Classification</i>
California Muni Bond	Non-diversified
National Muni Bond	Diversified
New York Muni Bond	Non-diversified
Short-Term National Muni Bond	Diversified

2. SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies are consistently followed by each Fund in the preparation of its financial statements in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”). The preparation of financial statements in conformity with U.S. GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates. Each Fund is considered an investment company under U.S. GAAP and follows the accounting and reporting guidance applicable to investment companies.

Investment Transactions and Income Recognition: Investment transactions are accounted for on trade date. Realized gains and losses on investment transactions are determined using the specific identification method. Interest income, including amortization and accretion of premiums and discounts on debt securities, and payment-in-kind interest income, if any, are recognized daily on the accrual basis. Dividend income and capital gain distributions, if any, are recognized on the ex-dividend date, net of any foreign taxes withheld at source.

In-kind Redemptions: For financial reporting purposes, in-kind redemptions are treated as sales of securities resulting in realized capital gains or losses to the Funds. Because such gains or losses are not taxable to the Funds and are not distributed to existing Fund shareholders, the gains or losses are reclassified from accumulated net realized gain (loss) to paid-in capital at the end of the Funds’ tax year. These reclassifications have no effect on net assets or net asset value per share.

Distributions: Dividends and distributions paid by each Fund are recorded on the ex-dividend dates. Distributions are determined on a tax basis and may differ from net investment income and net realized capital gains for financial reporting purposes. Dividends and distributions are paid in U.S. dollars and cannot be automatically reinvested in additional shares of the Funds.

Recent Accounting Standards: The Funds have adopted Financial Accounting Standards Board Accounting Standards Update 2017-08 to amend the amortization period for certain purchased callable debt securities held at a premium. Under the new standard, the Funds have changed the amortization period for the premium on certain purchased callable debt securities with non-contingent call features to the earliest call date. In accordance with the transition provisions of the standard, the Funds applied the amendments on a modified retrospective basis beginning with the fiscal period ended February 29, 2020. The adjusted cost basis of securities at February 28, 2019 are as follows:

<i>iShares ETF</i>	
California Muni Bond	\$ 1,069,205,294
National Muni Bond	11,168,869,367
New York Muni Bond	338,404,750
Short-Term National Muni Bond	2,152,330,803

This change in accounting policy has been made to comply with the newly issued accounting standard and had no impact on accumulated earnings (loss) or the net asset value of the Funds.

Indemnifications: In the normal course of business, each Fund enters into contracts that contain a variety of representations that provide general indemnification. The Funds’ maximum exposure under these arrangements is unknown because it involves future potential claims against the Funds, which cannot be predicted with any certainty.

3. INVESTMENT VALUATION AND FAIR VALUE MEASUREMENTS

Investment Valuation Policies: Each Fund’s investments are valued at fair value (also referred to as “market value” within the financial statements) each day that the Fund’s listing exchange is open and, for financial reporting purposes, as of the report date should the reporting period end on a day that the Fund’s listing exchange is not open. U.S. GAAP defines fair value as the price a fund would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. A fund determines the fair value of its financial instruments using various independent dealers or pricing services under policies approved by the Board of Trustees of the Trust (the “Board”). The BlackRock Global Valuation Methodologies Committee (the “Global Valuation Committee”) is the committee formed by management to develop global pricing policies and procedures and to oversee the pricing function for all financial instruments.

Notes to Financial Statements (continued)

Fair Value Inputs and Methodologies: The following methods and inputs are used to establish the fair value of each Fund's assets and liabilities:

- Fixed-income investments are valued using the last available bid price or current market quotations provided by independent dealers or prices (including evaluated prices) supplied by approved independent third-party pricing services. Pricing services generally value fixed income securities assuming orderly transactions of an institutional round lot size, but a fund may hold or transact in such securities in smaller, odd lot sizes. Odd lots may trade at lower prices than institutional round lots. The pricing services may use matrix pricing or valuation models that utilize certain inputs and assumptions to derive values, including transaction data, credit quality information, perceived market movements, news, and other relevant information and by other methods, which may include consideration of: yields or prices of securities of comparable quality, coupon, maturity and type; indications as to values from dealers; general market conditions; and/or other factors and assumptions.
- Investments in open-end U.S. mutual funds (including money market funds) are valued at that day's published net asset value ("NAV").

If events (e.g., a company announcement, market volatility or a natural disaster) occur that are expected to materially affect the value of an investment, or in the event that application of these methods of valuation results in a price for an investment that is deemed not to be representative of the market value of such investment, or if a price is not available, the investment will be valued by the Global Valuation Committee, in accordance with policies approved by the Board as reflecting fair value ("Fair Valued Investments"). The fair valuation approaches that may be used by the Global Valuation Committee include market approach, income approach and the cost approach. Valuation techniques used under these approaches take into consideration inputs that include but are not limited to (i) attributes specific to the investment; (ii) the principal market for the investment; (iii) the customary participants in the principal market for the investment; (iv) data assumptions by market participants for the investment, if reasonably available; (v) quoted prices for similar investments in active markets; and (vi) other inputs, such as future cash flows, interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and/or default rates.

When determining the price for Fair Valued Investments, the Global Valuation Committee, or its delegate, seeks to determine the price that each Fund might reasonably expect to receive or pay from the current sale or purchase of that asset or liability in an arm's-length transaction. Fair value determinations shall be based upon all available factors that the Global Valuation Committee, or its delegate, deems relevant and consistent with the principles of fair value measurement.

Fair value pricing could result in a difference between the prices used to calculate a fund's NAV and the prices used by the fund's underlying index, which in turn could result in a difference between the fund's performance and the performance of the fund's underlying index.

Fair Value Hierarchy: Various inputs are used in determining the fair value of financial instruments. These inputs to valuation techniques are categorized into a fair value hierarchy consisting of three broad levels for financial reporting purposes as follows:

- Level 1 – Unadjusted price quotations in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly or indirectly, including, but not limited to, quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not considered to be active, inputs other than quoted prices that are observable for the asset or liability (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs; and
- Level 3 – Unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available, (including the Global Valuation Committee's assumptions used in determining the fair value of financial instruments).

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Accordingly, the degree of judgement exercised in determining fair value is greatest for instruments categorized in Level 3. The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the fair value hierarchy classification is determined based on the lowest level input that is significant to the fair value measurement in its entirety. The fair value hierarchy for each Fund's investments is included in its schedule of investments. The categorization of a value determined for financial instruments is based on the pricing transparency of the financial instruments and is not necessarily an indication of the risks associated with investing in those securities.

4. INVESTMENT ADVISORY AGREEMENT AND OTHER TRANSACTIONS WITH AFFILIATES

Investment Advisory Fees: Pursuant to an Investment Advisory Agreement with the Trust, BlackRock Fund Advisors ("BFA") manages the investment of each Fund's assets. BFA is a California corporation indirectly owned by BlackRock, Inc. ("BlackRock"). Under the Investment Advisory Agreement, BFA is responsible for substantially all expenses of the Funds, except (i) interest and taxes; (ii) brokerage commissions and other expenses connected with the execution of portfolio transactions; (iii) distribution fees; (iv) the advisory fee payable to BFA; and (v) litigation expenses and any extraordinary expenses (in each case as determined by a majority of the independent trustees).

For its investment advisory services to each of the Funds, BFA is entitled to an annual investment advisory fee, accrued daily and paid monthly by the Funds, based on the average daily net assets of each Fund as follows:

<i>iShares ETF</i>	<i>Investment Advisory Fee</i>
California Muni Bond	0.25%
National Muni Bond	0.07
New York Muni Bond	0.25
Short-Term National Muni Bond	0.07

Notes to Financial Statements (continued)

Expense Waivers: A fund may incur its pro rata share of fees and expenses attributable to its investments in other investment companies ("acquired fund fees and expenses").

For the iShares National Muni Bond ETF, BFA has contractually agreed to waive a portion of its investment advisory fee for the Fund through June 30, 2026 in an amount equal to the acquired fund fees and expenses, if any, attributable to the Fund's investments in other iShares funds.

Distributor: BlackRock Investments, LLC, an affiliate of BFA, is the distributor for each Fund. Pursuant to the distribution agreement, BFA is responsible for any fees or expenses for distribution services provided to the Funds.

Officers and Trustees: Certain officers and/or trustees of the Trust are officers and/or trustees of BlackRock or its affiliates.

Each Fund may invest its positive cash balances in certain money market funds managed by BFA or an affiliate. The income earned on these temporary cash investments is shown as dividends – affiliated in the statement of operations.

A fund, in order to improve its portfolio liquidity and its ability to track its underlying index, may invest in shares of other iShares funds that invest in securities in the fund's underlying index.

5. PURCHASES AND SALES

For the year ended February 29, 2020, purchases and sales of investments, excluding in-kind transactions and short-term investments, were as follows:

<i>iShares ETF</i>	<i>Purchases</i>	<i>Sales</i>
California Muni Bond.....	\$ 515,569,328	\$ 110,712,912
National Muni Bond.....	3,148,933,315	1,142,915,308
New York Muni Bond.....	145,292,826	26,349,149
Short-Term National Muni Bond	1,268,064,452	459,730,525

For the year ended February 29, 2020, in-kind transactions were as follows:

<i>iShares ETF</i>	<i>In-kind Purchases</i>	<i>In-kind Sales</i>
National Muni Bond.....	\$ 2,988,941,365	\$ 511,447,474
Short-Term National Muni Bond	196,698,608	—

6. INCOME TAX INFORMATION

Each Fund is treated as an entity separate from the Trust's other funds for federal income tax purposes. It is the policy of each Fund to qualify as a regulated investment company by complying with the provisions applicable to regulated investment companies, as defined under Subchapter M of the Internal Revenue Code of 1986, as amended, and to annually distribute substantially all of its ordinary income and any net capital gains (taking into account any capital loss carryforwards) sufficient to relieve it from all, or substantially all, federal income and excise taxes. Accordingly, no provision for federal income taxes is required.

Management has analyzed tax laws and regulations and their application to the Funds as of February 29, 2020, inclusive of the open tax return years, and does not believe that there are any uncertain tax positions that require recognition of a tax liability in the Funds' financial statements.

On April 9, 2020, iShares National Muni Bond ETF received permission from the Internal Revenue Service to change its accounting method with respect to the treatment of certain loss transactions for tax purposes. As a result, immaterial adjustments were made to tax cost, tax unrealized and non-expiring capital loss carryforward balances.

U.S. GAAP requires that certain components of net assets be adjusted to reflect permanent differences between financial and tax reporting. These reclassifications have no effect on net assets or NAV per share. As of February 29, 2020, the following permanent differences attributable to realized gains (losses) from in-kind redemptions, were reclassified to the following accounts:

<i>iShares ETF</i>	<i>Paid-in Capital</i>	<i>Accumulated Earnings</i>
National Muni Bond	\$ 14,655,276	\$(14,655,276)

Notes to Financial Statements (continued)

The tax character of distributions paid was as follows:

<i>iShares ETF</i>	Year Ended 02/29/20	Year Ended 02/28/19
California Muni Bond		
Tax-exempt income	\$ 26,425,968	\$ 22,171,230
Ordinary income	66,960	62,077
	<u>\$ 26,492,928</u>	<u>\$ 22,233,307</u>
National Muni Bond		
Tax-exempt income	\$ 330,799,082	\$ 248,070,004
Ordinary income	162,130	153,952
	<u>\$ 330,961,212</u>	<u>\$ 248,223,956</u>
New York Muni Bond		
Tax-exempt income	\$ 8,873,191	\$ 7,666,762
Ordinary income	4,666	5,544
	<u>\$ 8,877,857</u>	<u>\$ 7,672,306</u>
Short-Term National Muni Bond		
Tax-exempt income	\$ 38,450,095	\$ 23,353,462

As of February 29, 2020, the tax components of accumulated net earnings (losses) were as follows:

<i>iShares ETF</i>	Undistributed Tax Exempt Income	Non-expiring Capital Loss Carryforwards ^(a)	Net Unrealized Gains (Losses) ^(b)	Total
California Muni Bond	\$ 2,509,333	\$ (294,657)	\$ 103,352,832	\$ 105,567,508
National Muni Bond	31,941,010	(24,570,770)	1,040,105,720	1,047,475,960
New York Muni Bond	828,507	(47,908)	27,596,469	28,377,068
Short-Term National Muni Bond	3,888,443	(1,224,557)	45,214,708	47,878,594

^(a) Amounts available to offset future realized capital gains.

^(b) The difference between book-basis and tax-basis unrealized gains (losses) was attributable primarily to the tax deferral of losses on wash sales and amortization methods for premiums and discounts on fixed income securities.

For the year ended February 29, 2020, the Funds utilized the following amounts of their capital loss carryforwards as follows:

<i>iShares ETF</i>	Utilized
California Muni Bond	\$ 61,442
National Muni Bond	6,727,203
New York Muni Bond	56,135

As of February 29, 2020, gross unrealized appreciation and depreciation based on cost of investments (including short positions and derivatives, if any) for U.S. federal income tax purposes were as follows:

<i>iShares ETF</i>	Tax Cost	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation (Depreciation)
California Muni Bond	\$ 1,471,826,223	\$ 103,416,743	\$ (63,911)	\$ 103,352,832
National Muni Bond	15,397,896,819	1,040,217,393	(111,673)	1,040,105,720
New York Muni Bond	455,650,905	27,596,970	(501)	27,596,469
Short-Term National Muni Bond	3,036,513,010	45,300,403	(85,695)	45,214,708

7. PRINCIPAL RISKS

In the normal course of business, each Fund invests in securities or other instruments and may enter into certain transactions, and such activities subject the Fund to various risks, including, among others, fluctuations in the market (market risk) or failure of an issuer to meet all of its obligations. The value of securities or other instruments may also be affected by various factors, including, without limitation: (i) the general economy; (ii) the overall market as well as local, regional or global political and/or social instability; (iii) regulation, taxation or international tax treaties between various countries; or (iv) currency, interest rate or price fluctuations. Each Fund's prospectus provides details of the risks to which the Fund is subject.

Notes to Financial Statements (continued)

BFA uses a “passive” or index approach to try to achieve each Fund’s investment objective following the securities included in its underlying index during upturns as well as downturns. BFA does not take steps to reduce market exposure or to lessen the effects of a declining market. Divergence from the underlying index and the composition of the portfolio is monitored by BFA.

Market Risk: Market risk arises mainly from uncertainty about future values of financial instruments influenced by price, currency and interest rate movements. It represents the potential loss a fund may suffer through holding market positions in the face of market movements. A fund is exposed to market risk by its investment in equity, fixed income and/or financial derivative instruments or by its investment in underlying funds. The fair value of securities held by a fund may decline due to general market conditions, economic trends or events that are not specifically related to the issuers of the securities including local, regional or global political, social or economic instability or to factors that affect a particular industry or group of industries. Local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issues, recessions, or other events could have a significant impact on the Funds and their investments. The extent of a fund’s exposure to market risk is the market value of the investments held as shown in the fund’s schedule of investments.

Changes in market interest rates or economic conditions may affect the value and/or liquidity of fixed income investments. Interest rate risk is the risk that prices of bonds and other fixed-income securities will decrease as interest rates rise and increase as interest rates fall. Securities with longer durations tend to be more sensitive to interest rate changes, usually making their prices more volatile than those of securities with shorter durations. Given the environment of historically low interest rates, a fund may be subject to a greater risk of price losses if interest rates rise.

An outbreak of respiratory disease caused by a novel coronavirus has developed into a global pandemic and has resulted in closing borders, quarantines, disruptions to supply chains and customer activity, as well as general concern and uncertainty. The impact of this pandemic, and other global health crises that may arise in the future, could affect the economies of many nations, individual companies and the market in general in ways that cannot necessarily be foreseen at the present time. This pandemic may result in substantial market volatility and may adversely impact the prices and liquidity of a fund’s investments. The impact of the pandemic may be short term or may last for an extended period of time.

Credit Risk: Credit risk is the risk that an issuer or guarantor of debt instruments or the counterparty to a financial transaction, including derivatives contracts, repurchase agreements or loans of portfolio securities, is unable or unwilling to make timely interest and/or principal payments or to otherwise honor its obligations. BFA and its affiliates manage counterparty credit risk by entering into transactions only with counterparties that they believe have the financial resources to honor their obligations and by monitoring the financial stability of those counterparties. Financial assets, which potentially expose a fund to issuer and counterparty credit risks, consist principally of financial instruments and receivables due from counterparties. The extent of a fund’s exposure to credit and counterparty risks with respect to those financial assets is approximated by their value recorded in its statement of assets and liabilities.

Municipal securities are subject to the risk that litigation, legislation or other political events, local business or economic conditions, credit rating downgrades, or the bankruptcy of the issuer could have a significant effect on an issuer’s ability to make payments of principal and/or interest or otherwise affect the value of such securities. Municipal securities can be significantly affected by political or economic changes, including changes made in the law after issuance of the securities, as well as uncertainties in the municipal market related to, taxation, legislative changes or the rights of municipal security holders, including in connection with an issuer insolvency. Municipal securities backed by current or anticipated revenues from a specific project or specific assets can be negatively affected by the discontinuance of the tax benefits supporting the project or assets or the inability to collect revenues for the project or from the assets. Municipal securities may be less liquid than taxable bonds, and there may be less publicly available information on the financial condition of municipal security issuers than for issuers of other securities.

Concentration Risk: A diversified portfolio, where this is appropriate and consistent with a fund’s objectives, minimizes the risk that a price change of a particular investment will have a material impact on the NAV of a fund. The investment concentrations within each Fund’s portfolio are disclosed in its schedule of investments.

When a municipal bond fund concentrates its investments in issuers located in a single state, it assumes the risk that economic, regulatory, political or social conditions affecting that state could have a significant impact on the fund and could affect the income from, or the value or liquidity of, the fund’s portfolio.

8. CAPITAL SHARE TRANSACTIONS

Capital shares are issued and redeemed by each Fund only in aggregations of a specified number of shares or multiples thereof (“Creation Units”) at NAV. Except when aggregated in Creation Units, shares of each Fund are not redeemable.

Transactions in capital shares were as follows:

	Year Ended 02/29/20		Year Ended 02/28/19	
	Shares	Amount	Shares	Amount
<i>iShares ETF</i>				
California Muni Bond				
Shares sold	6,500,000	\$ 396,371,665	5,100,000	\$ 297,935,341
Shares redeemed	—	—	(1,700,000)	(97,825,138)
Net increase	6,500,000	\$ 396,371,665	3,400,000	\$ 200,110,203

Notes to Financial Statements (continued)

<i>iShares ETF</i>	Year Ended 02/29/20		Year Ended 02/28/19	
	Shares	Amount	Shares	Amount
National Muni Bond				
Shares sold	44,100,000	\$ 4,991,354,526	35,300,000	\$ 3,820,998,888
Shares redeemed	(6,700,000)	(760,620,663)	(15,000,000)	(1,629,130,421)
Net increase	37,400,000	\$ 4,230,733,863	20,300,000	\$ 2,191,868,467
New York Muni Bond				
Shares sold	2,100,000	\$ 119,580,142	850,000	\$ 46,323,597
Short-Term National Muni Bond				
Shares sold	8,350,000	\$ 890,916,445	6,400,000	\$ 671,135,283
Shares redeemed	—	—	(500,000)	(52,260,554)
Net increase	8,350,000	\$ 890,916,445	5,900,000	\$ 618,874,729

The consideration for the purchase of Creation Units of a fund in the Trust generally consists of the in-kind deposit of a designated portfolio of securities and a specified amount of cash. Certain funds in the Trust may be offered in Creation Units solely or partially for cash in U.S. dollars. Investors purchasing and redeeming Creation Units may pay a purchase transaction fee and a redemption transaction fee directly to State Street Bank and Trust Company, the Trust's administrator, to offset transfer and other transaction costs associated with the issuance and redemption of Creation Units, including Creation Units for cash. Investors transacting in Creation Units for cash may also pay an additional variable charge to compensate the relevant fund for certain transaction costs (i.e., stamp taxes, taxes on currency or other financial transactions, and brokerage costs) and market impact expenses relating to investing in portfolio securities. Such variable charges, if any, are included in shares sold in the table above.

From time to time, settlement of securities related to in-kind contributions or in-kind redemptions may be delayed. In such cases, securities related to in-kind transactions are reflected as a receivable or a payable in the statement of assets and liabilities.

9. LEGAL PROCEEDINGS

On June 16, 2016, investors in certain iShares funds (iShares Core S&P Small-Cap ETF, iShares Russell 1000 Growth ETF, iShares Core S&P 500 ETF, iShares Russell Mid-Cap Growth ETF, iShares Russell Mid-Cap ETF, iShares Russell Mid-Cap Value ETF, iShares Select Dividend ETF, iShares Morningstar Mid-Cap ETF, iShares Morningstar Large-Cap ETF, iShares U.S. Aerospace & Defense ETF and iShares Preferred and Income Securities ETF) filed a class action lawsuit against iShares Trust, BlackRock, Inc. and certain of its advisory affiliates, and certain directors/trustees and officers of the Funds (collectively, "Defendants") in California State Court. The lawsuit alleges the Defendants violated federal securities laws by failing to adequately disclose in the prospectuses issued by the funds noted above the risks of using stop-loss orders in the event of a 'flash crash', such as the one that occurred on May 6, 2010. On September 18, 2017, the court issued a Statement of Decision holding that the Plaintiffs lack standing to assert their claims. On October 11, 2017, the court entered final judgment dismissing all of the Plaintiffs' claims with prejudice. In an opinion dated January 23, 2020, the California Court of Appeal affirmed the dismissal of Plaintiffs' claims. On March 3, 2020, plaintiffs filed a petition for review by the California Supreme Court.

10. SUBSEQUENT EVENTS

Management has evaluated the impact of all subsequent events on the Funds through the date the financial statements were available to be issued and has determined that there were no subsequent events requiring adjustment or additional disclosure in the financial statements.

Report of Independent Registered Public Accounting Firm

To the Board of Trustees of iShares Trust and
Shareholders of iShares California Muni Bond ETF, iShares National Muni Bond ETF,
iShares New York Muni Bond ETF and iShares Short-Term National Muni Bond ETF

Opinions on the Financial Statements

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of iShares California Muni Bond ETF, iShares National Muni Bond ETF, iShares New York Muni Bond ETF and iShares Short-Term National Muni Bond ETF (four of the funds constituting iShares Trust, hereafter collectively referred to as the “Funds”) as of February 29, 2020, the related statements of operations for the year ended February 29, 2020, the statements of changes in net assets for each of the two years in the period ended February 29, 2020, including the related notes, and the financial highlights for each of the five years in the period ended February 29, 2020 (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds as of February 29, 2020, the results of each of their operations for the year then ended, the changes in each of their net assets for each of the two years in the period ended February 29, 2020 and each of the financial highlights for each of the five years in the period ended February 29, 2020 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinions

These financial statements are the responsibility of the Funds’ management. Our responsibility is to express an opinion on the Funds’ financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Funds in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of February 29, 2020 by correspondence with the custodian, transfer agent and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinions.

We have served as the auditor of one or more BlackRock investment companies since 2000.

Important Tax Information (unaudited)

The Funds hereby designate the following percentage of distributions from net investment income as exempt-interest dividends for the fiscal year ended February 29, 2020:

<i>iShares ETF</i>	<i>Exempt-Interest Dividends</i>
California Muni Bond.....	99.75%
National Muni Bond.....	99.95
New York Muni Bond.....	99.95
Short-Term National Muni Bond	100.00

For California income tax purposes, the iShares California Muni Bond ETF designates 99.75% of its distributions paid from net investment income during the fiscal year ended February 29, 2020 as California exempt-interest dividends under Section 17145 of the California Revenue and Taxation Code.

Additionally, all ordinary income distributions are comprised of interest related dividends for non-U.S. residents and are eligible for exemption from U.S. withholding tax for nonresident aliens and foreign corporations.

Statement Regarding Liquidity Risk Management Program

The Securities and Exchange Commission adopted Rule 22e-4 under the Investment Company Act of 1940, as amended (the "Liquidity Rule") to promote effective liquidity risk management throughout the open-end investment company industry, thereby reducing the risk that funds will be unable to meet their redemption obligations and mitigating dilution of the interests of fund shareholders.

The Board of Trustees (the "Board") of iShares California Muni Bond ETF, iShares National Muni Bond ETF, iShares New York Muni Bond ETF and iShares Short-Term National Muni Bond ETF met on December 3, 2019 (the "Meeting") to review the liquidity risk management program (the "Program") applicable to the iShares Funds (each, a "Fund") pursuant to the Liquidity Rule. The Board has appointed BlackRock Fund Advisors ("BlackRock"), the investment adviser to the Funds, as the program administrator for each Fund's Program, as applicable. BlackRock has delegated oversight of the Program to the 40 Act Liquidity Risk Management Committee (the "Committee"). At the Meeting, the Committee, on behalf of BlackRock, provided the Board with a report that addressed the operation of the Program and assessed its adequacy and effectiveness of implementation, including the operation of each Fund's Highly Liquid Investment Minimum ("HLIM") where applicable, and any material changes to the Program (the "Report"). The Report covered the period from December 1, 2018 through September 30, 2019 (the "Program Reporting Period").

The Report described the Program's liquidity classification methodology for categorizing a Fund's investments (including derivative transactions) into one of four liquidity buckets. It also described BlackRock's methodology in establishing a Fund's HLIM and noted that the Committee reviews and ratifies the HLIM assigned to each Fund no less frequently than annually.

The Report noted that the Program complied with the key factors for consideration under the Liquidity Rule for assessing, managing and periodically reviewing a Fund's liquidity risk, as follows:

- a) ***The Fund's investment strategy and liquidity of portfolio investments during both normal and reasonably foreseeable stressed conditions.*** During the Program Reporting Period, the Committee reviewed whether each Fund's investment strategy is appropriate for an open-end fund structure with a focus on Funds with more significant and consistent holdings of less liquid and illiquid assets. The Committee also factored a Fund's concentration in an issuer into the liquidity classification methodology by taking issuer position sizes into account. A factor for consideration under the Liquidity Rule is a Fund's use of borrowings for investment purposes. However, the Funds do not borrow for investment purposes. Derivative exposure was considered in the calculation of liquidity classification.
- b) ***Short-term and long-term cash flow projections during both normal and reasonably foreseeable stressed conditions.*** During the Program Reporting Period, the Committee reviewed historical redemption activity and used this information as a component to establish each ETF's reasonably anticipated trading size. The Committee may also take into consideration a Fund's shareholder ownership concentration (which, depending on product type and distribution channel, may or may not be available), a Fund's distribution channels, and the degree of certainty associated with a Fund's short-term and long-term cash flow projections.
- c) ***Holdings of cash and cash equivalents, as well as borrowing arrangements.*** The Committee considered that ETFs generally do not hold more than de minimus amounts of cash. Funds may borrow for temporary or emergency purposes, including to meet payments due from redemptions or to facilitate the settlement of securities or other transactions.
- d) ***The relationship between an ETF's portfolio liquidity and the way in which, and the prices and spreads at which, ETF shares trade, including the efficiency of the arbitrage function and the level of active participation by market participants, including authorized participants.*** The Committee monitored the prevailing bid/ask spread and the ETF price premium (or discount) to NAV for all ETFs and reviewed any persistent deviations from long-term averages.
- e) ***The effect of the composition of baskets on the overall liquidity of an ETF's portfolio.*** In reviewing the linkage between the composition of baskets accepted by an ETF and any significant change in the liquidity profile of such ETF, the Committee reviewed changes in the proportion of each ETF's portfolio comprised of less liquid and illiquid holdings to determine if applicable thresholds were met requiring enhanced review.

There were no material changes to the Program during the Program Reporting Period. The Report provided to the Board stated that the Committee concluded that based on the operation of the functions, as described in the Report, the Program is operating as intended and is effective in implementing the requirements of the Liquidity Rule.

Section 19(a) Notices

The amounts and sources of distributions reported are estimates and are being provided pursuant to regulatory requirements and are not being provided for tax reporting purposes. The actual amounts and sources for tax reporting purposes will depend upon each fund's investment experience during the year and may be subject to changes based on tax regulations. Shareholders will receive a Form 1099-DIV each calendar year that will inform them how to report these distributions for federal income tax purposes.

	Total Cumulative Distributions for the Fiscal Year				% Breakdown of the Total Cumulative Distributions for the Fiscal Year			
	Net Investment Income	Net Realized Capital Gains	Return of Capital	Total Per Share	Net Investment Income	Net Realized Capital Gains	Return of Capital	Total Per Share
<i>iShares ETF</i>								
California Muni Bond ^(a)	\$ 1.235593	\$ —	\$ 0.001515	\$ 1.237108	100%	—%	0% ^(b)	100%
National Muni Bond	2.737307	—	—	2.737307	100	—	—	100
New York Muni Bond ^(a)	1.234637	—	0.001433	1.236070	100	—	0 ^(b)	100
Short-Term National Muni Bond ^(a)	1.681879	—	0.002632	1.684511	100	—	0 ^(b)	100

^(a) The Fund estimates that it has distributed more than its net investment income and net realized capital gains; therefore, a portion of the distribution may be a return of capital. A return of capital may occur, for example, when some or all of the shareholder's investment in the Fund is returned to the shareholder. A return of capital does not necessarily reflect the Fund's investment performance and should not be confused with "yield" or "income". When distributions exceed total return performance, the difference will incrementally reduce the Fund's net asset value per share.

^(b) Rounds to less than 1%.

Premium/Discount Information

The Premium/Discount Information section is intended to present information about the differences between the daily market price on secondary markets for shares of a fund and that fund's NAV. NAV is the price at which a fund issues and redeems shares. It is calculated in accordance with the standard formula for valuing mutual fund shares. The "Market Price" of a fund generally is determined using the midpoint between the highest bid and the lowest ask on the primary securities exchange on which shares of such fund are listed for trading, as of the time that the fund's NAV is calculated. A fund's Market Price may be at, above or below its NAV. The NAV of a fund will fluctuate with changes in the value of its portfolio holdings. The Market Price of a fund will fluctuate in accordance with changes in its NAV, as well as market supply and demand.

Premiums or discounts are the differences (expressed as a percentage) between the NAV and Market Price of a fund on a given day, generally at the time the NAV is calculated. A premium is the amount that a fund is trading above the reported NAV, expressed as a percentage of the NAV. A discount is the amount that a fund is trading below the reported NAV, expressed as a percentage of the NAV.

Premium/discount information for the Funds covering the most recently completed calendar year and the most recently completed calendar quarters since that year (or since the Fund began trading, if shorter) is publicly accessible, free of charge, at iShares.com.

The following information shows the frequency of distributions of premiums and discounts for the Funds for the immediately preceding five calendar years (or from the date a Fund began trading on the secondary market, if less than five years) through the date of the most recent calendar quarter-end. Each line in each table shows the number of trading days in which the Fund traded within the premium/discount range indicated. Premium/discount ranges with no trading days are omitted. The number of trading days in each premium/discount range is also shown as a percentage of the total number of trading days in the period covered by each table. All data presented here represents past performance, which cannot be used to predict future results.

Trustee and Officer Information

The Board of Trustees has responsibility for the overall management and operations of the Funds, including general supervision of the duties performed by BFA and other service providers. Each Trustee serves until he or she resigns, is removed, dies, retires or becomes incapacitated. Each officer shall hold office until his or her successor is elected and qualifies or until his or her death, resignation or removal. Trustees who are not “interested persons” (as defined in the 1940 Act) of the Trust are referred to as independent trustees (“Independent Trustees”).

The registered investment companies advised by BFA or its affiliates (the “BlackRock-advised Funds”) are organized into one complex of open-end equity, multi-asset, index and money market funds (the “BlackRock Multi-Asset Complex”), one complex of closed-end funds and open-end non-index fixed-income funds (the “BlackRock Fixed-Income Complex”) and one complex of ETFs (“Exchange-Traded Fund Complex”) (each, a “BlackRock Fund Complex”). Each Fund is included in the BlackRock Fund Complex referred to as the Exchange-Traded Fund Complex. Each Trustee also serves as a Director of iShares, Inc. and a Trustee of iShares U.S. ETF Trust and, as a result, oversees all of the funds within the Exchange-Traded Fund Complex, which consists of 366 funds as of February 29, 2020. With the exception of Robert S. Kapito, Salim Ramji and Charles Park, the address of each Trustee and officer is c/o BlackRock, Inc., 400 Howard Street, San Francisco, CA 94105. The address of Mr. Kapito, Mr. Ramji and Mr. Park is c/o BlackRock, Inc., Park Avenue Plaza, 55 East 52nd Street, New York, NY 10055. The Board has designated Cecilia H. Herbert as its Independent Board Chair. Additional information about the Funds’ Trustees and officers may be found in the Funds’ combined Statement of Additional Information, which is available without charge, upon request, by calling toll-free 1-800-iShares (1-800-474-2737).

Interested Trustees

Name (Age)	Position(s)	Principal Occupation(s) During the Past 5 Years	Other Directorships Held by Trustee

General Information

Electronic Delivery

Shareholders can sign up for email notifications announcing that the shareholder report or prospectus has been posted on the iShares website at [iShares.com](https://www.ishares.com). Once you have enrolled, you will no longer receive prospectuses and shareholder reports in the mail.

To enroll in electronic delivery:

- Go to icsdelivery.com.
- If your brokerage firm is not listed, electronic delivery may not be available. Please contact your broker-dealer or financial advisor.

Householding

Householding is an option available to certain fund investors. Householding is a method of delivery, based on the preference of the individual investor, in which a single copy of certain shareholder documents can be delivered to investors who share the same address, even if their accounts are registered under different names. Please contact your broker-dealer if you are interested in enrolling in householding and receiving a single copy of prospectuses and other shareholder documents, or if you are currently enrolled in householding and wish to change your householding status.

Availability of Quarterly Schedule of Investments

The iShares Funds file their complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year as an exhibit to its reports on Form N-PORT, and for reporting periods ended prior to March 31, 2019, filed such information on Form N-Q. The iShares Funds' Forms N-Q are available on the SEC's website at [sec.gov](https://www.sec.gov). The iShares Funds also disclose their complete schedule of portfolio holdings on a daily basis on the iShares website at [iShares.com](https://www.ishares.com).

Availability of Proxy Voting Policies and Proxy Voting Records

A description of the policies and procedures that the iShares Funds use to determine how to vote proxies relating to portfolio securities and information about how the iShares Funds voted proxies relating to portfolio securities during the most recent twelve-month period ending June 30 is available without charge, upon request (1) by calling toll-free 1-800-474-2737; (2) on the iShares website at [iShares.com](https://www.ishares.com); and (3) on the SEC website at [sec.gov](https://www.sec.gov).
