

Passive Foreign Investment Companies and Fund Income Distribution Impact

iShares® Funds may own shares in foreign corporations that qualify for treatment as Passive Foreign Investment Companies (PFICs) under the Internal Revenue Code. PFICs are broadly defined as non-US corporations having 50% or more of their assets invested in cash or investments, or having 75% or more of their gross income originating from passive sources, including but not limited to interest, dividends and rents. Please refer to the Fund’s Statement of Additional Information (SAI) for further information.

The table below contains estimated PFIC adjustments for select iShares Funds. The estimated adjustments represent a potential dollar impact to the December distributions and are based upon the best information available as of November 16, 2022. This estimate is for informational purposes only and does not take into account any possible tax reclassifications, nor does it contemplate changes in income that may occur prior to record date. Actual adjustments may be higher or lower than the estimate. You should not make investment decisions based on this information. Please consult your tax professional or financial advisor for more information regarding your tax situation.
