

IMPORTANT TAX INFORMATION

The Form 1099-DIV (or substitute form) you received from your financial advisor or brokerage firm may include income derived from U.S. Government and agency obligations. This income may be excluded from state income tax (although in many states, only the income from Treasury obligations is exempt from personal state income tax). The information below is provided to assist with the completion of shareholder state income tax returns. The amount in Box 1a of 2018 IRS Form 1099-DIV should be multiplied by the applicable percentages below to obtain the dollar amount of income derived from the sources categorized below. Because the qualifications for exclusion vary by state (some states have investment threshold requirements), please consult your tax advisor for details.

This spreadsheet does not constitute, and should not be considered a substitute for, legal advice. The rules governing the proper tax characterization of distributions by investment companies can be complex. Shareholders should consult their own tax advisor regarding the proper tax characterization and reporting of the fund's distributions.
