**iShares U.S. Large Cap Premium Income Active ETF  
 (the "Fund")**

Dear Shareholder,

Section 19(a) of the Investment Company Act of 1940 requires notice to shareholders if the payment of any distribution is made from any source other than the fund's net income. This notice is intended to satisfy the requirements under Section 19(a).

The Funds estimate the distributions from income, net-realized capital gains; and return of capital. A return of capital may occur, for example, when some or all of the money that you invested in the Fund is paid back to you. A return of capital does not necessarily reflect the Fund's investment performance and should not be confused with 'yield' or 'income'. When distributions exceed total return performance, the difference will reduce the Fund's net asset value per share.

The following tables set forth the estimated amounts of the current distribution and the cumulative distributions paid this fiscal year to date from the following sources: net income, net realized capital gains and return of capital.

**The amounts and sources of distributions reported in this Notice are not being provided for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund's investment experience during its fiscal year and may be subject to changes based on tax regulations. The Fund will send you a Form 1099-DIV for the calendar year that will tell you how to report these distributions for federal income tax purposes.**

Note that each Fund will typically make distributions in excess of the Fund's current and accumulated earnings and profits. These distributions may be characterized as a tax-free return of capital to the extent of a shareholder's basis in shares of the fund and as a capital gain thereafter (if the shareholder holds shares of the Fund as capital assets). For further information please see the Fund's Prospectus and Statement of Additional Information.
